STUDENT DATA PRIVACY AGREEMENT

This Student Data Privacy Agreement dated March 2, 2018 (hereinafter "Agreement") is by and between by and between the City of Cambridge, a municipal corporation with a principal place of business at City Hall, 795 Massachusetts Avenue, Cambridge, Massachusetts, on behalf of the Cambridge Public Schools, a department of the City of Cambridge, with a principal place of business at 159 Thorndike Street, Cambridge, Massachusetts ("CPS"), and Give a Summer, a non-profit organization located at 1 Western Avenue, Boston, Massachusetts ("Contractor"), a contractor performing institutional services and functions that will require student data to perform those services and functions. Give a Summer’s mission is to expand youth access to summer program opportunities. It works with schools, communities and youth-serving organizations to help them understand where and why students are and are not able to access summer opportunities. With that understanding, it helps schools, communities and youth-serving organizations implement innovative, effective strategies to increase youth access to summer opportunities, and to support them in school and overall success.

1. Contractor and CPS have contracted for the Contractor to provide surveys for upper school students during the 2017-2018 school year in order to help increase the enrollment of high-risk students in summer programs. Contractor also will supplement the Cambridge Public School’s efforts of supporting all, and particularly high-risk, 6th-8th graders’ access to summer and afterschool opportunities by creating student surveys to administer to upper grade students, then to analyze the data collected by those surveys, and to create innovative ways for CPS to use this information to support schools, faculty, students and families. More specifically, Contractor shall be responsible for creating and designing a survey which CPS will administered to CPS middle school students through CPS-Google accounts and Contractor also shall be responsible for analyzing the data from the surveys that are administered to CPS middle school students about student participating in and challenges in accessing afterschool and summer opportunities ("Data Results"). Analysis of the Data Results will be done at grade, homeroom and school level and both the raw data, Data Results and a report will be prepared for CPS of the results of this analysis (hereinafter "Reports") which will help to inform and guide how CPS is able to support student engagement in out of school time programs, including helping CPS determine which programs could be a good match for specific students so that CPS can then assist students and their families to complete the necessary steps to register and enroll in appropriate program(s). Contractor further agrees that all data from the surveys and Data Results shall be used for no purpose other than the analysis and completion of the Reports for CPS and that all Data Elements, all data from the survey and Data Results shall be destroyed upon completion of its analysis for CPS and provision of said Reports to CPS ("the Services"), which are institutional services and functions, to CPS. In the course of performing the Services, Contractor will obtain confidential student records
and/or confidential student record information that contain personally identifiable student records, data and/or personally identifiable information and other non-public information, including, but not limited to student data, meta data and user content ("Data Elements"). More specifically, the Data Elements will include all current middle school students:

- Student ID
- Student Name
- Student school-issued email address
- Student Gender
- Homeroom
- Grade
- School

These Data Elements will be provided so that Contractor can pre-populate this information into the online survey that will be administered to all CPS middle school students. The online survey will be uniquely designed for each school’s grade levels, and that grade’s homerooms plus the specific names of those students in each of the homerooms, will be the only data that is pre-populated on each survey.

CPS and Contractor acknowledge and agree that this Agreement is for the purpose of sharing Data Elements between the parties in a manner consistent with the Family Education Records Privacy Act of 1974 ("FERPA") and Massachusetts student record regulations, 603 C.M.R. 23.00 ("State Regulations"). The Data Elements will be used by the Contractor and its employees to populate student data only for the purpose of delivering these Services. Contractor further acknowledges and agrees that all copies of such Data Elements, including any modifications or additions to Data Elements or any portion thereof from any source, are subject to the provisions of this Agreement in the same manner as the original Data Elements. The ability to access or maintain Data Elements and/or any portion thereof under this Agreement shall not under any circumstance transfer from Contractor to any other party.

2. Contractor acknowledges and agrees that it is providing institutional services or functions for CPS and that it is under direct control of CPS with respect to the use and maintenance of Data Elements in connection with these Services. Contractor additionally acknowledges and agrees that at no point in time is the Contractor the owner of the Data Elements. Ownership rights are maintained by CPS and CPS reserves the right to request the prompt return of any portion of the Data Elements and/or all Data Elements at any time for any reason whatsoever. Contractor further acknowledges and agrees that it shall adhere to the requirements set forth in both federal and state law regarding the use and re-disclosure of the Data Elements or any portion thereof, including without limitation, any student data, meta data, user content or other non-public information and/or personally identifiable information contained within the Data Elements. Contractor also acknowledges and agrees that it shall not make any re-disclosure of any Data Elements or any portion thereof, including without limitation, any student data, meta data, user
content or other non-public information and/or personally identifiable information contained in the Data Elements, without the express written consent of CPS.

Additionally, Contractor agrees that only authorized employees of the Contractor directly involved in delivering the Services shall have access to the Data Elements or any portion thereof, including without limitation, any student data, meta data, user content or other non-public information and/or personally identifiable information contained in the Data Elements and that it and its employees shall protect the confidentiality of the Data Elements or any portion thereof, including without limitation, any student data, meta data, user content or other non-public information and/or personally identifiable information contained in the Data Elements in such a way that parties other than officials of CPS and their authorized agents cannot identify any students.
