Neither failure nor delay on the part of any Party in exercising any right, power, or privilege hereunder shall operate as a waiver of such right, nor shall any single or partial exercise of any such right, power, or privilege preclude any further exercise thereof or the exercise of any other right, power, or privilege.

5. **Severability.** Any provision of this DPA that is prohibited or unenforceable in any jurisdiction shall, as to such jurisdiction, be ineffective to the extent of such prohibition or unenforceability without invalidating the remaining provisions of this DPA, and any such prohibition or unenforceability in any jurisdiction shall not invalidate or render unenforceable such provision in any other jurisdiction. Notwithstanding the foregoing, if such provision could be more narrowly drawn so as not to be prohibited or unenforceable in such jurisdiction while, at the same time, maintaining the intent of the Parties, it shall, as to such jurisdiction, be so narrowly drawn without invalidating the remaining provisions of this DPA or affecting the validity or enforceability of such provision in any other jurisdiction.
6. **Governing Law; Venue and Jurisdiction.** THIS DPA WILL BE GOVERNED BY AND CONSTRUED IN ACCORDANCE WITH THE LAWS OF THE STATE OF THE LEA, WITHOUT REGARD TO CONFLICTS OF LAW PRINCIPLES. EACH PARTY CONSENTS AND SUBMITS TO THE SOLE AND EXCLUSIVE JURISDICTION TO THE STATE AND FEDERAL COURTS FOR THE COUNTY OF THE LEA FOR ANY DISPUTE ARISING OUT OF OR RELATING TO THIS DPA OR THE TRANSACTIONS CONTEMPLATED HEREBY.
7. **Successors Bound:** This DPA is and shall be binding upon the respective successors in interest to Provider in the event of a merger, acquisition, consolidation or other business reorganization or sale of all or substantially all of the assets of such business. In the event that the Provider sells, merges, or otherwise disposes of its business to a successor during the term of this DPA, the Provider shall provide written notice to the LEA no later than sixty (60) days after the closing date of sale, merger, or disposal. Such notice shall include a written, signed assurance that the successor will assume the obligations of the DPA and any obligations with respect to Student Data within the Service Agreement. The LEA has the authority to terminate the DPA if it disapproves of the successor to whom the Provider is selling, merging, or otherwise disposing of its business.
8. **Authority.** Each party represents that it is authorized to bind to the terms of this DPA, including confidentiality and destruction of Student Data and any portion thereof contained therein, all related or associated institutions, individuals, employees or contractors who may have access to the Student Data and/or any portion thereof.
9. **Waiver.** No delay or omission by either party to exercise any right hereunder shall be construed as a waiver of any such right and both parties reserve the right to exercise any such right from time to time, as often as may be deemed expedient.

1. **Compliance with Illinois Privacy Laws.** In performing its obligations under the Agreement, the Provider shall comply with all Illinois laws and regulations pertaining to student data privacy, confidentiality, and maintenance, including but not limited to the Illinois School Student Records Act ("ISSRA"), 105 ILCS 10/, Mental Health and Developmental Disabilities Confidentiality Act ("MHDDCA"), 740 ILCS 110/, Student Online Personal Protection Act ("SOPPA"), 105 ILCS 85/, Identity Protection Act ("IPA"), 5 ILCS 179/, and Personal Information Protection Act ("PIPA"), 815 ILCS 530/, and Local Records Act ("LRA"), 50 ILCS 205/.

2. **Definition of "Student Data."** In addition to the definition set forth in **Exhibit C**, Student Data includes any and all information concerning a student by which a student may be individually identified under applicable Illinois law and regulations, including but not limited to (a) "covered information," as defined in Section 5 of SOPPA (105 ILCS 85/5), (b) "school student records" as that term is defined in Section 2 of ISSRA (105 ILCS 10/2(d)) (c) "records" as that term is defined under Section 110/2 of the MHDDCA (740 ILCS 110/2), and (d) "personal information" as defined in Section 530/5 of PIPA.

3. **School Official Designation.** Pursuant to Article I, Paragraph 1 of the DPA Standard Clauses, and in accordance with FERPA, ISSRA and SOPPA, in performing its obligations under the DPA, the Provider is acting as a school official with legitimate educational interest; is performing an institutional service or function for which the LEA would otherwise use its own employees; is under the direct control of the LEA with respect to the use and maintenance of Student Data; and is using Student Data only for an authorized purpose and in furtherance of such legitimate educational interest.

4. **Limitations on Re-Disclosure.** The Provider shall not re-disclose Student Data to any other party or affiliate without the express written permission of the LEA or pursuant to court order, unless such disclosure is otherwise permitted under SOPPA, ISSRA, FERPA, and MHDDCA. Provider will not sell or rent Student Data. In the event another party, including law enforcement or a government entity, contacts the Provider with a request or subpoena for Student Data in the possession of the Provider, the Provider shall redirect the other party to seek the data directly from the LEA. In the event the Provider is compelled to produce Student Data to another party in compliance with a court order, Provider shall notify the LEA at least five (5) school days in advance of the court ordered disclosure and, upon request, provide the LEA with a copy of the court order requiring such disclosure.

5. **Notices.** Any notice delivered pursuant to the DPA shall be deemed effective, as applicable, upon receipt as evidenced by the date of transmission indicated on the transmission material, if by e-mail; or four (4) days after mailing, if by first-class mail, postage prepaid.

6. **Parent Right to Access and Challenge Student Data.** The LEA shall establish reasonable procedures pursuant to which a parent, as that term is defined in 105 ILCS 10/2(g), may inspect and/or

copy Student Data and/or challenge the accuracy, relevance or propriety of Student Data, pursuant to Sections 5 and 7 of ISSRA (105 ILCS 10/5; 105 ILCS 10/7) and Section 33 of SOPPA (105 ILCS 85/33). The Provider shall respond to any request by the LEA for Student Data in the possession of the Provider when Provider cooperation is required to afford a parent an opportunity to inspect and/or copy the Student Data, no later than 5 business days from the date of the request. In the event that a parent contacts the Provider directly to inspect and/or copy Student Data, the Provider shall refer the parent to the LEA, which shall follow the necessary and proper procedures regarding the requested Student Data.

7. Corrections to Factual Inaccuracies. In the event that the LEA determines that the Provider is maintaining Student Data that contains a factual inaccuracy, and Provider cooperation is required in order to make a correction, the LEA shall notify the Provider of the factual inaccuracy and the correction to be made. No later than 90 calendar days after receiving the notice of the factual inaccuracy, the Provider shall correct the factual inaccuracy and shall provide written confirmation of the correction to the LEA.

8. Security Standards. The Provider shall implement and maintain commercially reasonable security procedures and practices that otherwise meet or exceed industry standards designed to protect Student Data from unauthorized access, destruction, use, modification, or disclosure, including but not limited to the unauthorized acquisition of computerized data that compromises the security, confidentiality, or integrity of the Student Data (a "Security Breach"). For purposes of the DPA and this Exhibit G, "Security Breach" does not include the good faith acquisition of Student Data by an employee or agent of the Provider or LEA for a legitimate educational or administrative purpose of the Provider or LEA, so long as the Student Data is used solely for purposes permitted by SOPPA and other applicable law, and so long as the Student Data is restricted from further unauthorized disclosure.

9. Security Breach Notification. In addition to the information enumerated in Article V, Section 4(1) of the DPA Standard Clauses, any Security Breach notification provided by the Provider to the LEA shall include:

- a. A list of the students whose Student Data was involved in or is reasonably believed to have been involved in the breach, if known; and
- b. The name and contact information for an employee of the Provider whom parents may contact to inquire about the breach.

10. Reimbursement of Expenses Associated with Security Breach. In the event of a Security Breach that is attributable to the Provider, the Provider shall reimburse and indemnify the LEA for any and all costs and expenses that the LEA incurs in investigating and remediating the Security Breach, without regard to any limitation of liability provision otherwise agreed to between Provider and LEA, including but not limited to costs and expenses associated with:

- a. Providing notification to the parents of those students whose Student Data was compromised and regulatory agencies or other entities as required by law or contract;
- b. Providing credit monitoring to those students whose Student Data was exposed in a manner during the Security Breach that a reasonable person would believe may impact the student's credit or financial security;
- c. Legal fees, audit costs, fines, and any other fees or damages imposed against the LEA

as a result of the security breach; and

- d. Providing any other notifications or fulfilling any other requirements adopted by the Illinois State Board of Education or under other State or federal laws.

11. Transfer or Deletion of Student Data. The Provider shall review, on an annual basis, whether the Student Data it has received pursuant to the DPA continues to be needed for the purpose(s) of the Service Agreement and this DPA. If any of the Student Data is no longer needed for purposes of the Service Agreement and this DPA, the Provider will provide written notice to the LEA as to what Student Data is no longer needed. The Provider will delete or transfer Student Data in readable form to the LEA, as directed by the LEA (which may be effectuated through Exhibit D of the DPA), within 30 calendar days if the LEA requests deletion or transfer of the Student Data and shall provide written confirmation to the LEA of such deletion or transfer. Upon termination of the Service Agreement between the Provider and LEA, Provider shall conduct a final review of Student Data within 60 calendar days.

If the LEA receives a request from a parent, as that term is defined in 105 ILCS 10/2(g), that Student Data being held by the Provider be deleted, the LEA shall determine whether the requested deletion would violate State and/or federal records laws. In the event such deletion would not violate State or federal records laws, the LEA shall forward the request for deletion to the Provider. The Provider shall comply with the request and delete the Student Data within a reasonable time period after receiving the request.

Any provision of Student Data to the LEA from the Provider shall be transmitted in a format readable by the LEA.

12. Public Posting of DPA. Pursuant to SOPPA, the LEA shall publish on its website a copy of the DPA between the Provider and the LEA, including this Exhibit G.

13. Subcontractors. By no later than (5) business days after the date of execution of the DPA, the Provider shall provide the LEA with a list of any subcontractors to whom Student Data may be disclosed or a link to a page on the Provider's website that clearly lists any and all subcontractors to whom Student Data may be disclosed. This list shall, at a minimum, be updated and provided to the LEA by the beginning of each fiscal year (July 1) and at the beginning of each calendar year (January 1).

14. DPA Term.

- a. **Original DPA.** Paragraph 4 on page 2 of the DPA setting a three-year term for the DPA shall be deleted, and the following shall be inserted in lieu thereof: "This DPA shall be effective upon the date of signature by Provider and LEA, and shall remain in effect as between Provider and LEA 1) for so long as the Services are being provided to the LEA or 2) until the DPA is terminated pursuant to Section 15 of this Exhibit G, whichever comes first. The Exhibit E General Offer will expire three (3) years from the date the original DPA was signed."
- b. **General Offer DPA.** The following shall be inserted as a new second sentence in Paragraph 1 of Exhibit E: "The provisions of the original DPA offered by Provider and accepted by Subscribing LEA pursuant to this Exhibit E shall remain in effect as between Provider and Subscribing LEA 1) for so long as the Services are being provided to Subscribing LEA, or 2) until the DPA is terminated pursuant to Section 15 of this Exhibit G, whichever comes first."

15. **Termination.** Paragraph 1 of Article VII shall be deleted, and the following shall be inserted in lieu thereof: "In the event either Party seeks to terminate this DPA, they may do so by mutual written consent so long as the Service Agreement has lapsed or been terminated. One party may terminate this DPA upon a material breach of this DPA by the other party. Upon termination of the DPA, the Service Agreement shall terminate."
16. **Privacy Policy.** The Provider must publicly disclose material information about its collection, use, and disclosure of Student Data, including, but not limited to, publishing a terms of service agreement, privacy policy, or similar document.
17. **Minimum Data Necessary Shared.** The Provider attests that the Student Data request by the Provider from the LEA in order for the LEA to access the Provider's products and/or services is limited to the Student Data that is adequate, relevant, and limited to what is necessary in relation to the K-12 school purposes for which it is processed.
18. **Student and Parent Access.** Access by students or parents/guardians to the Provider's programs or services governed by the DPA or to any Student Data stored by Provider shall not be conditioned upon agreement by the parents/guardians to waive any of the student data confidentiality restrictions or a lessening of any of the confidentiality or privacy requirements contained in this DPA.
19. **Data Storage.** Provider shall store all Student Data shared under the DPA within the United States.
20. **Exhibits A and B.** The Services described in Exhibit A and the Schedule of Data in Exhibit B to the DPA satisfy the requirements in SOPPA to include a statement of the product or service being provided to the school by the Provider and a listing of the categories or types of covered information to be provided to the Provider, respectively.

Technical Controls

Data Storage & Hosting

Renaissance Growth Platform. The Renaissance Growth Platform is a secure, durable technology platform designed around the core pillars of confidentiality, integrity, and availability. The Renaissance Growth Platform is developed, tested, and deployed in Amazon Web Services (AWS) across several geographically and logically separated locations. The AWS cloud, which complies with an array of industry recognized standards including ISO 27001 and SOC 2, is dispersed throughout 61 zones worldwide, including 16 zones in the U.S. in California, Ohio, Oregon, and Virginia. AWS provides Renaissance with Infrastructure as a service (IaaS) through servers, networking, storage, and databases. For more information about AWS, please visit <https://aws.amazon.com/about-aws/global-infrastructure/>.

Renaissance Data Center & Legacy Products. The Renaissance Data Center is our self-hosting data center located in our headquarters in Wisconsin Rapids, WI. The Renaissance hosted data management platform is a closed system. This means that the secure web-based servers, storage, and databases that support the Renaissance hosted platform are dedicated hardware that is used only for that purpose. Each customer’s data is stored in a separate directory and database that operates independently of all other customers’ directories and databases. Each school or district that uses our products has its own unique Renaissance hosted site URL, and each user is assigned unique login credentials, which must be authenticated before the user can access the corresponding Renaissance hosted site.

If you have specific information security questions, please contact:
infosecurity@renaissance.com

Data Location

Your data is stored on servers in the United States.

Encryption

Customer data hosted within our Renaissance products is encrypted in transit and at rest.

All server-to-client access of the Renaissance hosted platform applications and data requires HTTP over Transport Layer Security (TLS), also known as HTTPS (Port 443). TLS provides privacy, integrity, and protection for data that is transmitted between different nodes on the Internet, and it prevents data from being eavesdropped or tampered with in transit. We use 256-bit AES encryption

with 2048-bit keys to further ensure the Internet traffic between Renaissance and our customers cannot be intercepted.

Our optional Renaissance data integration service automatically refreshes the district's Renaissance applications daily with new data from the student information system. It transfers data over a secure FTP connection (Port 22) for automated extracts and uses a Secure Sockets Layer (SSL)/HTTPS (Port 443) connection when data is uploaded or entered through the software.

Passwords and Role-Based Access

Each school or district has a unique URL to access its Renaissance products. Each user is assigned unique login credentials, which must be authenticated before the user can access the school or district site. Users are assigned to distinct roles, such as student, teacher, or administrator, which limits what information users can access or edit.

Network Security Features

Vigorous network security procedures protect customers' data from electronic intrusion. These include antivirus software; firewalls; regular patching, updating, and hardening processes; and application security to ensure connectivity protection. Renaissance performs full-system scans on a regular schedule and updates antivirus signatures as they are released. Renaissance tracks an array of metrics, including log files, access logs, system usage, and network bandwidth consumption. We monitor all hosted systems 24 hours a day, 7 days a week, using various methods. Any suspicious activity is promptly investigated and addressed. A protective monitoring regime tracks how our information and communications technology systems are used. We also protect these systems from malicious and mobile code. Network security boundaries, also known as segmentation, are defined and enforced to limit access to customer data.

Application Security Testing

Dynamic Application Security Testing (DAST) are run against all our applications on a regular basis. The DAST process, which is an integral piece of our software development cycle, tests our software for exploitable weaknesses and vulnerabilities at each stage of the development process. Vulnerability scans also run on a regular basis. These scans are used to identify and remediate vulnerabilities that may be present in our hosting and corporate platforms.

Business Continuity & Disaster Recovery

We follow stringent data backup and recovery protocols to protect our customer data. Renaissance uses a combination of both full and incremental backups to assist with recovery scenarios. Backups are encrypted and sent off site to redundant storage. Services are deployed via Docker containers and load balanced across hosts running in multiple availability zones to provide high availability and mitigate the risk of service outage. Renaissance also manages much of its cloud infrastructure as code, which facilitates quick recovery or rollback in case of outage, and better transparency into changes in infrastructure over time.

In the event of complete outage, our recovery objectives are to have full functionality within 24 hours, with no more than 1 hour of user data lost.

Physical Controls

Renaissance Growth Platform: The Renaissance Growth Platform is powered by AWS, a secure, durable technology platform that aligns to an array of industry-recognized standards. Its services and data centers have multiple layers of operational and physical security. For more information about AWS, please visit <https://aws.amazon.com/about-aws/global-infrastructure/>

Renaissance Data Center & Legacy Products: The primary location of Renaissance’s key systems—including the primary data center—is within the Wisconsin Rapids, Wisconsin, corporate headquarters. Entry into Renaissance’s corporate headquarters, which houses the primary data center, is controlled via employee magnetic key entry.

Only hosting services department and information system employees who are responsible for the entire corporate infrastructure are allowed unescorted access to the Renaissance data center. Admittance to the data center itself is controlled through a proximity card access system and a motion-based detection system. All visitors to the data center, as well as their internal employee escorts, must sign an access log. We also monitor log files, review access logs, track system usage, and monitoring network bandwidth consumption.

A second environmentally controlled systems room located within Renaissance’s Wisconsin Rapids headquarters houses corporate technology and redundant systems for the corporate data center. This area also is restricted to Renaissance network services employees, and entrance also is monitored by a proximity key.

The environmental conditions within the data center are maintained at a consistent temperature and humidity range, and a third-party security firm monitors conditions within the data center. Should any changes in power or temperature occur, key Renaissance personnel are notified. Electrical power is filtered and controlled by dual uninterruptible power systems. If a power outage occurs, an automatic generator provides uninterrupted power to our servers and heating, ventilation, and air conditioning units. A backup generator sustains longer-term operations. A waterless fire protection system and an early-warning water detection system help to prevent damage to the servers that store our customers’ data.

Administrative Controls

Risk Management Approach

Our security processes and controls substantially follow the **National Institute of Standards and Technology’s Federal Information Processing Standards (FIPS) 200 standard** and related **NIST Special Publication 800-53**.

Governance

Information Security & Privacy Committee: Our risk management plan allows our company to remain up to date on information including security best practices, government policy and legislation, threats and vulnerabilities, and new technologies. Our risk management plan is informed by the Information Security & Privacy Committee which is charged with evaluating our Renaissance information security and privacy policies, procedures, and operations along with Renaissance’s products, product development, and product deployment systems to identify potential areas of vulnerability and risk. These evaluations are used to develop policy, practices, and processes aimed at mitigating or removing vulnerability and risk. Evaluations also inform strategic direction for information security and privacy programs.

The Information Security & Privacy Committee reports to the Executive Leadership Team through the General Counsel.

Incident Response Team

Renaissance maintains an Incident Response Plan. Renaissance’s employees and agents are obligated to protect all customer data and ensure its security. This includes immediately reporting any suspected or known security breaches, theft, unauthorized release, or unauthorized interception of customer data

Our proactive risk management plan allows our company to stay up to date on information including security best practices, government policy and legislation, threats and vulnerabilities, and new technologies. However, should

evidence of intrusion or unauthorized access arise, our Incident Response team will execute the following countermeasures:

1. Sever the connection of the intruder to the compromised system(s), including but not limited to restricting IP addresses, disabling services, and powering off the Renaissance virtual server.
2. Activate the Incident Response Plan.
3. Assess the damage from the intrusion.
4. Assess the intrusion and correcting security vulnerabilities.
5. Report assessment, damage, and remedies to the data owner.

Upon confirmation of a data breach, Renaissance's Data Protection Officer would notify the district's designated contact within the applicable regulatory or contractually agreed upon timelines. This e-mail will include the date and time of the breach, the names of the student(s) whose data was released, disclosed, or acquired (to the extent known); the nature and extent of the breach, and Renaissance's proposed plan to investigate and remediate the breach.

Renaissance will investigate and restore the integrity of its data systems. Within 30 days after discovering a breach, Renaissance will provide the district's designated contact with a more detailed notice of the breach, including but not limited to the date and time of the breach; name(s) of the student(s) whose student data was released, disclosed or acquired; nature of and extent of the breach; and measures taken to prevent a future occurrence.

We encourage district representatives with any questions or concerns regarding privacy, security, or related issues to contact our Data Protection Officer via e-mail at privacy@renaissance.com.

Security Education, Training & Awareness

All Renaissance employees are required to complete 1.5 hours of both Global Privacy and Information Security training on annual basis.

Renaissance conducts a regular anti-phishing awareness program. The Information Security team sends batches of simulated phishing email "tests" to all employees on a monthly basis. The Information Security team reports on these metrics as a Key Performance Indicator.

Renaissance regularly communicates cybersecurity information relevant to the current threat environment to all employees.

Compliance

Employees: All Renaissance employees and contractors must sign a legally enforceable nondisclosure agreement prior to the start of their employment or contract. They are additionally required to read, sign and agree to abide by Renaissance's technology policies. Employees and contractors must clear a background check before starting their employment or contract.

Vendors: Renaissance maintains a vendor compliance program. Renaissance has invested in privacy compliance management software whereby vendor data is inventoried, assessed and mapped. Vendors' security and privacy practices are reviewed and evaluated.
