**EXHIBIT B – "OTHER"**

Whether engaging with BrainPOP through a free trial or a paid subscription, schools or districts are required to appoint an administrator ("Administrator"), who is authorized by the school or the district to be responsible for the Students Records.

Each school or district Administrator has access to a dashboard that allows them to create, update, review, modify and delete individual accounts, and monitor logins within the individual accounts.

To create the teacher accounts, we require a full name, email address, class name, and a password security question. We also use the email address to send product updates and use recommendations, password recovery information, effectiveness and efficacy data, invitations to participate in surveys and research and more (messaging may not be available in all jurisdictions). An unsubscribe option is included in promotional messaging.

If a school or district uses and accesses individual accounts through any of the single sign on services that we support, we collect the information we use for the individual accounts function from the third party integrated service.

**Students Information:**

Students accounts can be created by the school, the district, or by the teachers, or the teacher can invite the students to create the accounts using a class code provided by the teacher. We collect students' full name, class, graduation year/grade, username, password and security question(s). Students will be able to store their activities, quizzes, movies and other projects they've created and correspondences with their teachers within their individual accounts. We collect student's voice-recording if they use the recording feature in Make-a-Movie®
