In the event that a parent of a pupil or other individual contacts the Provider to review any of the Student Data accessed pursuant to the Services, the Provider shall refer the parent or individual to the LEA, who will follow the necessary and proper procedures regarding the requested information.
3. **Separate Account.** If pupil generated content is stored or maintained by the Provider as part of the Services described in Exhibit "A", Provider shall, at the request of the LEA, transfer said pupil generated content to a separate student account upon termination of the Service Agreement; provided, however, such transfer shall only apply to pupil generated content that is severable from the Service.

2. **Annual Notification of Rights**. If the LEA has a policy of disclosing education records under FERPA (4 CFR § 99.31 (a) (1)), LEA shall include a specification of criteria for determining who constitutes a school official and what constitutes a legitimate educational interest in its Annual notification of rights.
3. **Reasonable Precautions**. LEA shall take reasonable precautions to secure usernames, passwords, and any other means of gaining access to the services and hosted data.
4. **Unauthorized Access Notification**. LEA shall notify Provider promptly of any known or suspected unauthorized access. LEA will assist Provider in any efforts by Provider to investigate and respond to any unauthorized access.

The data shared pursuant to the Service Agreement, including persistent unique identifiers, shall be used for no purpose other than the Services stated in the Service Agreement and/or otherwise authorized under the statutes referred to in subsection (1), above. Provider also acknowledges and agrees that it shall not make any re-disclosure of any Student Data or any portion thereof, including without limitation, meta data, user content or other non-public information and/or personally identifiable information contained in the Student Data, without the express written consent of the LEA.
3. **Employee Obligation**. Provider shall require all employees and agents who have access to Student Data to comply with all applicable provisions of this DPA with respect to the data shared under the Service Agreement.
4. **No Disclosure**. De-identified information may be used by the Provider for the purposes of development, research, and improvement of educational sites, services, or applications, as any other member of the public or party would be able to use de-identified data pursuant to 34 CFR 99.31(b). Provider agrees not to attempt to re-identify de-identified Student Data and not to transfer de-identified Student Data to any party unless (a) that party agrees in writing not to

attempt re-identification, and (b) prior written notice has been given to LEA who has provided prior written consent for such transfer. Provider shall not copy, reproduce or transmit any data obtained under the Service Agreement and/or any portion thereof, except as necessary to fulfill the Service Agreement.

5. Disposition of Data. Upon written request and in accordance with the applicable terms in subsection a or b, below, Provider shall dispose or delete all Student Data obtained under the Service Agreement when it is no longer needed for the purpose for which it was obtained. Disposition shall include (1) the shredding of any hard copies of any Student Data; (2) Erasing; or (3) Otherwise modifying the personal information in those records to make it unreadable or indecipherable by human or digital means. Nothing in the Service Agreement authorizes Provider to maintain Student Data obtained under the Service Agreement beyond the time period reasonably needed to complete the disposition. Provider shall provide written notification to LEA when the Student Data has been disposed. The duty to dispose of Student Data shall not extend to data that has been de-identified or placed in a separate Student account, pursuant to the other terms of the DPA. The LEA may employ a “Request for Return or Deletion of Student Data” form, a copy of which is attached hereto as Exhibit “D”. Upon receipt of a request from the LEA, the Provider will immediately provide the LEA with any specified portion of the Student Data within ten (10) calendar days of receipt of said request.

a. Partial Disposal During Term of Service Agreement. Throughout the Term of the Service Agreement, LEA may request partial disposal of Student Data obtained under the Service Agreement that is no longer needed. Partial disposal of data shall be subject to LEA’s request to transfer data to a separate account, pursuant to Article II, section 3, above.

b. Complete Disposal Upon Termination of Service Agreement. Upon Termination of the Service Agreement Provider shall dispose or delete all Student Data obtained under the Service Agreement. Prior to disposition of the data, Provider shall notify LEA in writing of its option to transfer data to a separate account, pursuant to Article II, section 3, above. In no event shall Provider dispose of data pursuant to this provision unless and until Provider has received affirmative written confirmation from LEA that data will not be transferred to a separate account.

6. Advertising Prohibition. Provider is prohibited from using or selling Student Data to (a) market or advertise to students or families/guardians; (b) inform, influence, or enable marketing, advertising, or other commercial efforts by a Provider; (c) develop a profile of a student, family member/guardian or group, for any commercial purpose other than providing the Service to LEA; or (d) use the Student Data for the development of commercial products or services, other than as necessary to provide the Service to LEA. If requested by LEA, Provider shall reimburse LEA for costs incurred to notify parents/families of a breach not originating from LEA's use of the Service.

DEFINITIONS

AB 1584, Buchanan: The statutory designation for what is now California Education Code § 49073.1, relating to pupil records.

De-Identifiable Information (DII): De-Identification refers to the process by which the Provider removes or obscures any Personally Identifiable Information (“PII”) from student records in a way that removes or minimizes the risk of disclosure of the identity of the individual and information about them.

Educational Records: Educational Records are official records, files and data directly related to a student and maintained by the school or local education agency, including but not limited to, records encompassing all the material kept in the student’s cumulative folder, such as general identifying data, records of attendance and of academic work completed, records of achievement, and results of evaluative tests, health data, disciplinary status, test protocols and individualized education programs. For purposes of this DPA, Educational Records are referred to as Student Data.

NIST: Draft National Institute of Standards and Technology (“NIST”) Special Publication Digital Authentication Guideline.

Operator: The term “Operator” means the operator of an Internet Website, online service, online application, or mobile application with actual knowledge that the site, service, or application is used primarily for K–12 school purposes and was designed and marketed for K–12 school purposes. For the purpose of the Service Agreement, the term “Operator” is replaced by the term “Provider.” This term shall encompass the term “Third Party,” as it is found in applicable state statutes.

Personally Identifiable Information (PII): The terms “Personally Identifiable Information” or “PII” shall include, but are not limited to, student data, metadata, and user or pupil-generated content obtained by reason of the use of Provider’s software, website, service, or app, including mobile apps, whether gathered by Provider or provided by LEA or its users, students, or students’ parents/guardians. PII includes Indirect Identifiers, which is any information that, either alone or in aggregate, would allow a reasonable person to be able to identify a student to a reasonable certainty. For purposes of this DPA, Personally Identifiable Information shall include the categories of information listed in the definition of Student Data.

Provider: For purposes of the Service Agreement, the term “Provider” means provider of digital educational software or services, including cloud-based services, for the digital storage, management, and retrieval of pupil records. Within the DPA the term “Provider” includes the term “Third Party” and the term “Operator” as used in applicable state statutes.

Pupil Generated Content: The term “pupil-generated content” means materials or content created by a pupil during and for the purpose of education including, but not limited to, essays, research reports, portfolios, creative writing, music or other audio files, photographs, videos, and account information that enables ongoing ownership of pupil content. *

* Or student generated content. “Pupil Generated Content” does not include pupil responses to basic quizzes, tests or other activities within the subscription product where the answers do not require original content or have independent meaning of value outside the context of the subscription product (e.g. multiple choice), or to a standard assessment where pupil possession and control would jeopardize the validity and reliability of that assessment.

Pupil Records: Means both of the following: (1) Any information that directly relates to a pupil that is maintained by LEA and (2) any information acquired directly from the pupil through the use of instructional software or applications assigned to the pupil by a teacher or other LEA employee. For the purposes of this Agreement, Pupil Records shall be the same as Educational Records, Student Personal Information and Covered Information, all of which are deemed Student Data for the purposes of this Agreement.

Service Agreement: Refers to the Contract or Purchase Order to which this DPA supplements and modifies.

School Official: For the purposes of this Agreement and pursuant to 34 CFR 99.31 (B), a School Official is a contractor that: (1) Performs an institutional service or function for which the agency or institution would otherwise use employees; (2) Is under the direct control of the agency or institution with respect to the use and maintenance of education records; and (3) Is subject to 34 CFR 99.33(a) governing the use and re-disclosure of personally identifiable information from student records.

SOPIPA: Once passed, the requirements of SOPIPA were added to Chapter 22.2 (commencing with Section 22584) to Division 8 of the Business and Professions Code relating to privacy.

Student Data shall constitute Pupil Records for the purposes of this Agreement, and for the purposes of California and federal laws and regulations. Student Data as specified in Exhibit "B" is confirmed to be collected or processed by the Provider pursuant to the Services. Student Data shall not constitute that information that has been anonymized or de-identified, or anonymous usage data regarding a student's use of Provider's services.

SDPC (The Student Data Privacy Consortium): Refers to the national collaborative of schools, districts, regional, territories and state agencies, policy makers, trade organizations and marketplace providers addressing real-world, adaptable, and implementable solutions to growing data privacy concerns.

Please see the Rosetta Stone Student Records Privacy Statement and Security Plan on the following page.

Student Records Privacy Statement & Security Plan

We take the privacy of our K-12 educational customers and their staff, students and other users seriously, and we understand the need to safeguard personally identifiable information in records of staff and students who access and use our web- and mobile-based K-12 Educational language-learning, literacy and/or assessment subscription products and services (collectively, “Student Records”) through the K-12 educational institutions, schools and school districts that we serve (our “Education Customers”).

Student Records are the property of our Education Customers. We receive those Student Records solely for the purposes of delivering and supporting our educational products, services and commitments under our agreements with our Education Customers. We are committed to working with our Education Customers to comply with all applicable laws, rules and regulations governing the use and protection of Student Records, including the Family Educational Rights and Privacy Act (FERPA), 20 U.S.C. §1232g and its implementing regulations, and applicable state laws and statutes governing Student Records. As such, we commit to implementing and maintaining this Student Records Privacy Statement & Security Plan (“Student Records Security Plan”), which is designed to protect the security, confidentiality and integrity of Student Records that we receive from our Education Customers, and protect against unauthorized access or other anticipated threats to those Student Records.

In connection with our Student Records Security Plan, we maintain administrative, technical and physical safeguards designed to secure Student Records both during transmission and while in our custody. These safeguards include technical and operational measures, such as firewalls, routers, encryption (at rest and in-transit), passwords, and vulnerability testing, as well as training, policies and procedures to limit access to Student Records to authorized staff, contractors and agents that have a legitimate need to access such data for purposes of enabling us to deliver and support our products and services to our Education Customers, and that are under appropriate contractual obligations of confidentiality, data protection and security.

We utilize various authorization and authentication technologies and processes to limit access to Student Records to authorized persons, including: (i) granting access rights on the basis of the least privilege, “need-to-know” principle; (ii) reviewing and maintaining records of employees who have been authorized or who can grant, alter or cancel authorized access to systems; (iii) requiring personalized, individual access accounts to use passwords with appropriate complexity, length and duration

requirements; and (iv) encrypting and logging access to facilities with systems containing Student Records. We provide regular training on our information security and data policies and procedures to our personnel who are responsible for or have access to Student Records. Our products and services do not currently utilize or enable students to upload student-generated content, but if we offer such functionality in the future, we will work in good faith with our Education Customers to develop processes to address requests through our Education Customers by students and/or parents or legal guardians for the transfer of such content generated by the student during the service term.

We use Student Records only for the purpose for which they are provided to us and as authorized in the applicable agreement with the Education Customer and applicable law. We do not sell Student Records or use them for targeted consumer marketing or similar commercial purposes, and do not authorize others to do so. Teacher and administrator staff contact information may be used for purposes of communicating to those teachers and administrators information relating to our business and K-12 educational products and services (e.g., account activity reminders, best practices, contest and other classroom activities to support usage and user engagement, downtime or new product or feature notifications, technical and other support services, etc.). We do not disclose Student Records to unauthorized third parties without the permission from the Education Customer, except as may be required by statute, agency or court order, subpoena or similar compulsory legal process.

If a parent, legal guardian or student contacts us with a request to review, modify, export or delete the user's Student Records, or if an agency, court, law enforcement or other entity contacts us and requests access to Student Records, we will (unless prohibited by writ or compulsory legal process) promptly direct the requesting individual or entity to contact the Education Customer and/or notify the Education Customer of the request, and thereafter, we will use reasonable and good faith efforts to assist the Education Customer in fulfilling such requests, if and as directed by the Education Customer.

If we determine that an incident involving unauthorized access or use of Student Records has occurred that would be subject to reporting under applicable federal or state law, we will take prompt and appropriate steps to mitigate the incident and/or further impact to the Student Records; provide notice of the incident to the affected Education Customer promptly and without unreasonable delay; and work with the affected Education Customer to provide information and assistance necessary to comply with any notification to parents, legal guardians, students, or other persons or entities, as required under applicable law.

Following expiration or termination of the agreement under which the Education

Customer purchased access to our web-based subscription products or services and/or upon receipt of written direction from the Education Customer, we will take steps to remove and destroy, or if agreed, return the Student Records in our possession to the Education Customer within a commercially reasonable period of time. Upon completion of the remove and upon written request, we will provide written confirmation to our Education Customer that the Student Records have been disposed of in accordance with the foregoing. For clarity, consistent with applicable law, data or data elements within Student Records generated by use of our products or services that are in aggregate form or that are de-identified or anonymized (i.e., where personally identifiable information and individually identifying attributes that would associate the data or element with an individual student or user have been removed), may be retained and used for benchmarking, development of best practices, improvement or development of our K-12 educational products and services, and/or for educational research and statistical purposes. We will not attempt to re-identify de-identified data, and will not authorize others to do so on behalf.

This Student Records Security Plan is effective as of May 22, 2020. From time to time, we may update this Student Records Security Plan to reflect changes to our privacy practices in accordance with changes in legislation, best practice or our products and services. Notice of material changes to this Student Records Security Plan will be provided to Education Customers by email to the address on file for the account, by including a notice in our invoice documentation to the Education Customer, or by placing updates within our web-based applications or on our website.
