# Student Safety Protocol

PenPal Schools takes student security extremely seriously. These precautions have enabled us to safely connect over 100,000 students.

## A SAFE LEARNING ENVIRONMENT

 **The Right PenPals**  
 We take many factors into account when connecting students with PenPals, including limiting the age difference between PenPals to two years. We only connect students who are part of a classroom with a verified teacher.

 **Vigilant Teachers**  
 Teachers can review every message sent and received by their students. This information is easily accessible at any time in the teacher dashboard.

 **Empowered Students**  
 Students can report inappropriate and off-topic messages. Reported messages are flagged for review by our support team.

 **Our Team Behind the Scenes**  
 The PenPal Schools team monitors student profiles and reviews every message sent between PenPals for inappropriate content or behavior.

 **Teacher Verification**  
 All teachers' e-mail credentials are verified, and we exchange at least one message with every teacher who joins PenPal Schools before allowing them to create a classroom and register students.

## KEEPING DATA SECURE

### Minimal Information Required

We collect a minimal amount of student information - just first name and last initial. Students are not required to submit an e-mail address or last name. Students' locations are never shared (other than the country).

### Encrypted Student Data

All student data is encrypted both in-flight and at rest. This ensures that all data passed between the web server and browsers remains private and integral.

### Data Used Responsibly

Teacher and student data is never shared with partners, press, or any other parties without permission. More information.
