

Master License and Service Agreement

This Master License and Service Agreement (“Agreement” or “MLSA”) is made and entered into by and between Code.org (“Vendor”), having its principal offices at 801 Fifth Ave, Suite 2100, Seattle WA 98104, and the **Board of Cooperative Educational Services for the First Supervisory District, Erie County** (“Customer”), having its principal offices at 355 Harlem Road, West Seneca, NY 14224. Vendor and Customer are sometimes referred to herein, individually, as a “Party,” and collectively, as the “Parties.”

Boards of Cooperative Educational Services (“BOCES”), including Customer, are municipal corporations organized and existing under Section 1950 of the New York Education Law, and are authorized to provide cooperative educational services to school districts in New York State pursuant to cooperative educational service agreements (“CoSers”) approved by the New York State Education Department.

Regional Information Centers (“RICs”), organized and administratively aligned under a BOCES, provide shared technology and other educational support services on a regional basis to its BOCES’ component school districts, and to other BOCES and school districts located within the RIC’s respective region.

Cooperative educational services provided by a BOCES (by the BOCES itself, or if applicable, its respective RIC) include shared computer services, software, and technical training and support that are provided to school districts that enter into applicable CoSers.

Customer is authorized to issue requests for proposals, award and enter into contracts for instructional software applications that can be made available to schools and school districts as part of applicable approved CoSers, on behalf of itself and other BOCES across New York State that participate in a statewide Instructional Technology Contract Consortium (“NYSITCC”). With regards to the free instructional products outlined below, the NYSITCC members can hold the Opt in document for private and charter schools within their boundaries, as well as their component districts. Through Customer’s process, Code.org has been identified and accepted by Customer as a provider of an open source curriculum and platform for K-12 computer science education, as more fully described herein (the “Product(s)").

Customer and several other BOCES throughout New York State have expressed an interest in offering coverage to schools for Education Law 2D in reference to the free Product(s) outlined above. Customer wishes to make the free Product(s) available to schools in NY state through an Opt In process. Accordingly, the Parties have entered into this Agreement to set forth the terms upon which the Product(s) will be made available by Customer to itself and to other BOCES, private schools, charter schools and school districts.

Vendor further grants to each individual school district that contracts for the Product(s) with a BOCES through the NYSITCC by purchasing CoSer 6360 Instructional Technology Service and provides professional development by purchasing CoSer 6368 Model Schools, a non-assignable, non-transferable and non-exclusive license to utilize the Product(s) pursuant to the terms and conditions set forth herein. Nothing herein shall act to transfer any interest in the Product(s) to any Licensee, and title to and ownership of the Product(s) shall at all times remain with the Vendor.

3.2 Vendor may terminate the license granted to a Licensee under this Agreement if the Licensee fails to comply with any terms and conditions of this Agreement that are specifically applicable to that entity as a Licensee.

3.3 Vendor warrants that it has full power and authority to grant the rights herein described. Vendor’s obligation and liability under this Section 3 shall be to obtain any authorization necessary to make effective the grant of license to Licensees to use the

Disclosures of Confidential Information that are required to be disclosed by law or legal process shall not be considered a breach of this Agreement as long as the recipient notifies the disclosing Party, provides it with an opportunity to object and uses reasonable efforts (at the expense of the disclosing Party) to cooperate with the disclosing Party in limiting disclosure to the extent allowed by law.

4.6 Vendor Obligations Under NYS Education Law 2-d. For Student Data, or Teacher and Principal Data, as such terms are defined in New York Education Law Section 2-d, Vendor shall comply with all terms, conditions and obligations as set forth in the Data Sharing and Confidentiality Agreement, Exhibit D, incorporated into this Agreement. SUPPLEMENTAL INFORMATION

ABOUT THE MASTER LICENSE AND SERVICE AGREEMENT

BETWEEN

ERIE 1 BOCES AND CODE.ORG

Erie 1 BOCES has entered into a Master License and Service Agreement (“MLSA”) with Code.org which governs the availability to Participating Educational Agencies of the following Product(s): The Code.org online curriculum and learning platform for students to learn coding and computer science.

Pursuant to the MLSA, Participating Educational Agencies may provide to Vendor, and Vendor will receive, personally identifiable information about students, or teachers and principals, that is protected by Section 2-d of the New York State Education Law (“Protected Data”).

Exclusive Purpose for which Protected Data will be Used: The exclusive purpose for which Vendor is being provided access to Protected Data is to provide Participating Educational Agencies with the functionality of the Product(s) listed above. Vendor agrees that it will not use the Protected Data for any other purposes not explicitly authorized in the MLSA. Protected Data received by Vendor, or any of Vendor’s subcontractors, assignees, or other authorized agents, will not be sold, or released or used for any commercial or marketing purposes.

Oversight of Subcontractors: In the event that Vendor engages subcontractors, assignees, or other authorized agents to perform one or more of its obligations under the MLSA (including any hosting service provider), it will require those to whom it discloses Protected Data to execute legally binding agreements to comply with data security and privacy standards equivalent to, consistent with, and no less protective than, those required of Vendor under the MLSA and applicable state and federal law. Vendor will ensure that such subcontractors, assignees, or other authorized agents abide by the provisions of these agreements by periodically updating and assessing compliance with those agreements.

Duration of MLSA and Protected Data Upon Expiration:

The MLSA commences on July 1, 2024 and expires on June 30, 2027.

Upon expiration of the MLSA without renewal, or upon termination of the MLSA prior to expiration, Vendor will securely delete or otherwise destroy any and all Protected Data remaining in the possession of Vendor or its assignees or subcontractors or other authorized persons or entities to whom it has disclosed Protected Data upon the written request of the Erie 1 BOCES and/or any Participating Educational Agency. If no written request is received, Vendor shall dispose of or delete Protected Data at the earliest of (a) when it is no longer needed for the purpose for which it was obtained or (b) as required by applicable law. Nothing in the Agreement authorizes Vendor to maintain Protected Data obtained under the Agreement beyond the time period reasonably needed to complete the disposition, unless a student, parent or legal guardian of a student chooses to establish and maintain a personal login with Vendor to retain student generated content in their Code.org account for use outside of school. Disposition shall include (1) the shredding of any hard copies of any personally identifiable information contained in Protected Data; (2) erasing any personally identifiable information contained in Protected Data; or (3) otherwise modifying the personally identifiable information contained in Protected Data to make it unreadable or indecipherable or de-identified. For clarity, the duty to dispose of Protected Data shall not extend to data that has been de-identified. If requested by Erie 1 BOCES and/or any Participating Educational Agency, Vendor will assist a Participating Educational Agency in exporting all Protected Data previously received back to the Participating Educational Agency for its own use, prior to deletion, in such formats as may be reasonably requested by the Participating Educational Agency.

In the event the Master Agreement is assigned to a successor Vendor (to the extent authorized by the Master Agreement), the Vendor will cooperate with Erie 1 BOCES as necessary to transition Protected Data to the successor Vendor prior to deletion.

Except as set forth herein, upon expiration of the Master Agreement without renewal, or upon termination of the Master Agreement prior to expiration, neither Vendor nor any of its subcontractors or other authorized persons or entities to whom it has disclosed Protected Data will retain any Protected Data, copies, summaries or extracts of the Protected Data, or any de-identified Protected Data, on any storage medium whatsoever. Upon request, Vendor and/or its subcontractors or other authorized persons or entities to whom it has disclosed Protected Data, as applicable, will provide Erie 1 BOCES with a certification from an appropriate officer that these requirements have been satisfied in full.

Challenging Accuracy of Protected Data: Parents or eligible students can challenge the accuracy of any Protected Data provided by a Participating Educational Agency to Vendor, by contacting the student's district of residence regarding procedures for requesting amendment of education records under the Family Educational Rights and Privacy Act (FERPA). Teachers or principals may be able to challenge the accuracy of APPR data provided to Vendor by following the appeal process in their employing school district's applicable APPR Plan.

Data Storage and Security Protections: Any Protected Data Vendor receives will be stored on systems maintained by Vendor, or by a subcontractor under the direct control of Vendor, in a secure data center facility located within the United States. The measures that Vendor will take to protect Protected Data include adoption of technologies, safeguards and practices that align with the NIST Cybersecurity Framework and industry best practices including, but not necessarily limited to, disk encryption, file encryption, firewalls, and password protection.

Encryption of Protected Data: Vendor (or, if applicable, its subcontractors) will protect Protected Data in its custody from unauthorized disclosure while in motion or at rest, using a technology or methodology specified by the secretary of the U.S. Department of HHS in guidance issued under Section 13402(H)(2) of P.L. 111-5.
