Neither failure nor delay on the part of any Party in exercising any right, power, or privilege hereunder shall operate as a waiver of such right, nor shall any single or partial exercise of any such right, power, or privilege preclude any further exercise thereof or the exercise of any other right, power, or privilege.

Notwithstanding the foregoing, if such provision could be more narrowly drawn so as not to be prohibited or unenforceable in such jurisdiction while, at the same time, maintaining the intent of the Parties, it shall, as to such jurisdiction, be so narrowly drawn without invalidating the remaining provisions of this DPA or affecting the validity or enforceability of such provision in any other jurisdiction.
6. **Governing Law: Venue and Jurisdiction.** THIS DPA WILL BE GOVERNED BY AND CONSTRUED IN ACCORDANCE WITH THE LAWS OF THE STATE OF THE LEA, WITHOUT REGARD TO CONFLICTS OF LAW PRINCIPLES. In the event that the Provider sells, merges, or otherwise disposes of its business to a successor during the term of this DPA, the Provider shall provide written notice to the LEA no later than sixty (60) days after the closing date of sale, merger, or disposal. Such notice shall include a written, signed assurance that the successor will assume the obligations of the DPA and any obligations with respect to Student Data within the Service Agreement. The LEA has the authority to terminate the DPA if it disapproves of the successor to whom the Provider is selling, merging, or otherwise disposing of its business.
8. **Authority.** Each party represents that it is authorized to bind to the terms of this DPA, including confidentiality and destruction of Student Data and any portion thereof contained therein, all related or associated institutions, individuals, employees or contractors who may have access to the Student Data and/or any portion thereof.

9. **Waiver**. No delay or omission by either party to exercise any right hereunder shall be construed as a waiver of any such right and both parties reserve the right to exercise any such right from time to time, as often as may be deemed expedient.

Incident IQ
DATA PRIVACY AND SECURITY PLAN

Incident IQ, LLC (“Incident IQ, We, Us, or Our”), shall undertake all of the following data privacy, security, and protection measures, in addition to the requirements already contained in the Incident IQ Cloud Services Master Subscription Agreement (available at <https://www.incidentiq.com/legal>):

1. Data Collection & Use:

- a. Incident IQ shall only collect, process and store such Protected Data, to include any cookies, to which we have a legitimate educational interest and as is necessary to provide the cloud services.
- b. Under no circumstances will Incident IQ use Protected Data to market or advertise to students or their family members or legal guardians, or otherwise use Protected Data to inform, influence or enable marketing, advertising or other commercial efforts by a third party directed at students, their family members, or legal guardians.
- c. We shall not change how Protected Data are collected, maintained, used or disclosed under the terms of the Agreement, without advance notice to and prior written consent from District.
- d. We will never sell Protected Data that we acquire through District use of the Cloud Services, except as part of a corporate purchase, merger or other type of acquisition. In such a case, any successor entity shall be contractually obligated to comply with the terms of this Agreement related to the treatment of Protected Data, as well as all other applicable legal requirements governing the use, disclosure, and security of the previously acquired Protected Data.

2. Data Portability: Incident IQ shall ensure the data portability of all District data.

- a. Upon notice of a request from District for a copy of certain Protected Data in Our possession (e.g., to support the District’s response to a properly constituted request for Protected Data from a parent, guardian or student), we will ensure that: (i) A complete and readable digital copy of the requested Protected Data in Incident IQ’s possession is delivered to District within 30 days of our receipt of District’s request; (ii) Upon delivery of the copy, District must provide notice to Incident IQ of District’s receipt and acceptance of any such requested Protected Data;
- b. Upon notice of a request from District that certain Protected Data be deleted, We will permanently destroy (i.e., undertake a non-recoverable deletion process in accordance with Department of Defense standard 5220.22-M) all copies of the Protected Data identified for deletion by District held by Us or any of Our agents, subcontractors or affiliates. Within 30 days of District notice, we will deliver a written confirmation to District certifying that the permanent destruction of the requested Protected Data has been accomplished. Upon delivery of such written confirmation of deletion, District must provide notice to Us of District receipt and understanding of said notice confirming deletion made at District request.
- c. We shall destroy all Protected Data residing in District’s instance of the Cloud Services, using the methods described in paragraph 2(b) above, following expiration of a 60-day period after termination of this Agreement, unless District requests that We return such information to District instead.

3. Data Security:

- a. We will operate the Cloud Services and collect, process and store Protected Data in accordance with NIST data security standards and current industry best practices, and maintain all technologies, policies, procedures and practices necessary to secure and protect the confidentiality and integrity of Protected Data, and prevent unauthorized access, disclosure and use.
- b. All information is stored within databases hosted and secured within the Microsoft Azure Cloud. The Azure cloud is secured with actively monitored network firewalls, intrusion detection systems, application firewalls, and IP-route protection. Additionally, any information designated as Protected Data is encrypted within the database.
- c. No data shall be stored outside the United States; all data are stored in the Microsoft Azure data center, region East US (Virginia), East US 2 (Virginia), and/or West US (California).
- d. Any data designated as Protected Data which include passwords, is encrypted within the database using combinations of one-way and two-way encryption algorithms (such as SHA256) with Salt strings.
- e. Information is multi-tenanted and stored within the same cloud systems; however, all information is partitioned by a School District ID (i.e., SiteId) and the Data Access Layers forces all data to be filtered by a specific School District.
- f. Physical servers are physically secured in the Microsoft Azure data centers, regions East US (Virginia), East US 2 (Virginia), and West US (California).
- g. Data in transit are SSL protected, as well as Protected Data are always encrypted.
- h. Only Incident IQ Senior Technical Team members have direct access to product data. All personnel with access to Incident IQ systems and data are vetted via backgrounds checks and receive annual and update training on all relevant policies and procedures.
- i. No software functions are subcontracted to other vendors apart from the hosting/storage services provided by Microsoft, as described above.
- j. Customer support representatives accordingly confirm caller identity against a District's list of administrator-users. Account creation and deletion is controlled by the District as user profiles are established through syncing with the client's identity management provider (e.g., Microsoft ADFS, Google SSO, local Active Directory, etc.). Accordingly, account creation/deletion is managed by the District through their ordinary identity management policies and procedures. Also, permissions modification of any given user may be managed by the clients' administrator-level users through tools in their admin console. If assistance were required in this process admin-users would authenticate with customer support representatives as described above.

4. Network Operations Center Management and Security:

- a. Incident IQ shall perform regular penetration testing, vulnerability management and intrusion prevention testing.
- b. All network devices shall be located in secure facilities under controlled circumstances (i.e., ID cards and entry logs) at the Microsoft Azure data centers, regions East US (Virginia), East US 2 (Virginia), and West (California).
- c. Backups shall be performed daily (to other US-based Azure Data Centers), as well as backups made to separate secure, off-site facility.
- d. Backups shall be encrypted and stored securely with access limited to administrators with restoration encryption keys.
- e. All software vulnerabilities shall be patched routinely or automatically in accordance with the following parameters: all critical and High vulnerabilities shall be patched automatically. Medium vulnerabilities shall be patched monthly during planned maintenance windows. Low vulnerabilities shall be evaluated and if deemed necessary, shall be patched during the planned monthly maintenance window.
- f. Incident IQ shall respond to any incidents IAW its Incident Response Plan.
