EXHIBIT B - "OTHER"

We collect the following types of information:

Information collected during subscription process: During the registration process for any of our subscription types, we ask the subscriber to provide us with a name, email address, school or district affiliation (when applicable), phone number, and billing information. We use the contact information to send users service-related announcements. For instance, we may send emails about routine maintenance or new feature launches. We may also use this contact information to request feedback on our products and services, to inform future customer service and product improvements. All such communications include an opt-out feature.

Username and password: Subscribers may create a username and password during the registration process, or, if they prefer, we can assign these credentials. We use subscribers' usernames and passwords to authenticate log-ins; allow access to the paid content; and monitor subscription compliance. The username is also used to authenticate users when they request technical support. Passwords are all encrypted when stored. For more information on our security practices, see "How We Store and Process Your Information" below.

Information collected automatically: We automatically receive and record information on our server logs from a user's browser, including the user's IP address. We use IP addresses to maintain a user's session, and we do not store them after the user's session has ended. We also use the IP address to see whether a user is located outside of the United States, where a country-wide log-in option is activated. We do not store this information beyond the initial page load, and we do not otherwise combine this information with other PII.

We also use cookies, a standard feature found in browser software, in order to establish and authenticate user sessions, enable access to paid content, and monitor potential account misuse. We do not use cookies to collect personally identifiable information and we do not combine such general information with other PII to identify a user. Disabling our cookies will prevent access to paid content and limit some of the functionalities within our website(s) or app(s). To learn more about browser cookies, including how to manage or delete them, look in the Tools or Help section of your Web browser, or visit allaboutcookies.org.

We do not collect users' web search history across third party websites or search engines. However, if a user navigates to our website via a web search, their web browser may automatically provide us with the web search term they used in order to find us. Our website does not honor "do not track" signals transmitted by users' web browsers, so we encourage you to visit the following link if you would like to opt out of certain tracking: <http://www.networkadvertising.org/choices> or <http://www.aboutads.info/choices/>. Note that if you wish to opt out, you will need to do so separately for each of your devices and for each web browser you use (such as Internet Explorer®, Firefox®, Safari®).

Third parties: We may use a variety of third party service providers, such as analytics companies, to understand usage of our services. We may allow those providers to place and read their own cookies, electronic images known as web beacons or single-pixel gifs and similar technologies, to help us measure how users interact with our services. This technical information is collected directly and automatically by these third parties. If you wish to opt out of third party cookies, you may do so through your browser, as mentioned above in Information collected automatically.

Information collected when using My BrainPOP® : School, district, and homeschool subscriptions include the option of using My BrainPOP, our individual accounts system, which allows students and their teachers to keep track of learning. Student and teacher accounts are organized into classrooms created by the teachers of the subscribing school. For these accounts, we ask teachers to enter their first and last name and their students'; their username; the class with which they are associated; and a security question for use if they need to reset their password. We also require the teachers' email for password recovery and for sending notifications or messaging about new features, product use recommendations, efficiency testing, backup schedules, survey and research participation invitations, and more (messaging may not be available in all jurisdictions). An opt-out link will be included at the bottom of messages that are not solely operational. The only Personally Identifiable Information collected about students is their name, class, graduation year, and work associated with the account (student records). If a student uses the Make-a-Movie™ feature, his or her recorded voice may also be collected as part of the movie file that will be saved. We do NOT collect students' emails or addresses. We store the data created in each student account ("Student Records"), such as the history of BrainPOP movies they've watched, the quizzes and activities they've completed, Snapshots they've taken on certain GameUp® games, movies they've created using Make-a-Movie, and feedback provided by the teacher to the student through My Brain POP. We do so for the purpose of enhancing teacher and student use of the website. Please see the Using My Brain POP® section below for additional privacy and security information pertaining to My Brain POP.

We Do NOT Collect or Use Information As Follows:

Certain activity pages and quizzes allow users to enter their names prior to printing or emailing (to a teacher, for example). We do not collect or store this information. A user may enter his or her name when taking a quiz on an app, but we do not collect it. That information is only stored on the user's device.

Other than in the places and for the purposes explicitly disclosed in this policy, we do not knowingly collect Personally Identifiable Information directly from users under the age of 13. If we learn that we have inadvertently collected any Personally Identifiable Information from a user under 13, we will take steps to promptly delete it. If you believe we have inadvertently collected personally identifiable information from a user under 13, please contact us at privacy@brainpop.com.

We do not collect, use or share Personally Identifiable Information other than as described in our privacy policy, or with the consent of a parent or legal guardian as authorized by law, or otherwise as directed by an applicable district or school or as required by contract or by law.

In no event shall we use, share or sell any student Personally Identifiable Information for advertising or marketing purposes.

How We Share Your Information

We may provide Personally Identifiable Information to our partners, business affiliates, and third party service providers who work for BrainPOP and operate some of its functionalities - these may include hosting, streaming, and credit card processing services. A current list of these third parties is available upon request through privacy@brainpop.com. These third parties are well-known, established and/or vetted providers, who are bound contractually to practice adequate security measures and to use your information solely as it pertains to the provision of their services. They do not have the independent right to share your personally identifiable information. We share anonymous or de-identified information about our users when they are using third party web analytical tools, for tracking analytical information. We may use or share anonymous or aggregate and de-identified information for educational research purposes, to evaluate, inform, or show the efficacy of our services.

We will NOT share any personally identifiable information for marketing or advertising purposes.
