The Provider further acknowledges and agrees that all copies of such Student Data transmitted to the Provider, including any modifications or additions or any portion thereof from any source, are subject to the provisions of this Agreement in the same manner as the original Student Data. The Parties agree that as between them, all rights, including all intellectual property rights in and to Student Data contemplated per the Service Agreement shall remain the exclusive property of the LEA. For the purposes of FERPA, the Provider shall be considered a School District Official, under the control and direction of the LEAs as it pertains to the use of Student Data notwithstanding the above. Provider may transfer pupil-generated content to a separate account, according to the procedures set forth below.

Provider shall respond in a timely manner (and no later than 30 days from the date of the request) to the LEA’s request for Student Data in a pupil’s records held by the Provider to view or correct as necessary. In the event that a parent of a pupil or other individual contacts the Provider to review any of the Student Data accessed pursuant to the Services, the Provider shall refer the parent or individual to the LEA, who will follow the necessary and proper procedures regarding the requested information.

3. **Separate Account.** If pupil generated content is stored or maintained by the Provider as part of the Services described in Exhibit “A”, Provider shall, at the request of the LEA, transfer said pupil generated content to a separate student account upon termination of the Service Agreement; provided, however, such transfer shall only apply to pupil generated content that is severable from the Service.

4. **Third Party Request.** Should a Third Party, including law enforcement and government entities, contact Provider with a request for data held by the Provider pursuant to the Services, the Provider shall redirect the Third Party to request the data directly from the LEA. Provider shall notify the LEA as soon as possible in advance of a compelled disclosure to a Third Party.

5. **Subprocessors.** Provider shall enter into written agreements with all Subprocessors performing functions pursuant to the Service Agreement, whereby the Subprocessors agree to protect Student Data in manner consistent with the terms of this DPA, as well as state and federal law.

ARTICLE III: DUTIES OF LEA

1. **Privacy Compliance.** LEA shall provide data for the purposes of the Service Agreement in compliance with FERPA, COPPA, PPRA, and applicable Wisconsin law.

2. **Annual Notification of Rights.** The LEA shall include a specification of criteria under FERPA for determining who constitutes a school official and what constitutes a legitimate educational interest in its Annual notification of rights.

3. **Reasonable Precautions.** LEA shall take reasonable precautions to secure usernames, passwords, and any other means of gaining access to the services and hosted data.

4. **Unauthorized Access Notification.** LEA shall notify Provider promptly of any known or suspected unauthorized access. LEA will assist Provider in any efforts by Provider to investigate and respond to any unauthorized access.

ARTICLE IV: DUTIES OF PROVIDER

1. **Privacy Compliance.** The Provider shall comply with all applicable state and federal laws and regulations pertaining to data privacy and security, including FERPA, COPPA, PPRA, and applicable Wisconsin law.

2. **Authorized Use.** The data shared pursuant to the Service Agreement, including persistent unique identifiers, shall be used for no purpose other than the Services stated in the Service Agreement and/or otherwise authorized under the statutes referred to in subsection (1), above. Provider also acknowledges and agrees that it shall not make any re-disclosure of any Student Data or any portion thereof, including without limitation, meta data, user content or other non-public information and/or personally identifiable information contained in the Student Data, without the express written consent of the LEA.

3. **Employee Obligation.** Provider shall require all employees and agents who have access to Student Data to comply with all applicable provisions of this DPA with respect to the data shared under the Service Agreement.

4. **No Disclosure.** Provider shall not copy, reproduce or transmit any data obtained under the Service Agreement and/or any portion thereof, except as necessary to fulfill the Service Agreement.

5. **Disposition of Data.** Upon written request and in accordance with the applicable terms in subsection a or b, below, Provider shall dispose or delete all Student Data obtained under the Service Agreement when it is no longer needed for the purpose for which it was obtained. Disposition shall include (1) the shredding of any hard copies of any student data; (2) erasing; or (3) otherwise modifying the personal information in those records to make it unreadable or indecipherable by human or digital means. Nothing in the Service Agreement authorizes Provider to maintain Student Data obtained under the Service Agreement beyond the time period reasonably needed to complete the disposition. Provider shall provide written notification to LEA when the Student Data has been disposed. The duty to dispose of Student Data shall not extend to data that has been de-identified or placed in a separate Student account, pursuant to the other terms of the DPA. The LEA may employ a "Request for Return or Deletion of Student Data" form, a copy of which is attached hereto as Exhibit "D". Upon receipt of a request from the LEA, the Provider will immediately provide the LEA with any specified portion of the Student Data within ten (10) calendar days of receipt of said request.

a. **Partial Disposal During Term of Service Agreement.** Throughout the Term of the Service Agreement, LEA may request partial disposal of Student Data obtained under the Service Agreement that is no longer needed. Partial disposal of data shall be subject to LEA's request to transfer data to a separate account, pursuant to Article II, section 3, above.

Prior to disposition of the data, Provider shall notify LEA in writing of its option to transfer data to a separate account, pursuant to Article II, section 3, above. In no event shall Provider dispose of data pursuant to this provision unless and until Provider has received affirmative written confirmation from LEA that data will not be transferred to a separate account.

6. **Advertising Prohibition.** Provider is prohibited from using or selling Student Data to (a) market or advertise to students or families/guardians; (b) inform, influence, or enable marketing, advertising, or other commercial efforts by a Provider; (c) develop a profile of a student, family member/guardian or group, for any commercial purpose other than providing the Service to LEA; or (d) use the Student Data for the development of commercial products or services, other than as necessary to provide the Service to LEA. This section does not prohibit Provider from using Student Data for adaptive learning or customized student learning purposes.

h. Periodic Risk Assessment. Provider further acknowledges and agrees to conduct digital and physical periodic (no less than semi-annual) risk assessments and remediate any identified security and privacy vulnerabilities in a timely manner.

2. Data Breach. In the event that Student Data is accessed or obtained by an unauthorized individual, Provider shall provide notification to LEA within a reasonable amount of time of the incident, and not exceeding forty-eight (48) hours. Provider shall follow the following process:

 - iv. Whether the notification was delayed because of a law enforcement investigation, if that information is possible to determine at the time the notice is provided.
 - v. A general description of the breach incident, if that information is possible to determine at the time the notice is provided.
- c. At LEA’s discretion, the security breach notification may also include any of the following:
 - i. Information about what the agency has done to protect individuals whose information has been breached.
 - ii. Advice on steps that the person whose information has been breached may take to protect himself or herself.
- d. Provider agrees to adhere to all requirements in applicable state and federal law with respect to a data breach related to the Student Data, including, when appropriate or required, the required responsibilities and procedures for notification and mitigation of any such data breach.
- e. Provider further acknowledges and agrees to have a written incident response plan that reflects best practices and is consistent with industry standards and federal and state law for responding to a data breach, breach of security, privacy incident or unauthorized acquisition

or use of Student Data or any portion thereof, including personally identifiable information and agrees to provide LEA, upon request, with a copy of said written incident response plan.

f. Provider is prohibited from directly contacting parent, legal guardian or eligible pupil unless expressly requested by LEA. If LEA requests Provider's assistance providing notice of unauthorized access, and such assistance is not unduly burdensome to Provider, Provider shall notify the affected parent, legal guardian or eligible pupil of the unauthorized access, which shall include the information listed in subsections (b) and (c), above. If requested by LEA, Provider shall reimburse LEA for costs incurred to notify parents/families of a breach not originating from LEA's use of the Service.

g. In the event of a breach originating from LEA's use of the Service, Provider shall cooperate with LEA to the extent necessary to expeditiously secure Student Data.

Personally Identifiable Information (PII): The terms “Personally Identifiable Information” or “PII” shall include, but are not limited to, student data, metadata, and user or pupil-generated content obtained by reason of the use of Provider’s software, website, service, or app, including mobile apps, whether gathered by Provider or provided by LEA or its users, students, or students’ parents/guardians. PII includes Indirect Identifiers, which is any information that, either alone or in aggregate, would allow a reasonable person to be able to identify a student to a reasonable certainty. For purposes of this DPA, Personally Identifiable Information shall include the categories of information listed in the definition of Student Data.

Provider: For purposes of the Service Agreement, the term “Provider” means provider of digital educational software or services, including cloud-based services, for the digital storage, management, and retrieval of pupil records. DATA SECURITY REQUIREMENTS

NoRedInk Data Privacy and Security Plan

Data Policies

Use of Data

We will not rent or sell personally identifiable information, nor use student data for marketing. We don't serve advertising within our online application.

User Access to Data

There is no public-facing or in-solution browsable user profile for students or teachers. User access to data is on a permission basis based on the user's role.

- Students can only access information relating to their own account, their own scores on practice assignments, quizzes, or their own writing sections.
- Teachers can access information relating to their own account as well as see the scores and submissions for their student's work on the site.
- Appropriate School administrator access to student and teacher data is available to building and district administrators upon identity-verified request.

Data Storage and Security

Hosting and Storage

All customer data is stored in the United States. NoRedInk's online application is hosted by a premium cloud infrastructure provider, currently Amazon Web Services (AWS).

Retention and Backup

We maintain data storage of our active database at our cloud infrastructure provider, and also maintain a 30 day archival backup. Customer data is deleted from our active database when requested by the customer, or when our agreement with the customer ends. Customer data is permanently overwritten in the archival backup 30 days after removal from the active database.

Hardware security

Only the administrators of the cloud infrastructure provider have physical access to the data centers from which our service is hosted; the cloud infrastructure provider maintains security procedures compliant with a variety of US and international standards to ensure physical security of their data centers. It is our policy to prohibit storing any user data on employee devices.

Access Control

Access to the NoRedInk production servers and database is permission controlled. We are able to revoke access remotely for any individual.

All end users of the online application require a password-protected login in order to access the application. Teachers and students can register with a unique username and a password, or use Google SSO or Clever SSO.

Logs

We log access and changes to our production infrastructure. Logs are retained for 90+ days.

Data Encryption

All user data, including login credentials, provided in the use of the online service is encrypted in transmission using HTTPS. User data, including passwords, is encrypted at rest in our database.

Security Updates

We update our software regularly, including security updates. Our target is to implement security updates within 1 week of availability.

Third Party Services

We may utilize third party services for data analysis, support ticket tracking, and other similar services. We only utilize third party services whose privacy and security policies are consistent with our own.

Incident Management and Response

We have 24/7 on-call support for incident response, and use automated tools to monitor our systems for abnormal behavior. In the event we detect a security breach which affects the personally identifiable information of users of our system, we will promptly notify the relevant customer in accordance with applicable law and our contractual obligations to such customer.

We maintain, and continue to further develop, response documentation for a variety of possible incident scenarios. In addition, our policy requires that all security incidents be documented in detail, including documentation of the events of the incident and investigation, any root cause analysis, and next steps. This documentation is reviewed by key stakeholders, and next steps are recorded and prioritized by the appropriate teams, including where appropriate a change to policy and practices.
