EXHIBIT "F" DATA SECURITY REQUIREMENTS

Adequate Cybersecurity Frameworks 2/24/2020

The Education Security and Privacy Exchange ("Edspex") works in partnership with the Student Data Privacy Consortium and industry leaders to maintain a list of known and credible cybersecurity frameworks which can protect digital learning ecosystems chosen based on a set of guiding cybersecurity principles* ("Cybersecurity Frameworks") that may be utilized by Provider .

Cybersecurity Frameworks

	MAINTAINING ORGANIZATION/GROUP	FRAMEWORK(S)
	National Institute of Standards and Technology	NIST Cybersecurity Framework Version 1.1
X	National Institute of Standards and Technology	NIST SP 800-53, Cybersecurity Framework for Improving Critical Infrastructure Cybersecurity (CSF), Special Publication 800-171
	International Standards Organization	Information technology — Security techniques — Information security management systems (ISO 27000 series)
	Secure Controls Framework Council, LLC	Security Controls Framework (SCF)
	Center for Internet Security	CIS Critical Security Controls (CSC, CIS Top 20)
	Office of the Under Secretary of Defense for Acquisition and Sustainment (OUSD(A&S))	Cybersecurity Maturity Model Certification (CMMC, ~FAR/DFAR)

Please visit http://www.edspex.org for further details about the noted frameworks.

^{*}Cybersecurity Principles used to choose the Cybersecurity Frameworks are located here

EXHIBIT "G" - Supplemental SDPC State Terms for Illinois

Version 1.0

This Exhibit G , Supplemental SDPC State Terms f	or Illinois ("Supplemental State Terms"), effective
simultaneously with the attached Student Data	Privacy Agreement ("DPA") by and between
Monmouth-Roseville CUSD#238	(the "Local Education Agency" or "LEA") and
Renaissance	(the "Provider"), is incorporated in the
attached DPA and amends the DPA (and all suppleme	ntal terms and conditions and policies applicable to
the DPA) as follows:	

- 1. <u>Compliance with Illinois Privacy Laws</u>. In performing their respective obligations under the Agreement, the LEA and the Provider shall comply with all Illinois laws and regulations pertaining to student data privacy and confidentiality, including but not limited to the Illinois School Student Records Act ("ISSRA"), 105 ILCS 10/, Mental Health and Developmental Disabilities Confidentiality Act ("MHDDCA"), 740 ILCS 110/, Student Online Personal Protection Act ("SOPPA"), 105 ILCS 85/, Identity Protection Act ("IPA"), 5 ILCS 179/, and Personal Information Protection Act ("PIPA"), 815 ILCS 530/.
- 2. <u>Definition of "Student Data."</u> In addition to the definition set forth in <u>Exhibit C</u>, Student Data includes any and all "covered information," as that term is defined in Section 5 of SOPPA (105 ILCS 85/5), and Student Data shall constitute "school student records" as that term is defined in Section 2 of ISSRA (105 ILCS 10/2(d)).
- 3. <u>School Official Designation.</u> Pursuant to Article I, Paragraph 1 of the DPA Standard Clauses, and in accordance with FERPA, ISSRA and SOPPA, in performing its obligations under the DPA, the Provider is acting as a school official with legitimate educational interest; is performing an institutional service or function for which the LEA would otherwise use its own employees; is under the direct control of the LEA with respect to the use and maintenance of Student Data; and is using Student Data only for an authorized purpose.
- 4. <u>Limitations on Re-Disclosure.</u> The Provider shall not re-disclose Student Data to any Third Party or affiliate without the express written permission of the LEA or pursuant to court order, unless such disclosure is otherwise permitted under SOPPA, ISSRA, FERPA, and MHDDCA. In the event a Third Party, including law enforcement or a government entity, contacts the Provider with a request or subpoena for Student Data in the possession of the Provider, the Provider shall redirect the Third Party to seek the data directly from the LEA. In the event the Provider is compelled to produce Student Data to a Third Party in compliance with a court order, Provider shall notify the LEA at least five (5) school days in advance of the court ordered disclosure and, upon request, provide the LEA with a copy of the court order requiring such disclosure.
- 5. <u>Notices.</u> Any notice delivered pursuant to the DPA shall be deemed effective, as applicable, upon receipt as evidenced by the date of transmission indicated on the transmission material, if by e-mail; or four (4) days after mailing, if by first-class mail, postage prepaid.
- 6. Parent Right to Access and Challenge Student Data. The LEA shall establish reasonable procedures pursuant to which a parent, as that term is defined in 105 ILCS 10/2(g), may inspect and/or copy Student Data and/or challenge the accuracy, relevance or propriety of Student Data, pursuant to Sections 5 and 7 of ISSRA (105 ILCS 10/5; 105 ILCS 10/7) and Section 33 of SOPPA (105 ILCS 85/33). The Provider shall respond to any request by the LEA for Student Data in the possession of the Provider, for

purposes of affording a parent an opportunity to inspect and/or copy the Student Data, no later than 10 business days from the date of the request. In the event that a parent contacts the Provider directly to inspect and/or copy Student Data, the Provider shall refer the parent to the LEA, which shall follow the necessary and proper procedures regarding the requested Student Data.

- 7. <u>Corrections to Factual Inaccuracies.</u> In the event that the LEA determines that the Provider is maintaining Student Data that contains a factual inaccuracy, the LEA shall notify the Provider of the factual inaccuracy and the correction to be made. No later than 90 calendar days after receiving the notice of the factual inaccuracy, the Provider shall correct the factual inaccuracy and shall provide written confirmation of the correction to the LEA.
- 8. **Security Standards.** The Provider shall implement and maintain commercially reasonable security procedures and practices that otherwise meet or exceed industry standards designed to protect Student Data from unauthorized access, destruction, use, modification, or disclosure, including but not limited to the unauthorized acquisition of computerized data that compromises the security, confidentiality, or integrity of the Student Data (a "Security Breach"). For purposes of the DPA and this **Exhibit G**, "Security Breach" does not include the good faith acquisition of Student Data by an employee or agent of the Provider or LEA for a legitimate purpose of the Provider or LEA, so long as the Student Data is used solely for purposes permitted by SOPPA and other applicable law, and so long as the Student Data is restricted from further unauthorized disclosure.
- 9. <u>Security Breach Notification</u>. In addition to the information enumerated in Article V, Section 4(1) of the DPA Standard Clauses, any Security Breach notification provided by the Provider to the LEA shall include:
 - a. A list of the students whose Student Data was involved in or is reasonably believed to have been involved in the breach, if known; and
 - b. The name and contact information for an employee of the Provider whom parents may contact to inquire about the breach.
- 10. <u>Reimbursement of Expenses Associated with Security Breach</u>. In the event of a Security Breach that is attributable to the Provider, the Provider shall reimburse and indemnify the LEA for any and all costs and expenses that the LEA incurs in investigating and remediating the Security Breach, including but not limited to costs and expenses associated with:
 - a. Providing notification to the parents of those students whose Student Data was compromised and regulatory agencies or other entities as required by law or contract;
 - Providing credit monitoring to those students whose Student Data was exposed in a manner during the Security Breach that a reasonable person would believe may impact the student's credit or financial security;
 - c. Legal fees, audit costs, fines, and any other fees or damages imposed against the LEA as a result of the security breach; and

- d. Providing any other notifications or fulfilling any other requirements adopted by the Illinois State Board of Education or under other State or federal laws.
- 11. <u>Transfer or Deletion of Student Data.</u> The Provider shall review, on an annual basis, whether the Student Data it has received pursuant to the DPA continues to be needed for the purpose(s) of the DPA. If any of the Student Data is no longer needed for purposes of the DPA, the Provider must delete such unnecessary Student Data or transfer to the LEA such unnecessary Student Data. The Provider shall effectuate such transfer or deletion of Student Data and provide written confirmation of said transfer or deletion to the LEA within thirty (30) calendar days of the operator becoming aware that the Student Data is no longer needed for purposes of the DPA.

If the LEA receives a request from a parent, as that term is defined in 105 ILCS 10/2(g), that Student Data being held by the Provider be deleted, the LEA shall determine whether the requested deletion would violate State and/or federal records laws. In the event such deletion would not violate State or federal records laws, the LEA shall forward the request for deletion to the Provider. The Provider shall comply with the request and delete the Student Data within a reasonable time period after receiving the request.

- 12. <u>Public Posting of DPA.</u> Pursuant to SOPPA, the LEA shall publish on its website a copy of the DPA between the Provider and the LEA, including this <u>Exhibit G</u>.
- 13. <u>Subcontractors.</u> By no later than (5) business days after the date of execution of the DPA, the Provider shall provide the LEA with a list of any subcontractors to whom Student Data may be disclosed or a link to a page on the Provider's website that clearly lists any and all subcontractors to whom Student Data may be disclosed. This list shall, at a minimum, be updated and provided to the LEA by the beginning of each fiscal year (July 1) and at the beginning of each calendar year (January 1).

EXHIBIT "H" Additional Terms or Modifications

Version		

LEA and Provider agree to the following additional terms and modifications:

This is a free text field that the parties can use to add or modify terms in or to the DPA. If there are no additional or modified terms, this field should read "None."

618-1/4715859.1

Please refer to the attached US Privacy Notice, Data Elements Collected by Product, and the Information Security Overview for additional information on how we use and protect your data.

RENAISSANCE

US Privacy Notice: Renaissance Products

Welcome, Educators! Renaissance Learning, Inc. and its subsidiaries ("Renaissance," "We," "Us," "Our") are committed to the privacy and security of Your Data. We have created this Privacy Notice to inform You about Your data rights and the measures We take to protect Your Data and keep it private when You are using our Products in the United States.

If You are using Renaissance Products outside of the United States, please find Your applicable Privacy Notice HERE.

Definitions

Capitalized words have special meaning and are defined below.

"Educators," "You," "Your" means the district, school or institution contracting with Renaissance for use of the Renaissance Products. If You are an individual serving California students, additional information regarding Your California Consumer Privacy Act rights can be found <u>HERE</u>.

"Authorized User(s)" means Your faculty, staff (including administrators and teachers), students accounted for in Your quote, and the parents of such students.

"Products" means the commercial educational online software products being provided to You under Your Terms of Service & License Agreement. Our products include: Accelerated Reader, Accelerated Math, Star Assessments, Star 360, Star Reading, Star Early Literacy, Star Math, Star Custom, Star CBM, Freckle, myON, myIGDIs and Schoolzilla.

"Data Protection Legislation" means the Family Educational Rights and Privacy Act ("FERPA"), the Children's Online Privacy Protection Act ("COPPA") and any other applicable state education privacy laws and regulations specific to Your Data.

"Your Data" includes: (i) Authorized User rostering information; (ii) Authorized User information or content generated within the Products (ex, scores, assessments, assignments, essays, notes); (iii) Authorized User sign-on information; (iv) student information that You send to Us in connection with a research study request; (v) feedback Your teachers share with Us. Your Data includes both "personally identifiable information" and "personal information" as defined in the applicable Data Protection Legislation. Renaissance considers Your Data to include any information that can be used on its own or with other information to identify Your Authorized Users as individuals.

"De-identified Data" is data that has had any personally identifiable information removed to such a degree that there is no reasonable basis to believe that the remaining data can be used to identify an individual.

Information We Collect

We gather the various types of information below:

- **Usage Information**: We keep track of activity in relation to how You and/or Your Authorized Users use the Products including traffic, location, logs and other communication data.
- **Device Information**: We log information about You and/or Your Authorized User's computing device when they use the Products including the device's unique device identifier, IP address, browser, operating system, and mobile network.
- Information collected by Cookies and other similar technologies: We use various technologies to collect aggregated user information which may include saving cookies to Authorized User's computers.
- Stored Information and Files: The Products may access files, including metadata, stored on Authorized Users' computing devices if You choose to send or provide to Us.
- Information Input by You or Authorized Users: We receive and store information You or Your Authorized Users input into the Products. The specific input information that is stored by each Application can be found HERE.

Effective Date: 4/17/2020

Information Generated from using the Products: We store information generated by Authorized User's
use of the Products. The specific user generated information that is stored by each Application can be
found HERE.

How We Use Information

We take Your privacy seriously. Truly. We are proud signatories to the <u>Student Privacy Pledge</u> which is a voluntary standard that is legally enforceable by the Federal Trade Commission. We won't use Your Data to do anything other than what We describe below. We use Your Data as follows:

- Provide You and Your Authorized Users with access to the Products
- Communicate with Authorized Users as necessary to meet Our obligations to You
- Provide marketing communications to Educators
- Provide You notices about Your account, including expiration and renewal notices
- Carry out Our obligations and enforce Our rights arising from Our Terms of Service and License Agreement
- Notify You of changes to any Products
- Estimate Your size and usage patterns
- Store information about Your preferences, allowing Us to customize Your services
- Maintain and improve performance or functionality of the Products
- Demonstrate the effectiveness of the Products
- To De-identify Your Data so that De-identified Data can be used as follows:
 - o aggregate reporting and analytics purposes
 - o general research and the development of new technologies
 - improving educational products
 - o developing and improving educational sites, services and products
 - o where applicable, to support any of the uses above or any other legitimate business purpose

How We Share Information

The security and privacy of Your Data is Our number one priority. We are in the business of making sure You can leverage Your Data to help students. We are <u>not</u> in the business of selling data. We may share and disclose Your Data in the following limited circumstances:

- Vendors: We may share Your Data with third party vendors, consultants and other service providers who We
 employ to perform tasks on Our behalf. These vendors are bound by contractual obligations to keep Your
 Data safe and honor Our privacy commitments to You. A list of Our hosting and data center vendors can be
 found HERE.
- Change of Control: We are committed to protecting Your Data and honoring Our privacy commitments to
 You, even in the case We join forces with another organization. If a third-party purchases most of Our
 ownership interests or assets, or We merge with another organization, it is possible We would need to
 disclose Your Data to the other organization following the transaction in order to continue providing services
 to You. The new controlling organization will be subject to the same commitments as set forth in this
 Privacy Notice.
- National Security or Law Enforcement: Under certain circumstances, We may be required to
 disclose Your Data in response to valid requests by public authorities, including to meet national security or
 law enforcement requirements.
- Protection: We may disclose Your Data if We believe a disclosure is necessary to protect Us, You and/or Your Authorized Users including to protect the safety of a child and/or Our Products.
- **Research**: We may share De-Identified Data with educational institutions; applicable governmental departments or entities working under their authority, to support alignment studies and educational research.
- Third Parties You Authorize: We may share Your Data with third parties that You have authorized.

Security

Your Data is stored on servers in the United States. The security of Your Data is of the utmost importance to Us. Please review Our Information Security Overview for more information about how We protect Your Data.

Data Retention and Destruction

We would hate to lose You as a customer, but if You decide not to renew or You terminate Your Terms of Service and License Agreement with Us, We will remove Your Data from the Products.

RENAISSANCE®

Contractual Customers: When Your Terms of Service and License Agreement is up for renewal, We provide You with a 60 day grace period prior to scheduling Your Data for removal. If You are using our Freckle Product, You have the option to transfer to our Freckle Product Free-Version prior to having Your Data removed. We provide these options to ensure We will be able to restore access to Your Data should there be a lapse in time between Your contractual end date and Your renewal processing. Following the 60 day grace period, Your Data will be removed from Our primary data storage within 30 days and Our backups within 90 days.

Freckle Product Free-Version: If You are using the Free-Version of Our Freckle product, We will remove accounts that have been consistently inactive for a period of 13 months. Prior to scheduling Your Data for removal, We will send an email to notify You. If You do <u>not</u> wish for Your account to be removed, please respond within 15 days. If We do not hear back from You within that time period, Your Data will be scheduled for deletion and will be removed from Our primary data storage within 30 days and Our backups within 90 days.

If any applicable laws or regulations require Us to keep any of Your Data, We will only keep it for the period and purpose such law or regulation requires.

We do keep, combine and continue to use De-identified Data or anonymized data across all of Our Products.

Privacy Rights

Your Data is, and always will remain, Your property and under Your control. We won't delete, change or divulge any of Your Data except as described in this Privacy Notice.

You are responsible for the content of Your Data. You can retrieve an Authorized User's information using the Products' dashboard(s). If You receive a request from a student or a parent/guardian to change or delete any Authorized User data, You can make the changes to the source data within Your systems. The Products refresh data on a regular basis. If We are contacted by students, parents or guardians to request data changes or deletions, We will direct their inquiries to You and abide by Your direction.

Data Protection Legislation

Renaissance complies with all applicable Data Protection Legislation. Applicable Data Protection Legislation will control if there is a conflict with this Privacy Notice.

As a condition of using the Products, You are responsible for informing Your Authorized Users about this Privacy Notice and obtaining any applicable parental consents as required by applicable Data Protection Legislation.

Your Nevada Privacy Rights

Senate Bill No. 220 (May 29, 2019) amends Chapter 603A of the Nevada Revised Statutes to permit a Nevada consumer to direct an operator of an Internet website or online service to refrain from making any sale of any covered information the operator has collected or will collect about that consumer. You may submit a request pursuant to this directive by emailing Us at privacy@renaissance.com. We will provide further information about how We verify the authenticity of the request and Your identity. Once again, We are not by law to inform our Nevada customers of their important Nevada-specific privacy rights.

Third Parties

The Products may operate with third-party software and/or services obtained separately by You and authorized by You and/or You may be able to access third-party websites and applications (collectively and individually, "Third Party Services"). While We configure Our Products to work with Third Party Services, We do not endorse and are not responsible for the privacy policies, functionality, or operation of Third Party Services.

Updates

If it becomes necessary for Us to change this Privacy Notice, We will post the changes on Our website and do Our best to bring it to Your attention. If that happens, please make sure You review those changes. However, if any laws

or regulations change, We will update this Privacy Notice so that We comply with such changes without prior notice. We won't make any material changes to how We use Your Data without notifying You.

Contact Us

If You have any questions or concerns regarding this Privacy Notice, please send a detailed message to privacy@renaissance.com or by mail to Renaissance Learning, Inc., Attn: "Privacy: Data Protection Officer", 6625 W 78th St, Suite 220, Bloomington, MN 55439.

	Student app passwords encrypted only for SSO	Required	Required	Required	Required	Required	Optional			Required
	First and/or Last	Required								
Student In App Performance	Program / application performance (typing program- student types 60 wpm, reading program-student reads below grade level)	Required	Required	Required	Required	Required	Required			
Student Survey Responses	Student responses to surveys or questionnaires	Required	Required	Required	Required	Optional	Required	Required		
Student Work	Student generated content; writing, pictures etc.					Optional				
	Other student work data									
	Student course grades								Optional	
	Student course data								Optional	
Transcript	Student course grades/performance scores								Optional	
	Other transcript data								Optional	
Transportation	Other transportation data									

RENAISSANCE Information Security Overview

Welcome educators! As a leading provider of technology products to K–12 schools worldwide, security is a critical aspect of Renaissance's business. Renaissance is subject to global data privacy & security regulations including FERPA, COPPA, HIPAA, GDPR, PIPEDA, the Australian Privacy Act, and United States state-specific educational privacy laws. We abide by our regulatory obligations and we strive to exceed the security expectations of the educators we serve. Every day, millions of users depend upon our commitment to protect their data. We take this commitment seriously.

This Information Security Overview describes the ways in which we protect and secure your data. If you are interested in learning more about how we handle the privacy of your data (data use, collection, disclosure, deletion) please visit our Privacy Hub for more information.

Technical Controls

Data Storage & Hosting

Renaissance Growth Platform. The Renaissance Growth Platform is a secure, durable technology platform designed around the core pillars of confidentiality, integrity, and availability. The Renaissance Growth Platform is developed, tested, and deployed in Amazon Web Services (AWS) across several geographically and logically separated locations. The AWS cloud, which complies with an array of industry recognized standards including ISO 27001 and SOC 2, is dispersed throughout 61 zones worldwide, including 16 zones in the U.S. in California, Ohio, Oregon, and Virginia. AWS provides Renaissance with Infrastructure as a service (laaS) through servers, networking, storage, and databases. For more information about AWS, please visit https://aws.amazon.com/about-aws/global-infrastructure/.

Renaissance Data Center & Legacy Products. The Renaissance Data Center is our self-hosting data center located in our headquarters in Wisconsin Rapids, WI. The Renaissance hosted data management platform is a closed system. This means that the secure web-based servers, storage, and databases that support the Renaissance hosted platform are dedicated hardware that is used only for that purpose. Each customer's data is stored in a separate directory and database that operates independently of all other customers' directories and databases. Each school or district that uses our products has its own unique Renaissance hosted site URL, and each user is assigned unique login credentials, which must be authenticated before the user can access the corresponding Renaissance hosted site.

If you have specific information security questions, please contact: infosecurity@renaissance.com

Data Location

Your data is stored on servers in the United States.

Encryption

Customer data hosted within our Renaissance products is encrypted in transit and at rest.

All server-to-client access of the Renaissance hosted platform applications and data requires HTTP over Transport Layer Security (TLS), also known as HTTPS (Port 443). TLS provides privacy, integrity, and protection for data that is transmitted between different nodes on the Internet, and it prevents data from being eavesdropped or tampered with in transit. We use 256-bit AES encryption

with 2048-bit keys to further ensure the Internet traffic between Renaissance and our customers cannot be intercepted.

Our optional Renaissance data integration service automatically refreshes the district's Renaissance applications daily with new data from the student information system. It transfers data over a secure FTP connection (Port 22) for automated extracts and uses a Secure Sockets Layer (SSL)/HTTPS (Port 443) connection when data is uploaded or entered through the software.

Passwords and Role-Based Access

Each school or district has a unique URL to access its Renaissance products. Each user is assigned unique login credentials, which must be authenticated before the user can access the school or district site. Users are assigned to distinct roles, such as student, teacher, or administrator, which limits what information users can access or edit.

Network Security Features

Vigorous network security procedures protect customers' data from electronic intrusion. These include antivirus software; firewalls; regular patching, updating, and hardening processes; and application security to ensure connectivity protection. Renaissance performs full-system scans on a regular schedule and updates antivirus signatures as they are released. Renaissance tracks an array of metrics, including log files, access logs, system usage, and network bandwidth consumption. We monitor all hosted systems 24 hours a day, 7 days a week, using various methods. Any suspicious activity is promptly investigated and addressed. A protective monitoring regime tracks how our information and communications technology systems are used. We also protect these systems from malicious and mobile code. Network security boundaries, also known as segmentation, are defined and enforced to limit access to customer data.

Application Security Testing

Dynamic Application Security Testing (DAST) are run against all our applications on a regular basis. The DAST process, which is an integral piece of our software development cycle, tests our software for exploitable weaknesses and vulnerabilities at each stage of the development process. Vulnerability scans also run on a regular basis. These scans are used to identify and remediate and vulnerabilities that may be present in our hosting and corporate platforms.

Business Continuity & Disaster Recovery

We follow stringent data backup and recovery protocols to protect our customer data. Renaissance uses a combination of both full and incremental backups to assist with recovery scenarios. Backups are encrypted and sent off site to redundant storage. Services are deployed via Docker containers and load balanced across hosts running in multiple availability zones to provide high availability and mitigate the risk of service outage. Renaissance also manages much of its cloud infrastructure as code, which facilitates quick recovery or rollback in case of outage, and better transparency into changes in infrastructure over time.

In the event of complete outage, our recovery objectives are to have full functionality within 24 hours, with no more than 1 hour of user data lost.

Physical Controls

Renaissance Growth Platform: The Renaissance Growth Platform is powered by AWS, a secure, durable technology platform that aligns to an array of industry-recognized standards. Its services and data centers have multiple layers of operational and physical security. For more information about AWS, please visit https://aws.amazon.com/about-aws/global-infrastructure/

Renaissance Data Center & Legacy Products: The primary location of Renaissance's key systems—including the primary data center—is within the Wisconsin Rapids, Wisconsin, corporate headquarters. Entry into Renaissance's corporate headquarters, which houses the primary data center, is controlled via employee magnetic key entry.

Only hosting services department and information system employees who are responsible for the entire corporate infrastructure are allowed unescorted access to the Renaissance data center. Admittance to the data center itself is controlled through a proximity card access system and a motion-based detection system. All visitors to the data center, as well as their internal employee escorts, must sign an access log. We also monitor log files, review access logs, track system usage, and monitoring network bandwidth consumption.

A second environmentally controlled systems room located within Renaissance's Wisconsin Rapids headquarters houses corporate technology and redundant systems for the corporate data center. This area also is restricted to Renaissance network services employees, and entrance also is monitored by a proximity key.

The environmental conditions within the data center are maintained at a consistent temperature and humidity range, and a third-party security firm monitors conditions within the data center. Should any changes in power or temperature occur, key Renaissance personnel are notified. Electrical power is filtered and controlled by dual uninterruptible power systems. If a power outage occurs, an automatic generator provides uninterrupted power to our servers and heating, ventilation, and air conditioning units. A backup generator sustains longer-term operations. A waterless fire protection system and an early-warning water detection system help to prevent damage to the servers that store our customers' data.

Administrative Controls

Risk Management Approach

Our security processes and controls substantially follow the National Institute of Standards and Technology's Federal Information Processing Standards (FIPS) 200 standard and related NIST Special Publication 800-53.

Governance

Information Security & Privacy Committee: Our risk management plan allows our company to remain up to date on information including security best practices, government policy and legislation, threats and vulnerabilities, and new technologies. Our risk management plan is informed by the Information Security & Privacy Committee which is charged with evaluating our Renaissance information security and privacy policies, procedures, and operations along with Renaissance's products, product development, and product deployment systems to identify potential areas of vulnerability and risk. These evaluations are used to develop policy, practices, and processes aimed at mitigating or removing vulnerability and risk. Evaluations also inform strategic direction for information security and privacy programs.

The Information Security & Privacy Committee reports to the Executive Leadership Team through the General Counsel.

Incident Response Team

Renaissance maintains an Incident Response Plan. Renaissance's employees and agents are obligated to protect all customer data and ensure its security. This includes immediately reporting any suspected or known security breaches, theft, unauthorized release, or unauthorized interception of customer data

Our proactive risk management plan allows our company to stay up to date on information including security best practices, government policy and legislation, threats and vulnerabilities, and new technologies. However, should

evidence of intrusion or unauthorized access arise, our Incident Response team will execute the following countermeasures:

- 1. Sever the connection of the intruder to the compromised system(s), including but not limited to restricting IP addresses, disabling services, and powering off the Renaissance virtual server.
- 2. Activate the Incident Response Plan.
- 3. Assess the damage from the intrusion.
- 4. Assess the intrusion and correcting security vulnerabilities.
- 5. Report assessment, damage, and remedies to the data owner.

Upon confirmation of a data breach, Renaissance's Data Protection Officer would notify the district's designated contact within the applicable regulatory or contractually agreed upon timelines. This e-mail will include the date and time of the breach, the names of the student(s) whose data was released, disclosed, or acquired (to the extent known); the nature and extent of the breach, and Renaissance's proposed plan to investigate and remediate the breach.

Renaissance will investigate and restore the integrity of its data systems. Within 30 days after discovering a breach, Renaissance will provide the district's designated contact with a more detailed notice of the breach, including but not limited to the date and time of the breach; name(s) of the student(s) whose student data was released, disclosed or acquired; nature of and extent of the breach; and measures taken to prevent a future occurrence.

We encourage district representatives with any questions or concerns regarding privacy, security, or related issues to contact our Data Protection Officer via e-mail at privacy@renaissance.com.

Security Education, Training & Awareness

All Renaissance employees are required to complete 1.5 hours of both Global Privacy and Information Security training on annual basis.

Renaissance conducts a regular anti-phishing awareness program. The Information Security team sends batches of simulated phishing email "tests" to all employees on a monthly basis. The Information Security team reports on these metrics as a Key Performance Indicator.

Renaissance regularly communicates cybersecurity information relevant to the current threat environment to all employees.

Compliance

Employees: All Renaissance employees and contractors must sign a legally enforceable nondisclosure agreement prior to the start of their employment or contract. They are additionally required to read, sign and agree to abide by Renaissance's technology policies. Employees and contractors must clear a background check before starting their employment or contract.

Vendors: Renaissance maintains a vendor compliance program. Renaissance has invested in privacy compliance management software whereby vendor data is inventoried, assessed and mapped. Vendors' security and privacy practices are reviewed and evaluated. Renaissance vendors are contractually bound to comply with the security and privacy requirements of both Renaissance and our customers.
