DESCRIPTION OF SERVICES

The AET system is a comprehensive student-centered agricultural education management system used annually by over 600,000 students each school year! AET is designed to help students track their educational experiences (classroom, SAE, and FFA) and document them to help them learn life skills and improve their decision-making. The cost of AET is based on the size of the agricultural education program and the focused use of AET is all student enrolled in the program. Financial support for AET is typically supported by Perkins, state-curricular funds or other school resources, especially as the program is focused on AFNR or state academic standards, SAE experiences and educational resources. A core value of AET is students learn to track their experiences, which develops their digital portfolio and allows them to leverage their data to complete state and national award applications. Some critical aspects of why to use AET are: AET is a personal, educational experience management system that addresses the standard state curriculum code of each student with an SAE program. AET also aligns with the nationally recognized three-circle model of ag education (Classroom, SAE, and FFA). AET provides grading and management reports to showcase student engagement for CTE admin or program stakeholders to represent all areas of ag-education, economic value reports and more. AET is a management system to help minor students' records of SAE (WBL) experiences. AET includes a written SAE Plan/Agreement, tracking skills and time invested, and helps students reflect on their learning outcomes aligned to AFNR or state content standards. AET also provides online SAE assessments that teachers and or employers can use to help students improve their SAE program. AET also provides an employer/supervisor management system to help programs track employers or other professionals that assist their students. AET also offers online program management tools such as an online program calendar to track career development events, an FFA meeting manager to assist in those events, and a public-view website for parents and others to keep up with event plans. AET also aligns with all FFA awards and offers custom state award applications to recognize student success using the data they have entered as they track their experiences. AET offers an online educational curriculum to teach students about SAE opportunities, agribusiness classroom videos/guides, a summary of AFNR for educational use, an online tractor/ATV safety curriculum with aligned assessment, and more! The AET system includes complete educational resource sections for students, teachers, and classroom resources. These resources use short PDF guides, online pre-formatted quizzes (Quizz), and a video platform (AET Video Library) to educate users at all levels. Improve the educational model in CTE programs. Please reach out to info@theaet.com for additional information or questions about how to get started.
