Richard Busby,

Qualtrics does not fall under the definition of "Operator" under 105 ILCS 85/5, as it is not used primarily for K through 12 school purposes. In making such statement, Qualtrics is operating under the assumption that other technology companies, such as Microsoft, also do not qualify as Operators under 105 ILCS 85/5. Please note that the Qualtrics products can be used for K through 12 purposes, but that is not their primary purpose.

Best regards,

Mark Creer  
Director
