For the purposes of FERPA, the Provider shall be considered a School Official, under the control and direction of the LEAs as it pertains to the use of student data notwithstanding the above. Student Data and Pupil Records shall not include anonymous or de-identified information. Provider may transfer pupil-generated content to a separate account, according to the procedures set forth below.
2. **Parent Access.** Provider and the LEA shall establish reasonable procedures by which a parent, legal guardian, or eligible student may review personally identifiable information on the pupil's records, correct erroneous information, and procedures for the transfer of pupil-generated content to a personal account, consistent with the functionality of services. Provider shall respond in a reasonably timely manner to the LEA's request for personally identifiable information in a pupil's records held by the Provider to view or correct as necessary. In the event that a parent of a pupil or other individual contacts the Provider to review any of the Pupil Records of Student Data accessed pursuant to the Services, the Provider shall refer the parent or individual to the LEA, who will follow the necessary and proper procedures regarding the requested information.
3. **Separate Account.** Provider shall, at the request of the LEA, transfer Student generated content to a separate student account.

OTHER

We collect the following types of information:

Information collected when subscribing: In the registration process of any of our subscription types, we ask our subscriber to provide us with name, email address, affiliation with a school or district (if applicable), phone number and billing information. We use this contact information to send users service-related announcements on rare occasions when it is necessary or advisable to do so. For instance, if we perform routine maintenance, we might send an informational email. We may also use this contact information to request feedback on the use of our products and services, to be used to improve the products and services. We will always provide an option to opt out of such communications.

Username and password: Subscribers create a username and password in the registration process, or, if they prefer, we may assign these for them. We use usernames and passwords of subscribers' accounts to authenticate logins, allow access to the paid content and monitor subscription compliance. The username is also used to authenticate users when requesting technical support. The passwords are all encrypted when stored. For more information on our security practices, see "How We Store and Process Your Information" below.

Information collected automatically: We automatically receive and record information on our server logs from a user's browser, including the user's IP address. We use IP addresses to maintain a user's session and we do not store them after the user's session is over. We also use the IP address to check if a user is located in some countries outside of the United States where a country-wide log-in option is activated, and we do not store this information after the initial page load. We do not otherwise combine this information with other PII.

We also use a standard feature found in browser software, called a "cookie", in order to establish and authenticate user sessions, enable access to paid content and monitor potential misuse of the accounts. We do not use cookies to collect Personally Identifiable Information nor do we combine such general information with other PII to identify a user. Disabling our cookies will prevent access to paid content and limit some of the features and functionalities of the website or app. To learn more about browser cookies, including how to manage or delete them, look in the Tools, Help or similar section of your Web browser, or visit allaboutcookies.org.

We do not collect a user's web search history across third party websites or search engines. However, if a user navigates to our website via a web search, their web browser may automatically provide us with the web search term they used in order to find our website. Our website does not honor "do not track" signals transmitted by users' web browsers, so we encourage you to visit these links if you would like to opt out of certain tracking: <http://www.networkadvertising.org/choices> or <http://www.aboutads.info/choices/>. If you do want to opt out using these tools, you need to opt out separately for each of your devices and for each web browser you use (such as Internet Explorer®, Firefox® or Safari®) on each device.

Third Parties: We may use a variety of third-party service providers, such as analytics companies, to understand usage of our services. We may allow those providers to place and read their own cookies, electronic images known as web beacons or single-pixel gifs and similar technologies, to help us measure how users interact with our services. This technical information is collected directly and automatically by these third parties. If you want to opt out of third party cookies, you may do so through your browser, as mentioned above in **Information collected automatically**.

Information collected when using My BrainPOP®: School, District and Homeschool subscriptions include the option to use the individual accounts system, called My BrainPOP, which allows students and their teachers to keep track of learning. Student and teacher accounts are organized by classrooms created by the teachers of the subscribing school. For these accounts, we ask the teachers to enter the first and last name of students and teachers, their username, the class they are associated with and a security question for resetting their password. We also require the teachers' email for password recovery and for contacting them on support and service-related announcements. The only Personally Identifiable Information collected about students is their name, class, graduation year, and the students' work under the account (student records). If a student uses the Make-a-Movie™ feature, his or her recorded voice may also be collected as part of the movie file that will be saved. We do NOT collect students' emails or addresses. We store the data created in each student account ("Student Records"), such as the history of BrainPOP movies they've watched, the quizzes and activities they've completed, snapshots they've taken on certain GameUp® games, movies they've created using Make-a-Movie, and feedback provided by the teacher to the student through My BrainPOP. We do so for the purpose of enhancing teachers' and students' use of the website. Please see the [Using My BrainPOP®](#) section below for additional privacy and security information for users of My BrainPOP.

Contact information for newsletter and surveys: On BrainPOP Educators®, a section of these websites that is directed to adults, you may choose to register to receive newsletters, promotional offerings or surveys, which requires your contact information. Such messages may include pixel tags and link tracking. The contact information you submit will not be shared, sold or used for any other purpose and you may opt out at any time. An opt-out link will be included in the bottom of such messages. Registration to newsletters, promotional offering and surveys is not intended for minors under the age of 13. Please see [BrainPOP Educators®](#) below for further information.

Emails received from users: We may retain certain information from users when they send us messages through our system or by email. We only use such information for providing the services or support requested.

Feedback: Certain features we offer include an option to provide us with feedback on your experience. The feedback feature does not identify the user submitting it. The feedback option is voluntary and the information a user submits to us will only be used for improving these features. If we receive personally identifiable information through a feedback form we take steps to immediately delete that information.

Information collected when using a BrainPOP® mobile app: Your website subscription may also provide access to the Full Access level of our mobile apps. If you choose to download any such app and log into it with your website subscription username and password, we collect limited usage information in connection with user logins in order to monitor subscription compliance. This information is maintained in accordance to this policy. We do not collect Personally Identifiable Information from users of the various BrainPOP applications. If you subscribe to a BrainPOP app with an in-app purchase subscription, we do not collect any user information.

Push Notifications on mobile apps: We send you push notifications on BrainPOP mobile apps from time to time in order to update you about any events or promotions that we may be running. If you no longer wish to receive these types of communications, you may turn them off at the device level. To ensure you receive proper notifications, we will need to collect certain information about your device such as operating system and user identification information. We also collect the user timezone as it's set on the device to limit the time we send push notifications within a reasonable time of day. We do not combine this information with other PII.

Mobile Analytics on mobile apps: We use mobile analytics software to allow us to better understand the functionality of our Mobile apps Software on your phone. This software may record information such as how often you use the apps, the events that occur within the apps, aggregated usage, performance data, and where the apps were downloaded from. We do not link the information we store within the analytics software to any PII you submit within the mobile apps.

We Do NOT Collect Or Use Information As Follows:

- Certain activity pages and quizzes allow a user to enter his or her name prior to printing or sending it to an email address entered by the user (such as that of a teacher). We do not collect or store this information. If a user is using a quiz on an app, he or she can enter their name, but we do not collect this information. It is only stored on the user's device.
- Other than in the places and for the purposes explicitly disclosed in this Policy, we do not knowingly collect Personally Identifiable Information directly from users under the age of 13. If we learn that we have inadvertently collected any Personally Identifiable Information from a user under 13, we will take steps to promptly delete it. Please contact us at privacy@brainpop.com if you believe we have inadvertently collected Personally Identifiable Information from a user under 13.
- We do not collect, use or share Personally Identifiable Information other than as described in our privacy policy, or with the consent of a parent or legal guardian as authorized by law, or otherwise as directed by an applicable district or school or required by contract or by law.
- In no event shall we use, share or sell any Personally Identifiable Information for advertising or marketing purposes.
