DESCRIPTION OF SERVICES

Desmos provides digital math tools -- including, but not limited to, a graphing calculator, scientific calculator, four function calculator, geometry tool, and matrix calculator -- through its website and mobile applications.

In addition, Desmos has classroom activities that teachers can use to lead a class through mathematical topics in a way that is social and creative. Teachers can use activities created by Desmos, can build their own, and can modify activities created by Desmos or other teachers.

Desmos licenses its core technology to textbook publishers, assessment companies, and other organizations that can benefit from our products. Desmos never licenses any data on users to these customers. Desmos also does not work with any 3rd party ad networks, targeted or otherwise, on any of its sites, apps, or services.

Please note that because many features of Desmos are available for free to any user, Desmos can only delete or return data on behalf of an LEA if Desmos knows that the user is under the jurisdiction of the LEA. Only accounts associated with a student's or teacher's official LEA-issued email address are covered by this agreement.

Additionally please note that because many instances of Student Data require Desmos's technology to be rendered and interpreted, in many cases it will not be possible for Desmos to return the data at the request of the LEA. In such cases, we will notify the LEA that the data cannot be returned and instead delete the data if the LEA requests such deletion in response to our notification.
