Notwithstanding the foregoing, if such provision could be more narrowly drawn so as not to be prohibited or unenforceable in such jurisdiction while, at the same time, maintaining the intent of the Parties, it shall, as to such jurisdiction, be so narrowly drawn without invalidating the remaining provisions of this DPA or affecting the validity or enforceability of such provision in any other jurisdiction.
6. **Governing Law; Venue and Jurisdiction.** THIS DPA WILL BE GOVERNED BY AND CONSTRUED IN ACCORDANCE WITH THE LAWS OF THE STATE OF THE LEA, WITHOUT REGARD TO CONFLICTS OF LAW PRINCIPLES. all or substantially all of the assets of such business. In the event that the Provider sells, merges, or otherwise disposes of its business to a successor during the term of this DPA, the Provider shall provide written notice to the LEA no later than sixty (60) days after the closing date of sale, merger, or disposal. Such notice shall include a written, signed assurance that the successor will assume the obligations of the DPA and any obligations with respect to Student Data within the Service Agreement. The LEA has the authority to terminate the DPA if it disapproves of the successor to whom the Provider is selling, merging, or otherwise disposing of its business.

8. **Authority.** Each party represents that it is authorized to bind to the terms of this DPA, including confidentiality and destruction of Student Data and any portion thereof contained therein, all related or associated institutions, individuals, employees or contractors who may have access to the Student Data and/or any portion thereof.

Provider shall use industry standard security measures including encryption protocols that comply with New York law and regulations to preserve and protect Student Data and APPR Data. Provider must Encrypt Student Data and APPR Data at rest and in transit in accordance with applicable New York laws and regulations.
4. Provider represents that their Data Privacy and Security Plan can be found at the URL link listed in Exhibit K and is incorporated into this DPA. Provider warrants that its Data Security and Privacy Plan, at a minimum: (a) implements all applicable state, federal and local data privacy and security requirements; (b) has operational technical safeguards and controls in place to protect PII that it will receive under the service agreement; (c) complies with the LEA's parents bill of rights for data privacy and security; (d) requires training of all providers' employees, assignees and subprocessors who have Access to student data or APPR data; (e) ensures subprocessors are required to protect PII received under this service agreement; (f) specifies how data security and privacy incidents that implicate PII will be managed and ensuring prompt notification to the LEA, and (g) addresses Student Data return, deletion and destruction.
5. In addition to the requirements described in Paragraph 3 above, the Provider's Data Security and Privacy Plan shall be deemed to incorporate the LEA's Parents Bill of Rights for Data Security and Privacy, as found at the URL link identified in Exhibit J. The Subscribing LEA will provide its Parents Bill of Rights for Data Security and Privacy to the Provider upon execution of Exhibit "E".

6. All references in the DPA to “Student Data” shall be amended to include and state, “Student Data and APPR Data.”
7. To amend Article II, Section 5 to add: Provider shall ensure that its subprocessors agree that they do not have any property, licensing or ownership rights or claims to Student Data or APPR data and that they will comply with the LEA’s Data Privacy and Security Policy. Provider shall examine the data privacy and security measures of its Subprocessors. If at any point a Subprocessor fails to materially comply with the requirements of this DPA, Provider shall: (i) notify LEA, (ii) as applicable, remove such Subprocessor’s Access to Student Data and APPR Data; and (iii) as applicable, retrieve all Student Data and APPR Data received or stored by such Subprocessor and/or ensure that Student Data and APPR Data has been securely deleted or securely destroyed in accordance with this DPA. In the event there is an incident in which Student Data and APPR Data held, possessed, or stored by the Subprocessor is compromised, or unlawfully Accessed or disclosed, Provider shall follow the Data Breach reporting requirements set forth in the DPA.

9. To amend Article IV, Section 3 to add: Provider shall ensure that all its employees and subprocessors who have Access to or will receive Student Data and APPR Data will be trained on the federal and state laws governing confidentiality of such Student Data and APPR Data prior to receipt. Provider is prohibited from retaining disclosed Student Data or continuing to Access Student Data beyond the term of the Service Agreement unless such retention is expressly authorized for a prescribed period by the Service Agreement, necessary for purposes of facilitating the transfer of disclosed Student Data to the LEA, or expressly required by law. The confidentiality and data security obligations of Provider under this DPA shall survive any termination of this contract to which this DPA is attached but shall terminate upon Provider’s certifying that it and it’s subprocessors, as applicable: (a) no longer have the ability to Access any Student Data provided to Provider pursuant to the Service Agreement and/or (b) have destroyed all Student Data and APPR Data provided to Provider pursuant to this DPA. The Provider agrees that the timelines for disposition of data will be modified by any assurance of discontinuation, which will control in the case of a conflict.

Upon termination of this DPA, if no written request from the LEA is received, Provider shall dispose of all student data after providing the LEA with ninety (90) days prior notice.

The duty to dispose of student data shall not extend to Student Data that had been de-identified or placed in a separate student account pursuant to section II 3. The LEA may employ a **“Directive for Disposition of Data”** form, a copy of which is attached hereto as **Exhibit “D”**, or, with reasonable notice to the Provider, other form of its choosing. The Provider will cooperate reasonably with the LEA or its designee(s) and any local, state, or federal agency with oversight authority or jurisdiction in connection with any audit or investigation of the Provider and/or delivery of Services to students and/or LEA, and shall provide reasonable Access to the Provider’s facilities, staff, agents and LEA’s Student Data and all records pertaining to the Provider, LEA and delivery of Services to the LEA.

Upon request by the New York State Education Department’s Chief Privacy Officer (NYSED CPO), Provider shall provide the NYSED CPO with copies of its policies and related procedures that pertain to the protection of information. In addition, the NYSED CPO may require Provider to undergo an audit of its privacy and security safeguards, measures, and controls as they pertain to alignment with the requirements of New York State laws and regulations, and alignment with the NIST Cybersecurity Framework. Any audit required by the NYSED CPO must be performed by an independent third party at Provider’s expense and the audit report must be provided to the NYSED CPO. In lieu of being subject to a required audit, Provider may provide the NYSED CPO with an industry standard independent audit report of Provider’s privacy and security practices that was issued no more than twelve months before the date that the NYSED CPO informed Provider that it required Provider to undergo an audit. Failure to reasonably cooperate with any of the requirements in this provision shall be deemed a material breach of the DPA.

To amend the third sentence of Article V. Section 3 (Data Security) to read: The Provider shall implement security practices that are in alignment with the NIST Cybersecurity Framework v1.1 or any update to this Framework that is adopted by the New York State Department of Education.

14. To replace Article V. Section 4 (Data Breach) to state: In the event of a Breach as defined in 8 NYCRR Part 121.1 Provider shall provide notification to LEA within seventy-two (72) hours of confirmation of the incident, unless notification within this time limit would disrupt investigation of the incident by law enforcement. - (4) LEA shall provide notice and facts surrounding the breach to the affected students, parents or guardians. Where a Breach of Student Data and/or APPR Data occurs that is attributable to Provider and/or its Subprocessors, Provider shall pay for or promptly reimburse LEA for the full cost of notification to Parents, Eligible Students, teachers, and/or principals.
- (5) In the event of a breach originating from LEA's use of the Service, Provider shall cooperate with LEA to the extent necessary to expeditiously secure Student Data.
- (6) Provider and its subprocessors will cooperate with the LEA, the NYSED Chief Privacy Officer and law enforcement where necessary, in any investigations into a Breach. Implementing Necessary Requirements

- **Step 1:** Anonymous Alerts is committed to continuously include the state, federal, and local data security and privacy requirements over the life of the agreement. Anonymous Alerts Management and Technology Teams will implement, as an initiating requirement, these state, federal, and local security & privacy requirements. Anonymous Alerts Management and Technology Teams will monitor the changing statutes to ensure we meet what is required for compliance. In order to familiarize our team with the changing requirements, we will seek legal advice on a continuous basis, incorporate required change in our regular planning & guidelines, and our technology development team will be required to all be familiar with the ever-changing flow of required adjustments in this area. The teams will review what has changed and what needs to be adjusted on a regular basis. We will make the necessary changes in a timely manner. Security and users' privacy requirements within the State's and our guidelines are of the utmost importance as to its accuracy, responsiveness, and cooperation.
- **Step 2:** When changes arise, as described above, that require adjustments to our systems, plans, and procedures, we will undergo the necessary steps to adjust our technology and processes to comply. At the same time, these changes will naturally lead to changes in our data privacy plans. Members of our core teams, which include legal, technology/development, planning, and upper management will communicate and collaborate with one another to institute any changes and enhancements for the applicable situations. Our core teams are built to speed up these processes.
- As an ongoing policy, our evergreen procedures include not using the education records of a Client or any personally identifiable student, teacher and/or principal information or data of a Client, for any purpose other than those explicitly authorized.
- To use and maintain reasonable administrative, technical and physical safeguards and practices that are consistent with industry standards and best practices, including but not limited to encryption technology, firewalls and password protection, to protect the security, confidentiality and integrity of personally identifiable student, teacher and/or principal data or information of any Clients while in motion or in the custody of Anonymous Alerts from unauthorized disclosure as prescribed by state, federal, and local laws & regulations.
- Anonymous Alerts maintains its own self-managed data security cloud with only limited authorized users having access in maintaining databases and their access to the personally identifiable information.

- WatchGuard® Enterprise firewalls and systems are constantly monitoring to identify/block any potential unauthorized outside breach attempts on our systems. Our database technology tracks and records login data of every user that accesses his or her account. Each time a user logs into their account, it is logged in our system, along with the IP address of the user and a date/time stamp.
- All information in transit is encrypted using SSL, and other important information, including, but not limited to, passwords and usernames, use AES and RSA encryption. Only authorized users for Anonymous Alerts and the Client will have access to account information. Anonymous Alerts uses 2048-bit encryption.
- We limit internal access to personally identifiable student, teacher and principal data and information of any Client to only those officers, directors, or employees that are determined to need access to such records or data to perform the services set forth in agreements with Clients. We do not disclose any personally identifiable student, teacher or principal data or information of the Clients, directly or indirectly, to any other party, who is not an officer, director, or employee to carry out our obligations under client agreements.

Internal Safeguards

- Only authorized employees of Anonymous Alerts have the ability to access any client accounts. Anonymous Alerts utilizes a backend system console with limited access where information regarding client accounts is stored. This backend console is password protected with its own set of unique login credentials. Authorized employees must sign confidentiality agreements before they are granted this type of access. Authorized employees are not allowed to access any client data off-site, unless it is required for urgent/emergency situations (given the nature of our business as emergency communications, this has to be permitted).

Our company databases (on private networks, not on the public Internet) are only accessible onsite at headquarters, or through remote access to onsite machines. Only data technology teams at Anonymous Alerts are granted access for this level of remote connectivity.

- All accounts are set up with username and password login credentials to access any level of information within client accounts. Clients are securely shared their logins to enhance safety. Each individual user within a client's account has their own unique profile to access so no unpermitted access is provided to the wrong personnel. All login access is layered with Two-Factor Verification via email or text message.
- All data transmitted to Anonymous Alerts from clients is considered sensitive data as client data typically includes some level of PII. Therefore, no types of data are separated as each piece is treated with equal sensitivity requiring the appropriate protections.

Training

- Our core team's personnel are made up of seasoned and experienced professionals that have been with the company for several years. These experienced technicians are required by the company to have routine meetings for further education to be incorporated and used in their core team assignments. Some are group imposed, and some are individualized.
- For new employees, our vetting and onboarding requirements are extremely stringent as to experience, knowledge, know-how, and expertise as it relates to the understanding they must have to handle such specific responsibilities/tasks as they will be performing hereunder. Our company also requires thorough character screening, background checks, and the signing of company confidentiality agreements. All employees involved in these core teams must show a commitment and desire for quality workmanship and success.
- Our training regarding federal and state laws governing the confidentiality of data occurs during required in-person meetings with core teams and in-person orientations with each and every new employee to stress the importance of data confidentiality and PII, particularly in the context of school students. Current employees must participate in check-in meetings to ensure all technologies are up to date to provide this protection. In addition, management will supply documentation found online to employees that cover these subjects.
- Federal and state laws are reviewed on a continuous basis by the company. Authorized personnel, upon their hiring, sign company confidentiality agreements, which include clauses related to the handling/protection of student, teacher and/or principal data, if applicable to their position. Individuals do not receive any level of access to the information until they sign these confidentiality agreements and participate in these initial discussions, instructions, and procedures. Authorized personnel are trained regularly in the handling and protection of confidential student/teacher/principal data.

Incident Response Plan (IRP)

- Our company protocol requires all core teams and their members to precisely abide by the federal and state guidelines.
- Upon discovery of a data security & privacy incident that implicates PII, Anonymous Alerts will immediately notify the client(s) involved in said incident within 72 hours of a confirmed breach via email and phone to provide this notice. This includes any discovery that any personally identifiable information of the employees, students, teachers, principals or administrators of a Client has been breached and/or released without authorization.
- We will take immediate steps to limit and mitigate the damages of such breach or release to the greatest extent practicable.
- We will also cooperate with the Client and other parties (e.g., law enforcement) to protect the integrity of investigations into the breach or unauthorized release of personally identifiable data and/or information.
- Core Technology Teams at Anonymous Alerts will concurrently investigate the breach to uncover as much information as possible, including a thorough examination of applicable record logs, activity, and technological functions/infrastructure. The goal would be to gather information and identify the cause of the incident until it is found and resolved.
- Our company policy is to analyze and update the current security measures after the situation has been resolved. Anonymous Alerts Technology Teams will undergo a thorough analysis of current data security measures, identify points of interest, and install the appropriate corrective measures to enhance the security of PII and all our systems.
