

REPLIT & GitHub Release form

Dear Parent(s) and/or Guardians,

The Bothell High School uses [Replit](#) and [GitHub](#), online services to enable all students to have free and secure access to computing resources for their AP Computer Science A programming course. Replit provides an Integrated Development Environment (IDE) that is an essential tool in computer computer programming. GitHub is a data repository into which their work will be stored and accessed for grading. Students will be instructed to keep all work private and only share it with myself and peer classmates.

Anyone who is participating in AP Computer Science A is agreeing to the terms and conditions specified by GitHub and Replit.

You are encouraged to review GitHub and Replit's terms of service, end user license agreement, and privacy statement prior to providing consent (<https://repl.it/site/terms>; <https://repl.it/site/privacy> and <https://docs.github.com/en/github/site-policy/github-terms-of-service> and <https://docs.github.com/en/github/site-policy/github-privacy-statement>).

After reviewing these sites, please sign and return this form to Gus Reiber by September 28, 2020.

This will serve as your permission for your student's information to be provided to Replit and GitHub.

This permission will expire at the end of this school year – June 2020.

If you have any questions, please contact

Gus Reiber
