All:

The purpose of this email is to respond to the request to review SeeSaw's data privacy policies in light of their refusal to sign the District's data governance agreement.

I have reviewed Seesaw's privacy policy and data storage protection as outlined below. I am satisfied that it meets industry standards. It is a business decision for the District regarding whether to proceed without the data governance agreement. I am comfortable with the District moving forward given the information shared below with District staff.

Please contact me if you have any questions.

Jennifer

Hi there,

Thank you for contacting us! An essential part of our mission is providing a service that keeps students safe, and puts teachers and parents in control of how student information is shared. We take data privacy very seriously at Seesaw and have implemented the following policies to ensure that your student's data remains safe.

We've adopted the following Privacy Principles to summarize our privacy commitments to you:

- We don't own the content you provide - students and their schools do.
- Student work is private to the classroom by default. Teachers control what is shared and with whom.
- We will never advertise to students, create student profiles or sell any user data.
- We use security industry best practices and routinely monitor our systems to protect your data.
- We are transparent about our practices and will notify you if things change.
- We are COPPA and FERPA compliant.

You can read our full [Privacy Policy](#) and [Terms of Service](#). Additionally, here is more specific information about how we [protect data stored in Seesaw](#).

We have also signed the [Student Privacy Pledge](#) and our policies are among the most highly rated by [Common Sense Media](#), an independent third party.

Best,

Melody

If you need help with Seesaw for Schools rostering, please visit our [Back to School](#) page. Most common questions will be answered in the [Help Center](#) or [Community Forum](#).
