Neither failure nor delay on the part of any Party in exercising any right, power, or privilege hereunder shall operate as a waiver of such right, nor shall any single or partial exercise of any such right, power, or privilege preclude any further exercise thereof or the exercise of any other right, power, or privilege.
5. **Severability.** Any provision of this DPA that is prohibited or unenforceable in any jurisdiction shall, as to such jurisdiction, be ineffective to the extent of such prohibition or unenforceability without invalidating the remaining provisions of this DPA, and any such prohibition or unenforceability in any jurisdiction shall not invalidate or render unenforceable such provision in any other jurisdiction. Notwithstanding the foregoing, if such provision could be more narrowly drawn so as not to be prohibited or unenforceable in such jurisdiction while, at the same time, maintaining the intent of the Parties, it shall, as to such jurisdiction, be so narrowly drawn without invalidating the remaining provisions of this DPA or affecting the validity or enforceability of such provision in any other jurisdiction.
6. **Governing Law; Venue and Jurisdiction.** THIS DPA WILL BE GOVERNED BY AND CONSTRUED IN ACCORDANCE WITH THE LAWS OF THE STATE OF THE LEA, WITHOUT REGARD TO CONFLICTS OF LAW PRINCIPLES. EACH PARTY CONSENTS AND SUBMITS TO THE SOLE AND EXCLUSIVE JURISDICTION TO THE STATE AND FEDERAL COURTS FOR THE COUNTY OF THE LEA FOR ANY DISPUTE ARISING OUT OF OR RELATING TO THIS DPA OR THE TRANSACTIONS CONTEMPLATED HEREBY.
7. **Successors Bound:** This DPA is and shall be binding upon the respective successors in interest to Provider in the event of a merger, acquisition, consolidation or other business reorganization or sale of

all or substantially all of the assets of such business. In the event that the Provider sells, merges, or otherwise disposes of its business to a successor during the term of this DPA, the Provider shall provide written notice to the LEA no later than sixty (60) days after the closing date of sale, merger, or disposal. Such notice shall include a written, signed assurance that the successor will assume the obligations of the DPA and any obligations with respect to Student Data within the Service Agreement. The LEA has the authority to terminate the DPA if it disapproves of the successor to whom the Provider is selling, merging, or otherwise disposing of its business.

8. **Authority.** Each party represents that it is authorized to bind to the terms of this DPA, including confidentiality and destruction of Student Data and any portion thereof contained therein, all related or associated institutions, individuals, employees or contractors who may have access to the Student Data and/or any portion thereof.
9. **Waiver.** No delay or omission by either party to exercise any right hereunder shall be construed as a waiver of any such right and both parties reserve the right to exercise any such right from time to time, as often as may be deemed expedient.

WHEREAS, the documents and data transferred from LEAs and created by the Provider's Services are also subject to several state laws in New York. Specifically, those laws are New York Education Law § 2-d; and the Regulations of the Commissioner of Education at 8 NYCRR Part 121; and

WHEREAS, the Parties wish to enter into these additional terms to the DPA to ensure that the Services provided conform to the requirements of the privacy laws referred to above and to establish implementing procedures and duties;

WHEREAS, the Parties wish these terms to be hereby incorporated by reference into the DPA in their entirety for New York;

NOW THEREFORE, for good and valuable consideration, the parties agree as follows:

1. All employees of the Provider who will have direct contact with students shall pass criminal background checks.
2. Student Data will be used by Provider exclusively to provide the Services identified in Exhibit A to the DPA.
3. Provider agrees to maintain the confidentiality and security of Student Data in accordance with LEA's Data Security and Privacy Policy. The LEA's Data Security Policy is attached hereto as Exhibit J. Each Subscribing LEA will provide its Data Security Policy to the Provider upon execution of Exhibit "E". Provider shall use industry standard security measures including encryption protocols that comply with New York law and regulations to preserve and protect Student Data and APPR Data. Provider must Encrypt Student Data and APPR Data at rest and in transit in accordance with applicable New York laws and regulations.
4. Provider represents that their Data Privacy and Security Plan can be found at the URL link listed in Exhibit K and is incorporated into this DPA. Provider warrants that its Data Security and Privacy Plan, at a minimum: (a) implements all applicable state, federal and local data privacy and security requirements; (b) has operational technical safeguards and controls in place to protect PII that it will receive under the service agreement; (c) complies with the LEA's parents bill of rights for data privacy and security; (d) requires training of all providers' employees, assignees and subprocessors who have Access to student data or APPR data; (e) ensures subprocessors are required to protect PII received under this service agreement; (f) specifies how data security and privacy incidents that implicate PII will be managed and ensuring prompt notification to the LEA, and (g) addresses Student Data return, deletion and destruction.
5. In addition to the requirements described in Paragraph 3 above, the Provider's Data Security and Privacy Plan shall be deemed to incorporate the LEA's Parents Bill of Rights for Data Security and Privacy, as found at the URL link identified in Exhibit J. The Subscribing LEA will provide its Parents Bill of Rights for Data Security and Privacy to the Provider upon execution of Exhibit "E".

6. All references in the DPA to “Student Data” shall be amended to include and state, “Student Data and APPR Data.”
7. To amend Article II, Section 5 to add: Provider shall ensure that its subprocessors agree that they do not have any property, licensing or ownership rights or claims to Student Data or APPR data and that they will comply with the LEA’s Data Privacy and Security Policy. Provider shall examine the data privacy and security measures of its Subprocessors. If at any point a Subprocessor fails to materially comply with the requirements of this DPA, Provider shall: (i) notify LEA, (ii) as applicable, remove such Subprocessor’s Access to Student Data and APPR Data; and (iii) as applicable, retrieve all Student Data and APPR Data received or stored by such Subprocessor and/or ensure that Student Data and APPR Data has been securely deleted or securely destroyed in accordance with this DPA. In the event there is an incident in which Student Data and APPR Data held, possessed, or stored by the Subprocessor is compromised, or unlawfully Accessed or disclosed, Provider shall follow the Data Breach reporting requirements set forth in the DPA.
8. In Article IV, Section 2, replace “otherwise authorized,” with “otherwise required” and delete “or stated in the Service Agreement.”
9. To amend Article IV, Section 3 to add: Provider shall ensure that all its employees and subprocessors who have Access to or will receive Student Data and APPR Data will be trained on the federal and state laws governing confidentiality of such Student Data and APPR Data prior to receipt. Access to or Disclosure of Student Data and APPR Data shall only be provided to Provider’s employees and subprocessors who need to know the Student Data and APPR Data to provide the services and such Access and/or Disclosure of Student Data and APPR Data shall be limited to the extent necessary to provide such services.
10. To replace Article IV, Section 6 (Disposition of Data) with the following: Upon written request from the LEA, Provider shall dispose of or provide a mechanism for the LEA to transfer Student Data obtained under the Service Agreement, within ninety (90) days of the date of said request and according to a schedule and procedure as the Parties may reasonably agree. Provider is prohibited from retaining disclosed Student Data or continuing to Access Student Data beyond the term of the Service Agreement unless such retention is expressly authorized for a prescribed period by the Service Agreement, necessary for purposes of facilitating the transfer of disclosed Student Data to the LEA, or expressly required by law. The confidentiality and data security obligations of Provider under this DPA shall survive any termination of this contract to which this DPA is attached but shall terminate upon Provider’s certifying that it and it’s subprocessors, as applicable: (a) no longer have the ability to Access any Student Data provided to Provider pursuant to the Service Agreement and/or (b) have destroyed all Student Data and APPR Data provided to Provider pursuant to this DPA. The Provider agrees that the timelines for disposition of data will be modified by any assurance of discontinuation, which will control in the case of a conflict.

Upon termination of this DPA, if no written request from the LEA is received, Provider shall dispose of all student data after providing the LEA with ninety (90) days prior notice.

The duty to dispose of student data shall not extend to Student Data that had been de-identified or placed in a separate student account pursuant to section II 3. The LEA may employ a **“Directive for Disposition of Data”** form, a copy of which is attached hereto as **Exhibit “D”**, or, with reasonable notice to the Provider, other form of its choosing. No further written request or notice is required on the part of either party prior to the disposition of Student Data described in **“Exhibit D”**.

11. To amend Article IV, Section 7 to add: ‘Notwithstanding the foregoing, Provider is prohibited from using Student Data or APPR data for any Commercial or Marketing Purpose as defined herein. And add after (iii) account holder, “which term shall not include students.”
12. To replace Article V, Section 1 (Data Storage) to state: Student Data and APPR Data shall be stored within the United States and Canada only. Upon request of the LEA, Provider will provide a list of the locations where Student Data is stored.
13. To replace Article V, Section 2 (Audits) to state: No more than once a year or following an unauthorized Access, upon receipt of a written request from the LEA with at least ten (10) business days’ notice and upon the execution of an appropriate confidentiality agreement, the Provider will allow the LEA or its designee(s) to audit the security and privacy measures that are in place to ensure protection of Student Data or any portion thereof as it pertains to the delivery of services to the LEA . The Provider will cooperate reasonably with the LEA or its designee(s) and any local, state, or federal agency with oversight authority or jurisdiction in connection with any audit or investigation of the Provider and/or delivery of Services to students and/or LEA, and shall provide reasonable Access to the Provider’s facilities, staff, agents and LEA’s Student Data and all records pertaining to the Provider, LEA and delivery of Services to the LEA.

Upon request by the New York State Education Department’s Chief Privacy Officer (NYSED CPO), Provider shall provide the NYSED CPO with copies of its policies and related procedures that pertain to the protection of information. In addition, the NYSED CPO may require Provider to undergo an audit of its privacy and security safeguards, measures, and controls as they pertain to alignment with the requirements of New York State laws and regulations, and alignment with the NIST Cybersecurity Framework. Any audit required by the NYSED CPO must be performed by an independent third party at Provider’s expense and the audit report must be provided to the NYSED CPO. In lieu of being subject to a required audit, Provider may provide the NYSED CPO with an industry standard independent audit report of Provider’s privacy and security practices that was issued no more than twelve months before the date that the NYSED CPO informed Provider that it required Provider to undergo an audit. Failure to reasonably cooperate with any of the requirements in this provision shall be deemed a material breach of the DPA.

To amend the third sentence of Article V. Section 3 (Data Security) to read: The Provider shall implement security practices that are in alignment with the NIST Cybersecurity Framework v1.1 or any update to this Framework that is adopted by the New York State Department of Education.

14. To replace Article V. Section 4 (Data Breach) to state: In the event of a Breach as defined in 8 NYCRR Part 121.1 Provider shall provide notification to LEA within seventy-two (72) hours of confirmation of the incident, unless notification within this time limit would disrupt investigation of the incident by law enforcement. In such an event, notification shall be made within a reasonable time after the incident. Provider shall follow the following process:

- (1) The security breach notification described above shall include, at a minimum, the following information to the extent known by the Provider and as it becomes available:

 - iv. Whether the notification was delayed as a result of a law enforcement investigation, if that information is possible to determine at the time the notice is provided; and
 - v. A general description of the breach incident, if that information is possible to determine at the time the notice is provided; and
 - vi. The number of records affected, if known; and
 - vii. A description of the investigation undertaken so far; and
 - viii. The name of a point of contact for Provider.
- (2) Provider agrees to adhere to all federal and state requirements with respect to a data breach related to the Student Data, including, when appropriate or required, the required responsibilities and procedures for notification and mitigation of any such data breach.

- (4) LEA shall provide notice and facts surrounding the breach to the affected students, parents or guardians. Where a Breach of Student Data and/or APPR Data occurs that is attributable to Provider and/or its Subprocessors, Provider shall pay for or promptly reimburse LEA for the full cost of notification to Parents, Eligible Students, teachers, and/or principals.
- (5) In the event of a breach originating from LEA's use of the Service, Provider shall cooperate with LEA to the extent necessary to expeditiously secure Student Data.
- (6) Provider and its subprocessors will cooperate with the LEA, the NYSED Chief Privacy Officer and law enforcement where necessary, in any investigations into a Breach. DATA PRIVACY AND SECURITY PLAN

PROVIDER'S DATA PRIVACY AND SECURITY PLAN

The Educational Agency (EA) is required to ensure that all contracts with a third-party contractor include a Data Security and Privacy Plan, pursuant to Education Law § 2-d and Section 121.6 of the Commissioner's Regulations. For every contract, the Contractor must complete the following or provide a plan that materially addresses its requirements, including alignment with the NIST Cybersecurity Framework, which is the standard for educational agency data privacy and security policies in New York state. **While this plan is not required to be posted to the EA's website, contractors should nevertheless ensure that they do not include information that could compromise the security of their data and data systems.**

1	Outline how you will implement applicable data security and privacy contract requirements over the life of the Contract.	While providing the Products to our School Customers and their Authorized School Users, Coursemojo collects, receives, generates, or has access to "Student Data," which is information that directly relates to an identifiable student. We consider Student Data to be confidential, and we collect and use Student Data solely for educational purposes in connection with providing our Products to, or on behalf of, our School Customers, as described in our Agreements. We work to maintain the security and confidentiality of Student Data that we collect or store, and we enable our School Customers to control the use, access, sharing, and retention of Student Data. Our collection and use of Student Data is governed by our Agreements with our School Customers, including our Privacy Policy, and applicable laws which may include the federal Family Educational Rights and Privacy Act of 1974 ("FERPA"), the Children's Online Privacy Protection Act ("COPPA"), the Protection of Pupil Rights Amendment ("PPRA"), as well as other applicable federal, state, and local privacy laws and regulations ("Applicable Laws"). With respect to FERPA, Coursemojo receives Student Data as a "school official" under Section 99.31 of FERPA for the purpose of providing its Products, and such Student Data is owned and controlled by the School Customer.
2	Specify the administrative, operational and technical safeguards and practices that you have in place to protect PII.	Coursemojo maintains a comprehensive security program that is reasonably designed to protect the security, privacy, confidentiality, and integrity of students' personally identifiable information against risks—such as unauthorized access or use or unintended or inappropriate disclosure— using administrative, technological, and physical safeguards appropriate to the sensitivity of the information. We perform regular internal and external security scans. In addition, Coursemojo will periodically perform additional penetration testing

		and/or other relevant threat assessments and will perform subsequent remediation efforts based on the findings of these assessments. We use industry standard encryption technology to protect data transmitted over the internet. The Coursemojo website is hosted on Amazon Web Services (AWS), and we rely on Amazon for server and datacenter security. All data on AWS is encrypted at rest in accordance with Amazon's security practices. Coursemojo uses role-based permissions to limit access to sensitive data and systems to our personnel who need it for a legitimate business purpose. We follow industry best standard practices in developing our software. Laptops provided to our employees for work purposes are managed to ensure that they are properly configured, regularly updated, and tracked. Our default configuration includes full-disk encryption of hard drives, on-device threat detection and reporting capabilities, and lock when idle for a specified amount of time. All laptops are securely wiped before we re-issue or dispose of them.
3	Address the training received by your employees and any subcontractors engaged in the provision of services under the Contract on the federal and state laws that govern the confidentiality of PII.	• Our employees are required to complete information security awareness training upon hire and periodically thereafter. Personnel are required to acknowledge and agree to our written information security policy and our employee handbook which, among other things, highlights our commitment to keep Student Education Records and confidential information secure. - o All employees are required to complete the US Department of Education's Online Training Modules (FERPA 101 for LEAs and FERPA 201: Data Sharing under FERPA) once every year. - o All employees are also required to complete a series of online Cybersecurity Modules via KnowBe4 (Phishing, Security Awareness) once a year. • Employees that have access to Student Education Records receive training on applicable federal and state privacy laws
4	Outline contracting processes that ensure that your employees and any subcontractors are bound by written agreement to the requirements of the Contract, at a minimum.	As mentioned above: • Our employees are required to complete information security awareness training upon hire and periodically thereafter. Personnel are required to acknowledge and agree to our written information security policy and our employee handbook which, among other things, highlights our commitment to keep Student Education Records and confidential information secure.

		• Employees that have access to Student Education Records receive training on applicable federal and state privacy laws. In addition, Coursemojo ensures that appropriate background and reference checks are performed on all staff members.
5	Specify how you will manage any data security and privacy incidents that implicate PII and describe any specific plans you have in place to identify breaches and/or unauthorized disclosures, and to meet your obligations to report incidents to the EA.	Coursemojo maintains a comprehensive information security program and uses industry standard administrative, technical, operational, and physical measures to safeguard Student Data in its possession against loss, theft and unauthorized use, disclosure, or modification. Coursemojo performs periodic risk assessments of its information security program and prioritizes the remediation of identified security vulnerabilities. All of Coursemojo's technical infrastructure is hosted on the Amazon AWS Cloud. We use several tools to help in identifying cybersecurity incidents, including Amazon GuardDuty, AWS Cloud Trail, Amazon Inspector, AWS WAF (Web Application Firewall). Findings from GuardDuty and Inspector are published automatically to our internal Slack instance, where engineers can quickly view and act on them. In the event Coursemojo discovers or is notified that Student Data within our possession or control was disclosed to, or acquired by, an unauthorized party, we will investigate the incident, take steps to mitigate the potential impact, and notify the School Customer in accordance with Applicable Laws. We will promptly notify the EA within 24 hours of a confirmed breach.
6	Describe how data will be transitioned to the EA when no longer needed by you to meet your contractual obligations, if applicable.	N/A
7	Describe your secure destruction practices and how certification will be provided to the EA.	Upon expiration or termination of the Agreement, the Entity shall: Securely delete and/or destroy PII. In its agreement with the EA, this entity has agreed to return and securely delete or destroy PII whenever any of the following occurs first: • whenever requested by the EA • whenever the entity no longer needs the PII to provide services to the EA • whenever an EA school or office ceases use of a product or service of the entity, for the PII that pertains to that school or office • no later than upon termination of this Agreement In addition, the entity has agreed that to the extent practicable, it will not retain PII for more than one school year after the school year in which the data was received, unless it is required to retain it for longer by law.

8	Outline how your data security and privacy program/practices align with the EA's applicable policies.	In addition to the above, Coursemojo will not: • sell Student Data to third parties; • use or disclose Student Data to inform, influence, or enable targeted advertising... • use Student Data to develop a profile of a student for any purpose other than providing the Products... • use Student Data for any commercial purpose other than to provide the Products to the School Customer or Authorized School User. Coursemojo does not track students across third-party websites and does not respond to Do Not Track (DNT) signals. Coursemojo does not permit third-party advertising networks to collect information from or about students using Coursemojo educational Products for the purpose of serving targeted advertising across websites and over time and Coursemojo will never use Student Data for targeted advertising.
9	Outline how your data security and privacy program/practices materially align with the NIST CSF v1.1 using the Framework chart below.	PLEASE USE TEMPLATE BELOW.

EXHIBIT C.1 – NIST CSF TABLE

The table below will aid the review of a Contractor's Data Privacy and Security Plan. Contractors should complete the Contractor Response sections in the table below to describe how their policies and practices align with each category in the Data Privacy and Security Plan template. To complete these 23 sections, a Contractor may: (i) Demonstrate alignment using the National Cybersecurity Review (NCSR) Maturity Scale of 1-7 ; (ii) Use a narrative to explain alignment (may reference its applicable policies); and/or (iii) Explain why a certain category may not apply to the transaction contemplated. Further informational references for each category can be found on the NIST website at <https://www.nist.gov/cyberframework/new-framework>. Please use additional pages if needed.

All Coursemojo's technical infrastructure is hosted on the Amazon AWS Cloud. We use several tools to help in identifying cybersecurity incidents, including Amazon GuardDuty, AWS Cloud Trail, Amazon Inspector, AWS WAF (Web Application Firewall). Findings from GuardDuty and Inspector are published automatically to our internal Slack instance, where engineers can quickly view and act on them.
DETECT (DE)	Anomalies and Events (DE.AE): Anomalous activity is detected and the potential impact of events is understood.	All of Coursemojo's technical infrastructure is hosted on the Amazon AWS Cloud. We use several tools to help in identifying cybersecurity incidents, including: 1. Amazon GuardDuty: This is a threat detection service that continuously monitors for malicious activity and unauthorized behavior to protect our AWS accounts and workloads. 2. AWS CloudTrail: This service provides event history of our AWS account activity, including actions taken through the AWS Management Console, AWS SDKs, command line tools, and other AWS services. This enables security analysis, resource change tracking, and compliance auditing. 3. Amazon Inspector: An automated security assessment service that helps improve the security and compliance of applications deployed on AWS. Amazon Inspector assesses applications for vulnerabilities or deviations from best practices. 4. AWS WAF (Web Application Firewall): Helps protect our web applications or APIs against common web exploits that may affect availability, compromise security, or consume excessive

		resources. Findings from GuardDuty and Inspector are published automatically to our internal Slack instance, where engineers can quickly view and act on them.
	Security Continuous Monitoring (DE.CM): The information system and assets are monitored to identify cybersecurity events and verify the effectiveness of protective measures.	We perform regular internal and external security scans and will periodically perform additional penetration testing and/or other relevant threat assessments.
	Detection Processes (DE.DP): Detection processes and procedures are maintained and tested to ensure awareness of anomalous events.	Coursemojo has an incident response plan in place to identify and address any potential data or security incident. Learning from each incident is critical to improving our response capabilities and we will conduct a thorough post-incident analysis.
RESPOND (RS)	Response Planning (RS.RP): Response processes and procedures are executed and maintained, to ensure response to detected cybersecurity incidents.	The Cybersecurity Incident Response Team (CIRT) is primarily responsible for the implementation and execution of the Cybersecurity Incident Response Plan.
	Communications (RS.CO): Response activities are coordinated with internal and external stakeholders (e.g. external support from law enforcement agencies).	The CIRT is composed of members from various departments within the organization who bring diverse expertise and perspective. Here are the key roles and their associated responsibilities:
	Analysis (RS.AN): Analysis is conducted to ensure effective response and support recovery activities.	1. Incident Response Lead: This individual has overall responsibility for managing the incident response process. They coordinate the response activities, make critical decisions during incidents, and communicate regularly with the executive team.
	Mitigation (RS.MI): Activities are performed to prevent expansion of an event, mitigate its effects, and resolve the incident.	2. Engineering: These are the technical experts responsible for detecting and analyzing the incident, containing the threat, eradicating the security issue, and restoring systems to normal operation. They are also responsible for gathering and preserving evidence where necessary.
	Improvements (RS.IM): Organizational response activities are improved by incorporating lessons learned from current and previous detection/response activities.	3. Legal Counsel: The legal counsel advises on legal obligations and potential liabilities associated with an incident. This includes regulatory reporting requirements and customer notifications in case of data breaches. 4. Human Resources: HR is responsible for communicating with employees about an incident and advising on any potential personnel issues that may arise from the incident, such as employee misconduct. 5. Customer Success: This team is responsible for managing communication with external stakeholders. They prepare official statements and updates about the incident to protect the company's reputation. 6. Executive Management: The executive team provides oversight and support for the incident response process. They are involved in making high-level decisions regarding the incident, especially those with significant business impact. In the event Coursemojo discovers or is notified that Student Data within our possession or control was disclosed to, or acquired by, an unauthorized party, we will investigate the incident, take steps

		to mitigate the potential impact, and notify the School Customer in accordance with Applicable Laws. We will promptly notify the EA within 24 hours of a confirmed breach. Learning from each incident is critical to improving our response capabilities and strengthening our defenses against future incidents. Therefore, following the resolution of each incident, we will conduct a thorough post incident analysis.
RECOVER (RC)	Recovery Planning (RC.RP): Recovery processes and procedures are executed and maintained to ensure restoration of systems or assets affected by cybersecurity incidents.	Coursemojo has technical experts responsible for detecting and analyzing the incident, containing the threat, eradicating the security issue, and restoring systems to normal operation (see CIRT roles)
	Improvements (RC.IM): Recovery planning and processes are improved by incorporating lessons learned into future activities.	Learning from each incident is critical to improving our response capabilities and strengthening our defenses against future incidents. Therefore, following the resolution of each incident, we will conduct a thorough post incident analysis.
	Communications (RC.CO): Restoration activities are coordinated with internal and external parties (e.g. coordinating centers, Internet Service Providers, owners of attacking systems, victims, other CSIRTs, and vendors).	See above for CIRT Plan/Roles
