The parties agree that to the extent they sign electronically, their electronic signature is the legally binding equivalent to their handwritten signature. Whenever they execute an electronic signature, it has the same validity and meaning as their handwritten signature. They will not, at any time in the future, repudiate the meaning of my electronic signature or claim that their electronic signature is not legally binding. They agree not to object to the admissibility of this Agreement as an electronic record, or a paper copy of an electronic document, or a paper copy of a document bearing an electronic signature, on the grounds that it is an electronic record or electronic signature or that it is not in its original form or is not an original.

Each party will immediately request that their electronic signature be revoked in writing if they discover or suspect that it has been or is in danger of being lost, disclosed, compromised or subjected to unauthorized use in any way. **De-Identifiable Information (DII):** De-Identification refers to the process by which the Vendor removes or obscures any Personally Identifiable Information (“PII”) from Pupil Records in a way that removes or minimizes the risk of disclosure of the identity of the individual and information about them that is linked to them. The Provider’s specific steps to de-identify the Student Data will depend on the circumstances, but should be appropriate to protect the Pupils. Some potential disclosure limitation methods are blurring, masking, and perturbation. De-identification should ensure that any information when put together cannot indirectly identify the Pupil, not only from the viewpoint of the public, but also from the vantage of those who are familiar with the individual.

**NIST 800-63-3:** Draft National Institute of Standards and Technology (“NIST”) Special Publication 800-63-3 Digital Authentication Guideline.

**Personally Identifiable Information (PII):** The terms “Personally Identifiable Information” or “PII” shall include, but are not limited to, Student Data, metadata in connection therewith, and Pupil-Generated Content obtained by reason of the use of Provider’s Services hereunder, including software, website, service, or app, including mobile apps, whether gathered by Provider or provided by LEA or its users, students, or students’ parents/guardians. PII includes, without limitation, at least the following:

Criminal Records	Medical Records
Health Records	Social Security Number
Biometric Information	Disabilities
Socioeconomic Information	Food Purchases
Political Affiliations	Religious Information
Text Messages	Documents
Student Identifiers	Search Activity
Photos	Voice Recordings

Information in the Pupil’s Record

Information in the Student’s Email linkable to the email address or identifiable Pupil

**Pupil:** means any individual who is or has been in attendance at LEA and regarding whom LEA maintains the respective Pupil Record.

**Pupil Generated Content:** The term “pupil-generated content” means materials or content created by a Pupil during and for the purpose of education including, but not limited to, essays, research reports, portfolios, creative writing, music or other audio files, photographs, videos, and account information that enables ongoing ownership of Pupil content.

**Pupil Records:** Means both of the following: (1) Any information that directly relates to a Pupil that is maintained by LEA and (2) any information acquired directly from the pupil through the use of Provider’s instructional software or applications assigned to the pupil by an LEA teacher or other local educational LEA employee.
