EXHIBIT “G”**Supplemental SDPC State Terms for [State]**

Version _____

[The State Supplement is an ***optional*** set of terms that will be generated on an as-needed basis in collaboration between the national SDPC legal working group and the State Consortia. The scope of these State Supplements will be to address any state specific data privacy statutes and their requirements to the extent that they require terms in addition to or different from the National Standard Clauses. The State Supplements will be written in a manner such that they will not be edited/updated by individual parties and will be posted on the SDPC website to provide the authoritative version of the terms. Any changes by LEAs or Providers will be made in amendment form in an Exhibit (**Exhibit “H”**) in a separate vendor modified agreement upon request.

EXHIBIT “H” – Additional Terms or Modifications

LEA and Provider agree to the following additional terms and modifications: The following sections shall be modified (as indicated) and replace with the language set forth below.

1. Term:

This DPA shall stay in effect for three years, unless and until the extent terminated by the parties. Exhibit E will expire 3 years from the date the original DPA was signed, unless and until the extent terminated by the parties.

*** Necessary to provide clarity with the termination section of the SDPC Standard Clauses.*

2. Article II, Section 2

Parent Access. To the extent required by law, the LEA shall establish reasonable procedures by which a parent, legal guardian, or eligible student may review Education Records and/or Student Data, correct erroneous information, and procedures for the transfer of Student-generated eContent to a personal account, consistent with the functionality of the Services. Provider shall respond in a reasonably timely manner (and no later than forty five (45) days from the date of the request or pursuant to the time frame required under state law for an LEA to respond to a parent or student, whichever is sooner) to the LEA’s request for Student Data in a student’s Education Records held by the Provider to view or correct as necessary. In the event that a parent of a student or other individual contacts the Provider to review any of the Student Data accessed pursuant to the Services, the Provider shall refer the parent or individual to the LEA, who will follow the necessary and proper procedures regarding the requested information, provided however, that Provider may also allow for direct access requests (but not correction or deletion rights) of Student Data and/or Education Records from a verified parent.

*** Necessary to fix typos and also to reflect the reality of the Services. This also helps schools given ClassDojo has a direct relationship with users and is only for access rights nothing more.*

3. Article II, Section 3

Separate Account. Students and parent users may have personal or non-school accounts (i.e., for use of ClassDojo at home not related to school) in addition to school accounts (“Outside School Account(s”). An Outside School Account of a student may also be linked to their student account. Student Data shall not include information a student or parent provides to Provider through such Outside School Accounts independent of the student’s or parent’s engagement with the Services at the direction of the LEA. Additionally, If Student Generated Content is stored or maintained by the Provider, Provider may, shall at the request of the LEA, student, or student’s parent or legal guardian, transfer said Student Generated Content to a separate student account or the Outside School Account; provided, however, such transfer shall only apply to Student Generated Content that is severable from the Service.

*** Necessary to clarify how the Services function. Additionally, FERPA and the majority of state student privacy laws permit a parent or eligible student to request transfer of student-generated content to a personal account. Without this change, this will also impose an unnecessary burden on LEA’s to respond to such requests and is likely to result in student-generated content being destroyed as upon termination to the detriment of students.*

4. Article VII, Miscellaneous

Priority of Agreements. This DPA shall govern the treatment of Student Data in order to comply with the

privacy protections, including those found in FERPA and all applicable privacy statutes identified in this DPA. With respect to the treatment of Student Data only, in the event there is conflict between the terms of the DPA and the Service Agreement, Terms of Service, Privacy Policies, or with any other bid/RFP, license agreement, or writing, the terms of this DPA shall apply and take precedence. In the event of a conflict between Exhibit H, the SDPC Standard Clauses, and/or the Supplemental State Terms, Exhibit H will control, followed by the Supplemental State Terms. Except as described in this paragraph herein, all other provisions of the Service Agreement shall remain in effect.

*** Necessary to provide clarity on the various agreements.*

5. Definitions.

Add – The term “Sell” (first letter caps) is used in the Model Clauses, but not defined)

“Sell” consistent with the Student Privacy Pledge, does not include or apply to a purchase, merger or other type of acquisition of a company by another entity, provided that the company or successor entity continues to treat the Personally Identifiable Information contained in Student Data in a manner consistent with this DPA with respect to the previously acquired Personally Identifiable Information contained in Student Data. Sell also does not include sharing, transferring or disclosing Student Data with a Service Provider that is necessary to perform a business purpose (such as detecting security incidents, debugging and repairing, analytics, storage or other processing activities) provided that the Service Provider does not Sell the Student Data except as necessary to perform the business purpose. Provider is also not “selling” personal information (i) if a user directs Provider to intentionally disclose Student Data or uses ClassDojo to intentionally interact with a third party, provided that such third party also does not Sell the Student Data; or (ii) if a parent or other user (with parent consent) purchases Student Data (e.g., enhanced classroom reports or photos).
