Provider shall not copy, reproduce or transmit any data obtained under the Service Agreement and/or any portion thereof, except as necessary to fulfill

the Service Agreement.

If requested by LEA, Provider shall reimburse LEA for costs incurred to notify parents/families of a breach not originating from LEA's use of the Service.

Educational Records: Educational Records are official records, files and data directly related to a student and maintained by the school or local education agency, including but not limited to, records encompassing all the material kept in the student’s cumulative folder, such as general identifying data, records of attendance and of academic work completed, records of achievement, and results of evaluative tests, health data, disciplinary status, test protocols and individualized education programs. For purposes of this DPA, Educational Records are referred to as Student Data.

NIST: Draft National Institute of Standards and Technology (“NIST”) Special Publication Digital Authentication Guideline.

Operator: The term “Operator” means the operator of an Internet Website, online service, online application, or mobile application with actual knowledge that the site, service, or application is used primarily for K–12 school purposes and was designed and marketed for K–12 school purposes. For the purpose of the Service Agreement, the term “Operator” is replaced by the term “Provider.” This term shall encompass the term “Third Party,” as it is found in applicable state statutes.

Personally Identifiable Information (PII): The terms “Personally Identifiable Information” or “PII” shall include, but are not limited to, student data, metadata, and user or pupil-generated content obtained by reason of the use of Provider’s software, website, service, or app, including mobile apps, whether gathered by Provider or provided by LEA or its users, students, or students’ parents/guardians. PII includes Indirect Identifiers, which is any information that, either alone or in aggregate, would allow a reasonable person to be able to identify a student to a reasonable certainty. For purposes of this DPA, Personally Identifiable Information shall include the categories of information listed in the definition of Student Data.

Provider: For purposes of the Service Agreement, the term “Provider” means provider of digital educational software or services, including cloud-based services, for the digital storage, management, and retrieval of pupil records. Within the DPA the term “Provider” includes the term “Third Party” and the term “Operator” as used in applicable state statutes.

Pupil Records: Means both of the following: (1) Any information that directly relates to a pupil that is maintained by LEA and (2) any information acquired directly from the pupil through the use of

instructional software or applications assigned to the pupil by a teacher or other LEA employee. For the purposes of this Agreement, Pupil Records shall be the same as Educational Records, Student Personal Information and Covered Information, all of which are deemed Student Data for the purposes of this Agreement.

EXHIBIT “F” DATA SECURITY REQUIREMENTS

Studies Weekly only has access to information that is provided via email or direct contact from the school/district. Data transferred through automated district rostering or individual user account interaction remains district property. Data released is used consistent with FERPA and Studies Weekly's policy for managing student education records and other confidential information. Partnering organizations grant Studies Weekly license to use such data to create accounts for teachers, students, administrators, etc. Such data will also allow automatically resolving the corresponding relationships of each of these. Data from partners can also be used to identify users and allow them appropriate access to their correct corresponding data stored on Studies Weekly's servers and to create aggregated reports about Studies Weekly user accounts. We will use your information to respond to you, regarding the reason you contacted us. We will not share your information with any third party outside of our organization, other than as necessary to fulfill your request. Student Data is stored in a secure database on Amazon's US-WEST-2 servers located in Oregon. We adhere to all industry-standard data security procedures including strong encryption, hashing, SSL, etc. All Studies Weekly content is transmitted via secure protocols including https and sftp. User passwords are secured via a 256-bit encryption scheme or an irreversible hash algorithm. Studies Weekly is compliant with relevant security storage requirements and implements firewall controls to its database-servers to limit access to only those Studies Weekly servers that share a security group. All servers limit access to only users who are registered via an RSA key pair. Users with access are required to encrypt their working machines to protect their RSA private keys. Data at rest is encrypted and system user passwords are further encrypted or hashed within the database. We take necessary precautions to be in compliance with the California Online Privacy Protection Act (CalOPPA), Family Educational Rights and Privacy Act(FERPA) and with the Children's Online Privacy Protection Act (COPPA). We will not distribute your personal information to outside parties without your consent.
