Provider shall respond in a timely manner (and no later than 45 days from the date of the request) to the LEA’s request for Student Data in a pupil’s records held by the Provider to view or correct as necessary. In the event that a parent of a pupil or other individual contacts the Provider to review any of the Student Data accessed pursuant to the Services, the Provider shall refer the parent or individual to the LEA, who will follow the necessary and proper procedures regarding the requested information.
3. **Separate Account.** If pupil generated content is stored or maintained by the Provider as part of the Services described in Exhibit “A”, Provider shall, at the request of the LEA, transfer said pupil generated content to a separate student account upon termination of the Service Agreement; provided, however, such transfer shall only apply to pupil generated content that is severable from the Service.
4. **Third Party Request.** Should a Third Party, including law enforcement and government entities, contact Provider with a request for data held by the Provider pursuant to the Services, the Provider shall redirect the Third Party to request the data directly from the LEA. Provider shall notify the LEA in advance of a compelled disclosure to a Third Party.

2. **Annual Notification of Rights.** If the LEA has a policy of disclosing education records under FERPA (4 CFR § 99.31 (a) (1)), LEA shall include a specification of criteria for determining who constitutes a school official and what constitutes a legitimate educational interest in its Annual notification of rights.
3. **Reasonable Precautions.** LEA shall take reasonable precautions to secure usernames, passwords, and any other means of gaining access to the services and hosted data.
4. **Unauthorized Access Notification.** LEA shall notify Provider promptly of any known or suspected unauthorized access. LEA will assist Provider in any efforts by Provider to investigate and respond to any unauthorized access.

Provider also acknowledges and agrees that it shall not make any re-disclosure of any Student Data or any portion thereof, including without limitation, meta data, user content or other non-public information and/or personally identifiable information contained in the Student Data, without the express written consent of the LEA.
3. **Employee Obligation.** Provider shall require all employees and agents who have access to Student Data to comply with all applicable provisions of this DPA with respect to the data shared under the Service Agreement.
4. **No Disclosure.** De-identified information may be used by the Provider for the purposes of development, research, and improvement of educational sites, services, or applications, as any other member of the public or party would be able to use de-identified data pursuant to 34 CFR 99.31(b). Provider agrees not to attempt to re-identify de-identified Student Data and not to transfer de-identified Student Data to any party unless (a) that party agrees in writing not to

attempt re-identification, and (b) prior written notice has been given to LEA who has provided prior written consent for such transfer. Provider shall not copy, reproduce or transmit any data obtained under the Service Agreement and/or any portion thereof, except as necessary to fulfill the Service Agreement.

5. **Disposition of Data.** Upon written request and in accordance with the applicable terms in subsection a or b, below, Provider shall dispose or delete all Student Data obtained under the Service Agreement when it is no longer needed for the purpose for which it was obtained. Disposition shall include (1) the shredding of any hard copies of any Student Data; (2) Erasing; or (3) Otherwise modifying the personal information in those records to make it unreadable or indecipherable by human or digital means. Nothing in the Service Agreement authorizes Provider to maintain Student Data obtained under the Service Agreement beyond the time period reasonably needed to complete the disposition. Provider shall provide written notification to LEA when the Student Data has been disposed. The duty to dispose of Student Data shall not extend to data that has been de-identified or placed in a separate Student account, pursuant to the other terms of the DPA. The LEA may employ a “Request for Return or Deletion of Student Data” form, a copy of which is attached hereto as Exhibit “D”. Upon receipt of a request from the LEA, the Provider will immediately provide the LEA with any specified portion of the Student Data within ten (10) calendar days of receipt of said request.

- a. **Partial Disposal During Term of Service Agreement.** Throughout the Term of the Service Agreement, LEA may request partial disposal of Student Data obtained under the Service Agreement that is no longer needed. Partial disposal of data shall be subject to LEA’s request to transfer data to a separate account, pursuant to Article II, section 3, above.

Prior to disposition of the data, Provider shall notify LEA in writing of its option to transfer data to a separate account, pursuant to Article II, section 3, above. In no event shall Provider dispose of data pursuant to this provision unless and until Provider has received affirmative written confirmation from LEA that data will not be transferred to a separate account.

If requested by LEA, Provider shall reimburse LEA for costs incurred to notify parents/families of a breach not originating from LEA's use of the Service.

For the purpose of the Service Agreement, the term “Operator” is replaced by the term “Provider.” This term shall encompass the term “Third Party,” as it is found in applicable state statutes.

Personally Identifiable Information (PII): The terms “Personally Identifiable Information” or “PII” shall include, but are not limited to, student data, metadata, and user or pupil-generated content obtained by reason of the use of Provider’s software, website, service, or app, including mobile apps, whether gathered by Provider or provided by LEA or its users, students, or students’ parents/guardians. PII includes Indirect Identifiers, which is any information that, either alone or in aggregate, would allow a reasonable person to be able to identify a student to a reasonable certainty. For purposes of this DPA, Personally Identifiable Information shall include the categories of information listed in the definition of Student Data.

For the purposes of this Agreement, Pupil Records shall be the same as Educational Records, Student Personal Information and Covered Information, all of which are deemed Student Data for the purposes of this Agreement.

AERIES SOFTWARE

EXHIBIT D – DISPOSITION OF DATA

Aeries Software offers two options for the hosting of its Aeries Student Information System and associated ancillary products: 1) local hosting directly by the LEA (or with another vendor hosting option of their own choosing); and 2) cloud hosted services managed by Aeries Software.

- 1) Local Hosting - LEAs who choose to host their data locally (or directly with a 3rd party cloud hosting option) are solely responsible for any and all data in the district database, including but not limited to all archival or backup copies typically associated with the normal upkeep of the LEA's data.
- 2) Aeries Hosted Services – With this option, Aeries Software provides and hosts the LEAs database in a secure off-site data center. Aeries Software also provides the database administration services, including functions such as updates and data retention/recovery with a full data backup automation process in place.
 - a. Please note: Prior Aeries policy was to maintain physical data backups in perpetuity, including keeping data backed up for retention and recovery. However, beginning August 1, 2019, once an LEA terminates license to use our products and data has been transferred fully over to the LEA, it is the LEA's sole responsibility to take ownership of the data for retention.
 - b. Transfer of Data - Upon termination of the license to use our product, Aeries will provide instructions and work with each LEA to provide the data and/or database in a manner accessible by the LEA in line with standard industry practices for data transfers.

In the event of termination of a license to use our products, Aeries Software will work with the LEA, in accordance of the terms of the LEA's contract, to transfer all hosted data to the LEA's premises, then to destroy all student records contained in our systems and then permanently delete all archival or backup copies of the LEA's data. Aeries Software shall not knowingly retain copies of any data or information received from LEA once LEA has directed Aeries as to how such information shall be returned and/or destroyed. Furthermore, Aeries Software shall ensure that it disposes of any and all data or information received from LEA in a commercially reasonable manner that maintains the confidentiality of the contents of such records (e.g. shredding paper records, erasing and reformatting hard drives, erasing and/or physically destroying any portable electronic devices). At the request of the EA, Aeries will provide a written certification of destruction.

AERIES SOFTWARE

EXHIBIT F – DATA SECURITY REQUIREMENTS

Aeries hosted clients' data resides in a data center that is SOC 2, SOC 3, HIPAA & PCI compliant with stringent security, top-tier fire suppression and 24x7 site monitoring. The facility also has key card, biometric, mantrap, alarm, and video surveillance systems. The site is manned 24/7.

All hardware is behind extensive hardware firewalls. The web servers use SSL for all network traffic to and from the servers. Any direct connections to the hosted Microsoft SQL databases are encrypted. Additionally, the external IP address of the client computer accessing the database directly must be added in our firewall to receive access. Any direct access to the web or database servers requires Microsoft Azure multi-factor authentication.

Aeries SIS requires strong password usage through the system. Aeries SIS requires the following:

- The password may not be the same as the username.
- The password may not be "admin".
- Aeries has compiled a list of commonly used passwords using data published by outside sources. If the user attempts to use a password on this list, they will get a warning message: "Please select a more unique password."

Additionally, the LEA can set more stringent password requirements and expirations including:

- Force users to Change Passwords Every... – How often the users need to change their password.
- Days Prior to Expiration to Notify Users - Used to give the users a warning message that their password will expire several days prior to the expiration.
- Minimum Length - Defines the minimum character length of the password.
- Require Special Character - Requires that at least one non-alpha numeric character is used in the password. For example, * & % \$ # @
- Require Letters and Numbers - Requires that at least one letter and one number are used in the password.
- Require Upper and Lower Case - Requires that both upper and lower-case letters are used in the password.
- New must be significantly different than old - Requires that the new password be significantly different than the existing password

Aeries includes a Records Transfer feature that can transfer supplemental data between LEAs. The Records Transfer feature was developed with an emphasis on security. Below are highlights of the security built in to the Records Transfer feature:

All data is transmitted securely via HTTPS, specifically the more secure TLS 1.2 protocol.

The student data is transmitted point-to-point between districts using private Aeries APIs and never stored on any intermediate server.

Aeries uses a centralized registry of unique district authorization codes and district Aeries URLs to validate records requests. This prevents an unknown party from forging a records request under the guise of a legitimate Aeries district.

Records Transfer uses public key encryption to encrypt all student-related data end-to-end. The data can only be decrypted using the private key of the correct receiving district.
