- c.** At LEA’s discretion, the security breach notification may also include any of the following:
  - i.** Information about what the agency has done to protect individuals whose information has been breached.
  - ii.** Advice on steps that the person whose information has been breached may take to protect himself or herself.
- d.** Provider agrees to adhere to all requirements in applicable state and federal law with respect to a data breach related to the Student Data, including, when appropriate or required, the required responsibilities and procedures for notification and mitigation of any such data breach.
- e.** Provider further acknowledges and agrees to have a written incident response plan that reflects best practices and is consistent with industry standards and federal and state law for responding to a data breach, breach of security, privacy incident or unauthorized acquisition or use of Student Data or any portion thereof, including personally identifiable information and agrees to provide LEA, upon request, with a copy of said written incident response plan.

**f.** Provider is prohibited from directly contacting parent, legal guardian or eligible pupil unless expressly requested by LEA. If LEA requests Provider’s assistance providing notice of unauthorized access, and such assistance is not unduly burdensome to Provider, Provider shall notify the affected parent, legal guardian or eligible pupil of the unauthorized access, which shall include the information listed in subsections (b) and (c), above. If requested by LEA, Provider shall reimburse LEA for costs incurred to notify parents/families of a breach not originating from LEA’s use of the Service.

**g.** In the event of a breach originating from LEA’s use of the Service, Provider shall cooperate with LEA to the extent necessary to expeditiously secure Student Data.

## **ARTICLE VI- GENERAL OFFER OF PRIVACY TERMS**

### DEFINITIONS

**De-Identifiable Information (DII):** De-Identification refers to the process by which the Provider removes or obscures any Personally Identifiable Information (“PII”) from student records in a way that removes or minimizes the risk of disclosure of the identity of the individual and information about them.

**Educational Records:** Educational Records are official records, files and data directly related to a student and maintained by the school or local education agency, including but not limited to, records encompassing all the material kept in the student’s cumulative folder, such as general identifying data, records of attendance and of academic work completed, records of achievement, and results of evaluative tests, health data, disciplinary status, test protocols and individualized education programs. For purposes of this DPA, Educational Records are referred to as Student Data.

**NIST:** Draft National Institute of Standards and Technology (“NIST”) Special Publication Digital Authentication Guideline.

**Operator:** The term “Operator” means the operator of an Internet Website, online service, online application, or mobile application with actual knowledge that the site, service, or application is used primarily for K–12 school purposes and was designed and marketed for K–12 school purposes. For the purpose of the Service Agreement, the term “Operator” is replaced by the term “Provider.” This term shall encompass the term “Third Party,” as it is found in applicable state statutes.

**Personally Identifiable Information (PII):** The terms “Personally Identifiable Information” or “PII” shall include, but are not limited to, student data, metadata, and user or pupil-generated content obtained by reason of the use of Provider’s software, website, service, or app, including mobile apps, whether gathered by Provider or provided by LEA or its users, students, or students’ parents/guardians. PII includes Indirect Identifiers, which is any information that, either alone or in aggregate, would allow a reasonable person to be able to identify a student to a reasonable certainty. For purposes of this DPA, Personally Identifiable Information shall include the categories of information listed in the definition of Student Data.

**Provider:** For purposes of the Service Agreement, the term “Provider” means provider of digital educational software or services, including cloud-based services, for the digital storage, management, and retrieval of pupil records. Within the DPA the term “Provider” includes the term “Third Party” and the term “Operator” as used in applicable state statutes.

**Pupil Generated Content:** The term “pupil-generated content” means materials or content created by a pupil during and for the purpose of education including, but not limited to, essays, research reports, portfolios, creative writing, music or other audio files, photographs, videos, and account information that enables ongoing ownership of pupil content.

**Pupil Records:** Means all of the following: (1) Any information that directly relates to a pupil that

is maintained by LEA;(2) any information acquired directly from the pupil through the use of instructional software or applications assigned to the pupil by a teacher or other LEA employee; and any information that meets the definition of a “pupil record” under Wis. Stat. § 118.125(1)(d). For the purposes of this Agreement, Pupil Records shall be the same as Educational Records, Student Personal Information and Covered Information, all of which are deemed Student Data for the purposes of this Agreement.

**Service Agreement:** Refers to the Contract or Purchase Order to which this DPA supplements and modifies.

Stat. § 118.125(2) governing the use and re-disclosure of personally identifiable information from student records.

**Student Data:** Student Data includes any data, whether gathered by Provider or provided by LEA or its users, students, or students’ parents/guardians, that is descriptive of the student including, but not limited to, information in the student’s educational record or email, first and last name, home address, telephone number, email address, or other information allowing online contact, discipline records, videos, test results, special education data, juvenile dependency records, grades, evaluations, criminal records, medical records, health records, social security numbers, biometric information, disabilities, socioeconomic information, food purchases, political affiliations, religious information text messages, documents, student identifies, search activity, photos, voice recordings or geolocation information. Student Data shall not constitute that information that has been anonymized or de-identified, or anonymous usage data regarding a student’s use of Provider’s services.

**SDPC (The Student Data Privacy Consortium):** Refers to the national collaborative of schools, districts, regional, territories and state agencies, policy makers, trade organizations and marketplace providers addressing real-world, adaptable, and implementable solutions to growing data privacy concerns.

**Student Personal Information:** “Student Personal Information” means information collected through a school service that personally identifies an individual student or other information collected and maintained about an individual student that is linked to information that identifies an individual student, as identified by Washington Compact Provision 28A.604.010. For purposes of this DPA, Student Personal Information is referred to as Student Data.
