STANDARD CLAUSES

ARTICLE I: PURPOSE AND SCOPE

1.1 Purpose of DPA.

The purpose of this DPA is to describe the duties and responsibilities to protect Student Data including compliance with all applicable federal and state privacy laws, rules, and regulations, all as may be amended from time to time. In performing the Services, the Provider shall be considered a School Official with a legitimate educational interest, and performing Services otherwise provided by the LEA. With respect to its use and maintenance of Student Data, Provider shall be under the direct control and supervision of the LEA as set forth in this DPA and the Service Agreement.

1.2 Description of Products and Services.

A description of all products and services covered by the Agreement, and information specific to this DPA, are listed in Exhibit "A". If a Provider needs to update any information on Exhibit "A" (such as updating with new provided services), they may do so by completing the Addendum template provided by the A4L Community and sending a copy to the LEA.

Provider may add or delete products or services subject to this DPA under the following circumstances:

1. Deleted products or services: The products or services have been discontinued and are no longer available from the Provider.
2. Added products or services: The added products or services are either:
 - a. a direct replacement, or substantially equivalent to the original products or services listed in the DPA, or
 - b. the added products or services result in enriched new or enhanced capabilities, new modules, technology advancements and or service categories relating to the listed products or services that Provider did not have at the time the DPA was signed.

If an added product or service requires additional Data Elements, Provider must complete the relevant portion of the Addendum template to update Exhibit "B".

Provider may not make any change to Exhibit "A" via an Addendum, except adding or deleting products or services. LEA is under no obligation to acquire added products or services, and has no ability under the DPA to prevent deletion of products or services. Subject to the limitations in this section, an Addendum is automatically incorporated into this DPA when LEA is notified by Provider, in accordance with the notification provisions of this DPA, of the Addendum's existence and contents.

1.3 Student Data to Be Provided.

In order to perform the services, the Provider shall process Student Data as identified by the Provider in the Schedule of Data, attached hereto as Exhibit "B". Student Data may be provided by the LEA or created by students, as set forth fully in the definition of Student Data in Exhibit "C". If a Provider needs to update any information on Exhibit "B", they may do so by completing the Addendum template provided by the A4L Community and sending a copy to the LEA.

Provider may delete data elements from Exhibit "B" if they are no longer used by the Provider.

Provider must add data elements to Exhibit “B”, when a material change has occurred, regardless of whether the added data elements are either one of the following:

1. used to better deliver the original products or services listed in the DPA, or
2. used to deliver added products or services that result in new or enhanced capabilities, new modules, technology advancements and or service categories relating to the listed products or services that Provider did not have at the time the DPA was signed. Such new products or services must be designated in the Addendum template as changes to Exhibit “A”.

The Provider must notify the LEA, in accordance with the notification provisions of this DPA, of the existence and contents of an Addendum modifying Exhibit “B”. The LEA will have thirty (30) days from receipt to object to the Addendum. If no written objection is received it will become incorporated into the DPA between the parties.

1.4 DPA Definitions.

Capitalized terms used in this DPA shall have the meanings set forth in Exhibit “C”. With respect to the treatment of Student Data, in the event of a conflict, definitions used in this DPA shall prevail over terms used in any other writing, including, but not limited to, the Service Agreement.

ARTICLE II: DATA OWNERSHIP AND AUTHORIZED ACCESS

2.1 Student Data Property of LEA.

As between LEA and Provider, all Student Data processed by the Provider, or created by students (as set forth fully in the definition of Student Data in Exhibit “C”), pursuant to the Agreement is and will continue to be the property of and under the control of the LEA. The Provider further acknowledges and agrees that all copies of such Student Data processed by the Provider, including any modifications or additions or any portion thereof from any source, are also subject to the provisions of this DPA in the same manner as the original Student Data. The Parties agree that as between them, all rights, including all intellectual property rights in and to Student Data contemplated per the Service Agreement, shall remain the exclusive property of the LEA.

2.2 Parent, Legal Guardian and Student Access.

The LEA shall establish reasonable procedures by which a parent, legal guardian, or eligible student (as defined in FERPA) may review Student Data and request deletion or modification, and request delivery of a copy of the Student Data. In support of this, the Provider shall establish reasonable procedures by which the LEA may access, and correct if necessary, Education Records and/or Student Data, and make a copy of the data available to the LEA or (at the LEA’s direction) to the parent, legal guardian or eligible student directly. If the LEA is not able to review or update the Student Data itself, Provider shall respond in a reasonably timely manner (and no later than thirty (30) days from the date of the request or pursuant to the time frame required under state law for an LEA to respond to a parent, legal guardian or student, whichever is sooner) to the LEA’s request for Student Data held by the Provider to view or correct as necessary.

In the event that a parent or legal guardian of a student or eligible student contacts the Provider to correct, delete, review or request delivery of a copy of any of the Student Data collected by or generated through the Services, the Provider shall refer that person to the LEA, who will follow the necessary and proper procedures regarding

the requested information. In the event that any person other than those listed contacts the Provider about any Student Data, the Provider shall refer that person to the LEA, except as provided in Section 4.4.

- 2.2.1 This NDPA does not impede the ability of students to download, export, or otherwise save or maintain their own Student Generated Content directly from Provider or for Provider to provide a mechanism for such download, export, transfer or saving to students, or the student's parent or legal guardian. Nor does it impede the ability of Providers to offer LEAs features to allow such ability.
- 2.2.2 In the event that Student Generated Content is transferred to the control of the student, parent or legal guardian, the copy of such Student Generated Content that is in the control of such person is no longer considered Student Data.

2.3 Subprocessors.

Provider shall enter into a Subprocessor Agreement with all Subprocessors performing functions for the Provider in order for the Provider to provide the Services pursuant to the Service Agreement, whereby the Subprocessors agree to protect Student Data in a manner no less stringent than the terms of this DPA. Every Subprocessor Agreement must provide that the Subprocessor will not Sell the Student Data. The terms of a Subprocessor Agreement shall not be materially modified by the Subprocessor unless notice is provided to the Provider.

ARTICLE III: DUTIES OF LEA

3.1 Provide Data in Compliance with Applicable Laws.

LEA shall use the Services and provide Student Data in compliance with all applicable federal and state privacy laws, rules, and regulations, all as may be amended from time to time.

3.2 Annual Notification of Rights.

3.3 Reasonable Precautions.

LEA shall employ administrative, physical, and technical safeguards designed to protect usernames, passwords, and any other means of gaining access to the Services and/or hosted Student Data from unauthorized access, disclosure, or acquisition by an unauthorized person.

3.4 Unauthorized Access Notification and Assistance.

LEA shall notify Provider within seventy-two (72) hours of any confirmed Data Breach to the Services, LEA's account or any Student Data that poses a privacy or security risk. If requested by Provider, LEA will provide reasonable assistance to Provider in any efforts by Provider to investigate and respond to such Data Breach.

ARTICLE IV: DUTIES OF PROVIDER

4.1 Privacy and Security Compliance.

The Provider shall comply with all laws and regulations applicable to Provider's protection of Student Data privacy and security, and at the direction of the LEA shall cooperate with any state or federal government initiated audit of the LEA's use of the Services.

4.2 Authorized Use.

The Student Data processed pursuant to the Services shall be used by the Provider for no purpose other than performing the Services outlined in Exhibit "A", or as instructed by the LEA.

4.3 Provider Employee Obligation.

Provider shall require all of Provider's employees who have access to Student Data to comply with all applicable provisions of this DPA with respect to the Student Data shared under the Service Agreement. Provider agrees to require and maintain an appropriate confidentiality agreement from each employee with access to Student Data pursuant to the Service Agreement.

4.4 No Disclosure.

Provider acknowledges and agrees that it shall not sell or disclose any Student Data or any portion thereof, including without limitation, user content or other non-public information and/or personally identifiable information contained in the Student Data.

4.4.1 Exceptions to No Disclosure.

- 4.4.1.1 This prohibition against disclosure will not apply to Student Data where disclosure is directed or permitted by the LEA or this DPA.
- 4.4.1.2 The provision to not sell Student Data shall not apply to a Change of Control.
- 4.4.1.3 This prohibition against disclosure shall not apply to Student Data disclosed pursuant to a judicial order or lawfully issued subpoena or warrant.
- 4.4.1.4 This prohibition against disclosure shall not apply to Student Data disclosed to Subprocessors performing Services on behalf of the Provider pursuant to this DPA.
- 4.4.1.5 Should law enforcement or other government entities ("Requesting Party(ies)") provide a judicial order or lawfully issued subpoena or warrant to the Provider with a request for Student Data held by the Provider pursuant to the Services, the Provider shall notify the LEA in advance of a compelled disclosure to the Requesting Party.
- 4.4.1.6 Notification under 4.4.1.5 is not required if the judicial order or lawfully issued subpoena or warrant states not to inform the LEA of the request.
- 4.4.1.7 Should the LEA be presented with a judicial order or lawfully issued subpoena or warrant to disclose Student Generated Content or other Student Data, the Provider shall cooperate with the LEA in delivering such data.

- 4.4.1.8 This prohibition against disclosure shall not apply to LEA-authorized users of the Services, which may include parents and legal guardians.
- 4.4.1.9 This prohibition against disclosure shall not apply to protect the safety of users or others, if and only if, an LEA employee who has specifically been authorized to declare a health or safety emergency has done so and all requirements under 34 CFR §§ 99.31(a)(10) and 99.36 have been fulfilled by the LEA.
- 4.4.1.10 This prohibition against disclosure shall not apply to protect the integrity or security of the Service, where such disclosure is made to a Subprocessor engaged by Provider for the specific purpose of investigating a potential Data Breach as set forth in 5.4.

4.5 De-Identified Data

Provider agrees not to attempt to re-identify De-Identified Student Data without the written direction of the LEA. De-Identified Student Data may be used by the Provider for those purposes allowed under applicable laws, for the purposes allowed for the processing of Student Data under this DPA, as well as the following purposes: (1) assisting the LEA or other governmental agencies in conducting research and other studies; (2) research, development, and improvement of the Provider's educational sites, Services, or applications, and to demonstrate the effectiveness of the Services; and (3) for adaptive learning purpose and for customized student learning. Provider's use of De-Identified Student Data shall survive termination of this DPA or any request by LEA to return or dispose of Student Data. Except for Subprocessors, Provider agrees not to transfer De-identified Student Data to any third party unless the transfer is expressly directed or permitted by the LEA or this DPA. Such Subprocessors must be subject to equivalent terms of the DPA including this one. Prior to publishing any document that names the LEA, the Provider shall obtain the LEA's written approval of the manner in which De-Identified Student Data is presented. If Provider chooses to create De-Identified Data, its process must comply with either NIST de-identification standards or US Department of Education guidance on de-identification.

4.6 Disposition of Data.

Upon written request from the LEA, Provider shall dispose of or provide a mechanism for the LEA to transfer Student Data obtained under the Service Agreement, within sixty (60) days of the date of said request and according to a schedule and procedure as the Parties may reasonably agree.

If the Provider has a standard retention and destruction schedule, that schedule shall apply to Student Data as long as this DPA is active. The Provider's practice relating to retention and disposition of Student Data shall be provided to the LEA upon request.

At the termination of this DPA, the Provider shall, unless directed otherwise by the LEA, dispose of, or delete Student Data obtained by the Provider under the Agreement within sixty (60) days of termination (unless otherwise required by law). If the Agreement has lapsed or is not terminated, the Student Data shall be deleted when directed or permitted by the LEA, according to Provider's standard destruction schedule, or as otherwise required by law. The LEA may provide the Provider with special instructions for the disposition of the Student Data, by transmitting to Provider Exhibit "D", attached hereto. The duty of the Provider to dispose of or delete Student Data shall not extend to De-Identified Data or to Student-Generated Content that has been transferred or kept pursuant to Section 2.2.2.

4.7 Advertising Limits.

Provider is prohibited from using, disclosing, or selling Student Data to (a) inform, influence, or enable Targeted Advertising; (b) develop a profile of a student, family member/guardian or group, for any purpose other than providing the Service to LEA; or (c) for any commercial purpose other than to provide the Service to the LEA, or as authorized by the LEA or the parent/guardian. Targeted Advertising is strictly prohibited. However, this section does not prohibit Provider from using Student Data (i) for adaptive learning or customized student learning (including generating personalized learning recommendations); or (ii) to make product recommendations to account holders that are not considered Targeted Advertising (this exception does not apply where the Provider is relying on the LEA to provide consent on behalf of the parent under COPPA); or (iii) to notify account holders about new education product updates, features, or Services that are not considered Targeted Advertising or from otherwise using Student Data as permitted in this DPA and its accompanying exhibits.

Before making product recommendations under section (ii) above, Provider must disclose the existence of those recommendations to LEA in writing, in sufficient detail that LEA can fulfill any obligations under applicable law (e.g. PPRA).

ARTICLE V: DATA SECURITY AND BREACH PROVISIONS

5.1 Data Storage.

If Student Data is stored outside the United States, Provider will provide a list of Countries where data is stored, in Exhibit "B".

5.2 Security Audits.

Provider will conduct a security audit or assessment no less than once per year, and upon a Data Breach. Upon 10 days' notice and execution of confidentiality agreement, Provider will provide the LEA with a copy of the audit report, subject to reasonable and appropriate redaction.

5.3 Data Security.

The Provider agrees to utilize administrative, physical, and technical safeguards designed to protect Student Data from unauthorized access, disclosure, acquisition, destruction, use, or modification. The Provider shall adhere to any applicable law relating to data security of Student Data. The Provider shall implement an adequate Cybersecurity Framework that incorporates one or more of the nationally or internationally recognized standards set forth in Exhibit "F". Additionally, Provider may choose to further detail its security programs and measures in Exhibit "F". Provider shall provide, in the Preamble to the DPA, contact information of an employee who LEA may contact if there are any data security concerns or questions.

5.4 Data Breach.

In the event that Provider confirms a Data Breach, the Provider shall provide notification to LEA within seventy-two (72) hours of confirmation of the Data Breach, unless notification within these time limits would disrupt investigation of the Data Breach by law enforcement. In such an event, notification shall be made within a reasonable time after the Data Breach. Provider shall follow the following process:

- (1) The Data Breach notification described above shall include, at a minimum, the following information to the extent known by the Provider and as it becomes available:
 - (a) The name and contact information of the Provider subject to this section,
 - (b) the date of the notice,
 - (c) the date of the Data Breach, the estimated date of the Data Breach, or the date range within which the Data Breach occurred,
 - (d) Whether the notification was delayed as a result of a law enforcement investigation, if legally permissible to share that information,
 - (e) A general description of the Data Breach, if that information is possible to determine at the time the notice is provided,
 - (f) A description of the Student Data reasonably believed to have been the subject of the Data Breach; and
 - (g) Identification of impacted individuals.
- (2) Provider agrees to adhere to all applicable federal and state laws with respect to a Data Breach related to the Student Data, including any required responsibilities and procedures for notification and mitigation of any such Data Breach.
- (3) Provider further acknowledges and agrees to have a written Data Breach response plan that is consistent with applicable industry standards and federal and state law for responding to a Data Breach, involving Student Data and agrees to provide LEA, upon reasonable written request, with a summary of said written Data Breach response plan.
- (4) LEA shall provide notice and facts surrounding the Data Breach to the affected students, parents, or guardians.
- (5) In the event of a Data Breach originating from LEA's use of the Service or otherwise a result of LEA's actions or inactions, Provider shall reasonably cooperate with LEA to the extent necessary to expeditiously secure Student Data and may request costs incurred as a result of such Data Breach.

CONTRACT TERMS

Term and Termination. In the event that either Party seeks to terminate this DPA, they may do so by written notice if the Service Agreement has lapsed or has been terminated. Either party may terminate this DPA and any Service Agreement or contract if the other party breaches any terms of this DPA. This DPA shall stay in effect for as long as the Provider retains the Student Data, as set forth in section Article IV, Section 4.6. In the case of a “Change of Control” the LEA has the authority to terminate the DPA if it reasonably believes that the successor cannot uphold the terms and conditions herein or having a contract with the successor would violate the LEA’s policies or state or federal law.

Data Disposition on Service Agreement Termination. If the Service Agreement is terminated, the Provider shall dispose of all of LEA’s Student Data pursuant to Article IV, Section 4.6 of the Standard Clauses.

Notices. All notices or other communication required or permitted to be given hereunder must be made in writing and may be given via e-mail transmission, or first-class mail, or mutually agreed upon method sent to the designated representatives documented in the Preamble.

Priority of Agreements. This DPA shall govern the treatment of Student Data in order to comply with the privacy protections, including those found in FERPA and all applicable privacy statutes identified in this DPA. With respect to the treatment of Student Data only, in the event there is conflict between the terms of the DPA and the Service Agreement, Terms of Service, Privacy Policies, or with any other bid/RFP, license agreement, or writing, the terms of this DPA shall apply and take precedence. In the event of a conflict between Exhibit “H”, the SDPC Standard Clauses, and/or the Supplemental State Terms in Exhibit “G”, Exhibit “H” will control, followed by Exhibit “G”. Except as described in this paragraph herein, all other provisions of the Service Agreement shall remain in effect.

Entire Agreement. This DPA and the Service Agreement (“the Agreement”) constitute the entire agreement of the Parties relating to the subject matter hereof and supersedes all prior communications, representations, or agreements, oral or written, by the Parties relating thereto. This DPA may be amended and the observance of any provision of this DPA may be waived (either generally or in any particular instance and either retroactively or prospectively) only with the signed written consent of both Parties.

Severability. Any provision of this DPA that is prohibited or unenforceable in any jurisdiction shall, as to such jurisdiction, be ineffective to the extent of such prohibition or unenforceability without invalidating the remaining provisions of this DPA, and any such prohibition or unenforceability in any jurisdiction shall not invalidate or render unenforceable such provision in any other jurisdiction. Notwithstanding the foregoing, if such provision could be more narrowly drawn so as not to be prohibited or unenforceable in such jurisdiction while, at the same time, maintaining the intent of the Parties, it shall, as to such jurisdiction, be so narrowly drawn without invalidating the remaining provisions of this DPA or affecting the validity or enforceability of such provision in any other jurisdiction.

Governing Law; Venue and Jurisdiction. This DPA will be governed by and construed in accordance with the laws of the state of the LEA, without regard to conflicts of law principles. Each party consents and submits to the sole and exclusive jurisdiction to the state and federal courts for the county of the LEA for any dispute arising out of or relating to this DPA or the transactions contemplated hereby.

Successors Bound. This DPA is and shall be binding upon the respective successors in interest to Provider in the event of a Change of Control. In the event of a Change of Control, the Provider shall provide written notice to the LEA no later than sixty (60) days after the closing date of such Change of Control. Such notice shall include

a written, signed assurance that the successor will assume the obligations of the DPA and any obligations with respect to Student Data within the Service Agreement.

Authority. Each signatory confirms they are authorized to bind their institution to this DPA in its entirety.

Waiver. No delay or omission by either party to exercise any right here under shall be construed as a waiver of any such right and both parties reserve the right to exercise any such right from time to time, as often as may be deemed expedient.

EXHIBIT A: PRODUCTS AND SERVICES

This DPA covers access to and use of Liminex, Inc. dba GoGuardian and Pear Deck Learning, and acting on behalf of itself and its Affiliates' existing Services that collect, process, or transmit Student Data, as identified below:

GoGuardian Admin	GoGuardian Admin is an award-winning filtering and device management solution for K-12 schools. GoGuardian Admin was built to provide a safer and more productive online experience for all. GoGuardian Admin enables users to customize filtering policies to any situation and manage them from a unified interface.
GoGuardian Teacher	GoGuardian Teacher is a classroom management solution, helping teachers guide their students while gaining back valuable instructional time. This solution provides teachers with a way to view student online activity during their class sessions. Teachers can support and directly connect with their students. GoGuardian Teacher creates efficiency in instructional workflows and provides a variety of ways to deliver instruction. It is easy to use and it supports different learning environments.
GoGuardian Beacon	Beacon is a machine-learning solution that notifies pre-determined school staff of instances where students may be at risk of suicide, self-harm, or potential harm to others through Beacon-generated alerts. Beacon was designed to help school staff proactively identify at-risk behavior and quickly facilitate a response. Beacon works across content that students create, search for, and consume online, including search engines, chat, online docs, social media, email, web apps, and more. Beacon alerts provide robust context around an event, helping schools and districts determine what caused an alert and how to take action. GoGuardian also offers Beacon 24/7 which provides customers the option to have a dedicated team of safety specialists review and escalate customers' Beacon-generated active planning alerts 24/7 to pre-determined school staff. These specialists operate within the U.S. and are specially trained to evaluate alerts. Please note that there are Supplemental Terms for GoGuardian Beacon 24/7 (https://www.goguardian.com/policies/beacon-24-7-terms) (for Beacon 24/7 services that schools may elect to obtain from GoGuardian).
GoGuardian DNS	GoGuardian DNS is a product that allows schools and districts to have another method of deploying GoGuardian Admin. DNS stands for 'Domain Name Server', a system that ties domain names to IP addresses. GoGuardian DNS is an inline web filtering (network-level filter) and is designed to support all devices connected to the network. GoGuardian DNS is device agnostic, so as long as a school's users are on school premises and connected to the school network, they're protected by GoGuardian DNS. GoGuardian DNS filters traffic based on the public IP network that a given user is connected to. Unlike GoGuardian Admin, GoGuardian DNS does not require the extensions to be present for a user and does not require any software installation.
GoGuardian Fleet	GoGuardian Fleet is a device management solution that allows schools and districts to simplify and structure their workflow for managing Chromebooks. GoGuardian Fleet helps schools and districts keep track of their device inventory, assign and un-assign devices, and sync with Google Admin Console.

GoGuardian Parent App	GoGuardian Parent is an application available on devices running iOS and Android designed to enable IT Administrators to share managed user history collected via GoGuardian Admin and GoGuardian Teacher with verified parents and guardians. Parent email address and association with a student are collected for authentication purposes; the email address entered should match the email address on file with the school's or district's administration. The Parent App enables parents to pause internet, block specific websites, and schedule internet availability on managed devices during out-of-school hours. Parents may not override restrictions set by district administrators, but may add restrictions.
Pear Deck Slides	Pear Deck Slides is our flagship product that converts slide-type content from a number of sources (Google Slides, Powerpoint, internal templates, into an interactive presentation.
Pear Deck Vocabulary	Pear Deck Vocabulary was designed to transform the way students engage with vocabulary. The teacher creates a file with the vocabulary words and definitions the students need to learn. Students then play the Flashcard Factory game, pairing up and working together to create flashcards with illustrations and example sentences. The app is free to use and works with Google Apps for Education.
Pear Assessment	Pear Assessment is an online assessment system that provides instant feedback for teachers, administrators, and students that serves as both a formative assessment tool and a common benchmark system. Pear Assessment mimics the look and feel of state tests, which helps with preparedness and performance, and questions tie to learning standards, which helps with tracking standards mastery. Aside from state test prep, teachers may use Pear Assessment for formatives, homework, bell ringers, tests, pre-tests, practice work, lessons, and more. Educators can assign content from the Pear Assessment content libraries, can make assessments from scratch, or can mix and match. With over 50 question types (multiple choice, drag and drop, graphing, label an image, etc) teachers can deliver robust and engaging assessments that automatically grade, saving teachers time and giving immediate feedback, reports, and insights.
Pear Deck Tutor	Pear Deck Tutor is an online platform designed to provide individualized academic support to students through on-demand tutoring. Teachers may use Pear Deck Tutor to supplement their instruction by helping to connect students who may need differentiated support with on-demand live, screened academic tutors. Teachers may also use Pear Deck Tutor's Writing Lab as a resource to streamline the review and editing process for written student assignments. Through the Writing Lab, students receive asynchronous academic writing support on demand 24/7 from thousands of verified academic writing experts.
Pear Practice	Pear Practice is a gamified digital learning experience designed to boost collaboration and independent practice, helping you create an adaptable, equitable, and rewarding practice experience for all students. Teamwork is at the heart of your K-12 classroom, so Pear Practice gives all students a chance to succeed — not just the fastest fingers.

Contextual Advertising: Contextual advertising is the delivery of advertisements based upon a current visit to a Web page or a single search query, without the collection and retention of data about the consumer's online activities over time.

De-Identified Data: Records and information are considered to be De-Identified when all personally identifiable information has been removed or obscured, such that the remaining information does not reasonably identify a specific student, including, but not limited to, any information that, alone or in combination is linkable to a specific student.

Data Breach: An unauthorized release, access to, disclosure or acquisition of Student Data that compromises the security, confidentiality or integrity of the Student Data maintained by the Provider in violation of applicable state or federal law.

Educational Records: Educational Records shall have the meaning set forth under FERPA 20 U.S. C. 12 32 g(a)(5)(A). For additional context see also the 'Student Data' definition.

LEA: For the purpose of this DPA, the LEA is the educational entity that is a Party to this Agreement. An LEA can be a state agency, an educational service agency, a charter school or school system or a private school or school system, in addition to the federal definition of Local Education Agency (LEA).

Metadata: Means information that provides meaning and context to other data being collected including, but not limited to date and time records and purpose of creation. Metadata that have been stripped of all direct and indirect identifiers are not considered Personally Identifiable Information or Student Data.

Originating LEA: An educational entity otherwise meeting the definition of LEA that originally executes the DPA in its entirety (including the marked checkbox enabling Exhibit "E") with the Provider.

Service Agreement: Refers to the quote, corresponding contract, purchase order or terms of service and/or terms of use.

Student Data: Student Data includes any data, whether gathered, created or inferred by Provider or provided by LEA or its users, students, or students' parents/guardians, for a school purpose, that is descriptive of the student including, but not limited to, information in the student's Educational Record, persistent unique identifiers, or any other information or identification number that would provide information about a specific student. Student Data includes Metadata that has not been stripped of all direct and indirect identifiers. Student Data further includes "Personally Identifiable Information (PII)," as defined in 34 C.F.R. § 99.3 and as defined under any applicable state law. Student Data shall constitute Education Records for the purposes of this DPA, and for the purposes of federal, state, and local laws and regulations. Student Data as specified in Exhibit "B" is confirmed

Student Generated Content: The term "Student Generated Content" means materials or content created by a student in the services including, but not limited to, essays, research reports, portfolios, creative writing, music or other audio files, photographs, videos, and account information that enables ongoing ownership of student content. "Student Generated Content" does not include student responses to a standardized assessment where student possession and control would jeopardize the validity and reliability of that assessment.

Subprocessor: For the purposes of this DPA, the term "Subprocessor" (sometimes referred to as the "Subcontractor") means a party other than LEA or Provider, who Provider uses for data collection, analytics, storage, or other service to operate and/or improve its service, and who has access to or storage of Student Data, including security, storage, analytics, and other processing activities necessary to perform a Provider business purpose.
