**EXHIBIT “C”**

## DEFINITIONS

**Contractor:** For purposes of the Service Agreement, the term “Contractor” means Contractor of digital educational software or services, including cloud-based services, for the digital storage, management, and retrieval of pupil records. Within the DPA the term “Contractor” includes the term “Third Party Contractor” as used in the Student Data Protection Act and “Operator” as used in COPPA.

**De-Identified Information (DII):** De-Identification refers to the process by which the Contractor removes or obscures any Personally Identifiable Information (“PII”) from Education Records in a way that removes or minimizes the risk of disclosure of the identity of the individual and information about them.

**Education Records:** Educational Records are official records, files and data directly related to a student and maintained by the school or local education agency, including but not limited to, records encompassing all the material kept in the student’s cumulative folder, such as general identifying data, records of attendance and of academic work completed, records of achievement, and results of evaluative tests, health data, disciplinary status, test protocols and individualized education programs. For purposes of this DPA, Education Records are referred to as Student Data.

**Personally Identifiable Information (PII):** The terms “Personally Identifiable Information” or “PII” has the same meaning as that found in U.C.A § 53E-9-301, and includes both direct identifiers (such as a student’s or other family member’s name, address, student number, or biometric number) and indirect identifiers (such as a student’s date of birth, place of birth, or mother’s maiden name). Indirect identifiers that constitute PII also include metadata or other information that, alone or in combination, is linked or linkable to a specific student that would allow a reasonable person in the school community, who does not have personal knowledge of the relevant circumstances, to identify the student with reasonable certainty. For purposes of this DPA, Personally Identifiable Information shall include the categories of information listed in the definition of Student Data if information that, alone or in combination, is linked or linkable to a specific student that would allow a reasonable person in the school community, who does not have personal knowledge of the relevant circumstances, to identify the student with reasonable certainty.

**Student Generated Content:** The term “student-generated content” means materials or content created by a student during and for the purpose of education including, but not limited to, essays, research reports, portfolios, creative writing, music or other audio files, photographs, videos, and account information that enables ongoing ownership of student content.

**R277-487, Public School Data Confidentiality and Disclosure:** The implementing Rule authorized by Utah Constitution Article X, Section 3, which vests general control and supervision over public education in the Board, and further authorizes the Board to make rules to establish student data protection standards for public education, pursuant to Subsection 53E-9-

302(1) of the Utah Student Data Protection Act.

**Service Agreement:** Refers to the Master Subscription Agreement as referenced in a signed Schedule A to which this DPA supplements and modifies.

**School Official:** For the purposes of this Agreement and pursuant to 34 CFR 99.31 (B), a School Official is a contractor that: (1) Performs an institutional service or function for which the agency or institution would otherwise use employees; (2) Is under the direct control of the agency or institution with respect to the use and maintenance of education records; and (3) Is subject to 34 CFR 99.33(a) governing the use and re-disclosure of personally identifiable information from Education Records.

**Student Data:** Student Data means personally identifiable information, whether gathered by Contractor or provided by LEA or its users, students, or students' parents/guardians, that is descriptive of the student including, but not limited to, information in the student's educational record or email, first and last name, home address, telephone number, email address, or other information allowing online contact, discipline records, videos, test results, special education data, juvenile dependency records, grades, evaluations, criminal records, medical records, health records, social security numbers, biometric information, disabilities, socioeconomic information, food purchases, political affiliations, religious information text messages, documents, student identifies, search activity, photos, voice recordings or geolocation information. Student Data shall constitute Education Records for the purposes of this Agreement, and for the purposes of Utah and federal laws and regulations information that, alone or in combination, is linked or linkable to a specific student that would allow a reasonable person in the school community, who does not have personal knowledge of the relevant circumstances, to identify the student with reasonable certainty. Student Data as specified in Exhibit "B" is confirmed to be collected or processed by the Contractor pursuant to the Services information that, alone or in combination, is linked or linkable to a specific student that would allow a reasonable person in the school community, who does not have personal knowledge of the relevant circumstances, to identify the student with reasonable certainty. Student Data shall not constitute that information that has been anonymized or de-identified, or anonymous usage data regarding a student's use of Contractor's services.

**Subscribing LEA:** An LEA that was not party to the original Service Agreement and who accepts the Contractor's General Offer of Privacy Terms.

**Subprocessor:** For the purposes of this Agreement, the term "Subprocessor" (sometimes referred to as the "Subcontractor") means a party other than LEA or Contractor, who Contractor uses for data collection, analytics, storage, or other service to operate and/or improve its software, and who has access to Student Data.

**Targeted Advertising:** means presenting advertisements to a student where the advertisement is selected based on information obtained or inferred over time from that student's online behavior, usage of applications, or student data. Targeted advertising does not include advertising to a student (i) at an online location based upon that student's current visit to that location; or (ii) in response to that student's request for information or feedback, without retention of that student's online activities over time for the purpose of targeting subsequent ads.

**Utah Student Data Protection Act (Utah Title 53E-9-301 through 53E-9-310):** Means the applicable Utah regulations regarding student data, as further implemented by the Superintendent pursuant to R277-487.
