LibraryTrac is an application that allows libraries/media centers to keep track of their daily users and why those users are coming to use the library. The application allows librarians to designate reasons for using the library, as well as document what teacher students are coming from.

It allows librarians to collect and analyze logged in user statistics. A librarian can view the amount of users over a period of time, in addition to particular days. If reasons for using the library are created, statistics will be generated to show how many users were in the library for those reasons during a a time period. Furthermore, librarians can create scheduled time frames to keep statistical data for by setting up pre-determined start and end times.
