This DPA may be amended and the observance of any provision of this DPA may be waived (either generally or in any particular instance and either retroactively or prospectively) only with the signed written consent of both Parties. Neither failure nor delay on the part of any Party in exercising any right, power, or privilege hereunder shall operate as a waiver of such right, nor shall any single or partial exercise of any such right, power, or privilege preclude any further exercise thereof or the exercise of any other right, power, or privilege.

Any provision of this DPA that is prohibited or unenforceable in any jurisdiction shall, as to such jurisdiction, be ineffective to the extent of such prohibition or unenforceability without invalidating the remaining provisions of this DPA, and any such prohibition or unenforceability in any jurisdiction shall not invalidate or render unenforceable such provision in any other jurisdiction. Notwithstanding the foregoing, if such provision could be more narrowly drawn so as not to be prohibited or unenforceable in such jurisdiction while, at the same time, maintaining the intent of the Parties, it shall, as to such jurisdiction, be so narrowly drawn without invalidating the remaining provisions of this DPA or affecting the validity or enforceability of such provision in any other jurisdiction.
6. **Governing Law; Venue and Jurisdiction**. THIS DPA WILL BE GOVERNED BY AND CONSTRUED IN ACCORDANCE WITH THE LAWS OF THE STATE OF THE LEA, WITHOUT REGARD TO CONFLICTS OF LAW PRINCIPLES. 7. **Successors Bound**: This DPA is and shall be binding upon the respective successors in interest to Provider in the event of a merger, acquisition, consolidation or other business reorganization or sale of all or substantially all of the assets of such business. In the event that the Provider sells, merges, or otherwise disposes of its business to a successor during the term of this DPA, the Provider shall provide written notice to the LEA no later than sixty (60) days after the closing date of sale, merger, or disposal. Such notice shall include a written, signed assurance that the successor will assume the obligations of the DPA and any obligations with respect to Student Data within the Service Agreement. The LEA has the authority to terminate the DPA if it disapproves of the successor to whom the Provider is selling, merging, or otherwise disposing of its business.
8. **Authority**. Each party represents that it is authorized to bind to the terms of this DPA, including confidentiality and destruction of Student Data and any portion thereof contained therein, all related or associated institutions, individuals, employees or contractors who may have access to the Student Data and/or any portion thereof.
9. **Waiver**. No delay or omission by either party to exercise any right hereunder shall be construed as a waiver of any such right and both parties reserve the right to exercise any such right from time to time, as often as may be deemed expedient.

IXL Information Security Policies and Procedures

Introduction

IXL's information security is a top priority to the company. IXL employs reasonable organizational and technical means to prevent unauthorized access, use, alteration, or disclosure of customer data stored on systems under IXL's control.

- 1. Access to customer data.** IXL limits its personnel's access to customer data as follows:
 - Requires unique user credentials and two-factor authentication to access network environments containing user data;
 - External connections to all production systems are limited to encrypted and secure protocols, and governed by firewall rules that grant the minimal amount of access required to perform required functions; and
 - Limits access to customer data to employees with a business need for access.

- 2. Data encryption.** IXL provides encryption for customer data as follows:
 - Network connections to IXL's production environment utilize Transport Layer Security (TLS) or Secure Shell (SSH);
 - All data stored in IXL's production environment is encrypted at rest using AES-256 bit encryption; and
 - All data stored on IXL-owned laptops is encrypted at rest.

- 3. Data Security Measures**
 - IXL employs automated log collection and audit trails for production systems.
 - Connections originating from untrusted networks segments will be governed by firewall rules and other security safeguards that grant the minimal access required to access the intended service provided by the company.
 - System passwords and access keys are stored in a privileged location accessible only to IXL security administrators, and all credentials are changed from factory default settings.
 - Production systems receive regular maintenance to apply security patches; and
 - Physical access to systems requires security RFID badges and biometric authentication, and is limited to IT staff performing physical maintenance.

- 4. Independent security assessments.** IXL utilizes the following third-party services to evaluate and certify IXL's security methodology:
 - Undergoes monthly third-party network vulnerability scanning and assessment tests;
 - Maintains PCI-DSS Compliance Level 2; and
 - Randomly selects employees for security assessment practical examination on an ongoing basis.

- 5. Incident response.** In the event of a data breach, a thorough post mortem will be conducted to identify the cause and scope of the breach, systems will be patched in a timely manner if necessary, and changes to security methodology will be implemented if warranted. IXL will also comply with any contractual and legal obligations regarding notification of data breaches.
- 6. Personnel Management.** IXL requires its employees to conform to information security standards as follows:

 - Performs employment verification, including proof of identity validation and criminal background checks for all new hire;
 - Conducts on-going training with IXL employees on network security practices and company data handling procedures; and
 - Revokes employee access to IXL networks and services upon departure from the company.
- 7. Modifications to policy.** From time to time, IXL may modify this policy and its security procedures, but will not materially reduce the overall level of information security. IXL will provide any updates to policy upon request.
