Contractor agrees to maintain the confidentiality and security of PII in accordance with applicable New York, federal and local laws, rules and regulations.

2. Authorized Use.

Contractor has no property or licensing rights or claims of ownership to PII, and Contractor must not use PII for any purpose other than to provide the Services set forth in the Service Agreement. Neither the Services provided nor the manner in which such Services are provided shall violate New York law.

3. Data Security and Privacy Plan.

Contractor shall adopt and maintain administrative, technical and physical safeguards, measures and controls to manage privacy and security risks and protect PII in a manner that complies with New York State, federal and local laws and regulations and the EA's policies. Education Law Section 2-d requires that Contractor provide the EA with a Data Privacy and Security Plan that outlines such safeguards, measures and controls including how the Contractor will implement all applicable state, federal and local data security and privacy requirements. Contractor's Data Security and Privacy Plan is attached to this DPA as Exhibit C.

4. EA's Data Security and Privacy Policy

State law and regulation requires the EA to adopt a data security and privacy policy that complies with Part 121 of the Regulations of the Commissioner of Education and aligns with the NIST CyberSecurity Framework. Contractor shall comply with the EA's data security and privacy policy and other applicable policies.

5. Right of Review and Audit.

Upon request by the EA, Contractor shall provide the EA with copies of its policies and related procedures that pertain to the protection of PII. It may be made available in a form that does not violate Contractor's own information security policies, confidentiality obligations, and applicable laws. In addition, Contractor may be required to undergo an audit of its privacy and security safeguards, measures and controls as it pertains to alignment with the requirements of New York State laws and regulations, the EA's policies applicable to Contractor, and alignment with the NIST Cybersecurity Framework performed by an independent third party at Contractor's expense, and provide the audit report to the EA. Contractor may provide the EA with a recent industry standard independent audit report on Contractor's privacy and security practices as an alternative to undergoing an audit.

6. Contractor's Employees and Subcontractors.

- (a) Contractor shall only disclose PII to Contractor's employees and subcontractors who need to know the PII in order to provide the Services and the disclosure of PII shall

be limited to the extent necessary to provide such Services. Contractor shall ensure that all such employees and subcontractors comply with the terms of this DPA.

If at any point a subcontractor fails to materially comply with the requirements of this DPA, Contractor shall: notify the EA and remove such subcontractor's access to PII; and, as applicable, retrieve all PII received or stored by such subcontractor and/or ensure that PII has been securely deleted and destroyed in accordance with this DPA. In the event there is an incident in which the subcontractor compromises PII, Contractor shall follow the Data Breach reporting requirements set forth herein.
- (d) Contractor shall take full responsibility for the acts and omissions of its employees and subcontractors.
- (e) Contractor must not disclose PII to any other party unless such disclosure is required by statute, court order or subpoena, and the Contractor makes a reasonable effort to notify the EA of the court order or subpoena in advance of compliance but in any case, provides notice to the EA no later than the time the PII is disclosed, unless such disclosure to the EA is expressly prohibited by the statute, court order or subpoena.

7. Training.

Contractor shall ensure that all its employees and Subcontractors who have access to PII have received or will receive training on the federal and state laws governing confidentiality of such data prior to receiving access.

retention is either expressly authorized for a prescribed period by the Service Agreement or other written agreement between the Parties, or expressly requested by the EA for purposes of facilitating the transfer of PII to the EA or expressly required by law. As applicable, upon expiration or termination of the Service Agreement, Contractor shall transfer PII, in a format agreed to by the Parties to the EA.

- (b) If applicable, once the transfer of PII has been accomplished in accordance with the EA's written election to do so, Contractor agrees to return or destroy all PII when the purpose that necessitated its receipt by Contractor has been completed. Thereafter, with regard to all PII (including without limitation, all hard copies, archived copies, electronic versions, electronic imaging of hard copies) as well as any and all PII maintained on behalf of Contractor in a secure data center and/or cloud-based facilities that remain in the possession of Contractor or its Subcontractors, Contractor shall ensure that PII is securely deleted and/or destroyed in a manner that does not allow it to be retrieved or retrievable, read or reconstructed. Hard copy media must be shredded or destroyed such that PII cannot be read or otherwise reconstructed, and electronic media must be cleared, purged, or destroyed such that the PII cannot be retrieved. Only the destruction of paper PII, and not redaction, will satisfy the requirements for data destruction. Redaction is specifically excluded as a means of data destruction.
- (c) Contractor shall provide the EA with a written certification of the secure deletion and/or destruction of PII held by the Contractor or Subcontractors.
- (d) To the extent that Contractor and/or its subcontractors continue to be in possession of any de-identified data (i.e., data that has had all direct and indirect identifiers removed), they agree not to attempt to re-identify de-identified data and not to transfer de-identified data to any party.

Contractor agrees that it will not sell PII or use or disclose PII for a Commercial or Marketing Purpose.

5 Chelsea Place
Clifton Park, NY 12065
carmrebe@shenschools.org

Contractor agrees that it will cooperate with the EA and law enforcement, where necessary, in any investigations into a Breach. Any costs incidental to the required cooperation or participation of the Contractor or its' Authorized Users, as related to such investigations, will be the sole responsibility of the Contractor if such Breach is attributable to Contractor or its Subcontractors.

14. Notification to Individuals.

Where a Breach of PII occurs that is attributable to Contractor, Contractor shall pay for or promptly reimburse the EA for the full cost of the EA's notification to Parents, Eligible Students, teachers, and/or principals, in accordance with Education Law Section 2-d and 8 NYCRR Part 121.

15. Termination.

EXHIBIT C

Data Protection and Privacy Plan

1. Outline how you will implement applicable data security and privacy contract requirements over the life of the Contract.

We adhere to established policies and procedures. This includes regular monitoring of data security measures, ongoing employee training, robust access controls, encryption of data, incident response plans, and compliance with data protection regulations.

2. Specify the administrative, operational and technical safeguards and practices that you have in place to protect PII.

We use contemporary and industry-standard technical measures. We have written contracts with people who have access to PII along with obligations and sanctions to ensure PII safety. We provide access to PII only to individuals who have a necessity and only to the extent necessary.

3. Address the training received by your employees, officers, and any subcontractors engaged in the provision of services under the Contract on the federal and state laws that govern the confidentiality of PII.

We have comprehensive training for employees and officers, and, if possible, subcontractors. Training focuses on US federal and state laws and entails legal requirements, best practices, and use of technical safeguards. We have regular training to keep employees up to date on any new rules or practices.

4. Outline contracting processes that ensure that your employees and any subcontractors are bound by written agreement to the requirements of the Contract, at a minimum.

We have written agreements with all employees and subcontractors, which explicitly outline their obligations and responsibilities related to data privacy. We mandate adherence to applicable laws and regulations. We vet subcontractors and their products and privacy policies to ensure their compliance.

5. Specify how you will manage any data security and privacy incidents that implicate PII and describe any specific plans you have in place to identify breaches and/or unauthorized disclosures, and to meet your obligations to report incidents to the EA.

We have implemented monitoring systems and access controls to detect unauthorized access or breaches. Upon a breach, we follow predefined protocols for containment, investigation, and mitigation. We follow applicable laws and contractual obligations when reporting incidents and have a predefined incident report system.

6. Describe how data will be transitioned to the EA when no longer needed by you to meet your contractual obligations, if applicable.

No transferable data currently collected. 99math only collects persistent identifiers and metadata which is deleted after end of contract.

7. Describe your secure destruction practices and how certification will be provided to the EA.

We use industry-standard techniques (secure erasure or physical destruction of storage). Maintain detailed records and documentation of data destruction processes, which include timestamps, method and responsible personnel. A comprehensive report is created, outlining the data destruction activities performed, along with supporting documentation and evidence of compliance with applicable regulations.

8. Outline how your data security and privacy program/practices align with the EA's applicable policies.

We review all applicable legislation, contracts, privacy plans, privacy policies and other such documents to make sure that our privacy practices follow their terms.

9. Outline how your data security and privacy program/practices materially align with the NIST CSF V1.1. Please include details regarding how you will identify, protect, respond to, and recover data security and privacy threats, as well as how you will manage your security controls.

Identification: regular risk assessments to identify potential threats and vulnerabilities. Monitoring security events to detect anomalies or suspicious activities.

Protection: robust security controls such as access controls, encryption, network segmentation, use of 2FA, secure coding practices.

Response: an incident response plan is in place.

Recovery: we maintain data backups to ensure recoverability to a known secure state. We validate the integrity of the recovered data.

Security Controls Management: we conduct assessment of security controls, do penetration testing to validate their effectiveness. We review and update our security controls as needed based on changes in technology, threats, and regulatory requirements.
